American Railroad Journal

Saturday, August 26, 1876.

Financial and Commercial Affairs.

Notwithstanding the outflow of currency to the interior in connection with the movement of the crops, the offerings of capital here continue on a very extensive scale, giving all responsible borrowers the advantage in all pending negotiations as to rates. The demand is unusually moderate, and wholly free from urgency in any prominent instance. Reports from Washington as to the contemplated resumption of funding operations, and the formation of a new syndicate, have formed an interesting topic for discussion in financial circles, but have not otherwise seriously influenced the course of the several markets here. Call loans have been quoted at from 1 to 2 per cent. and the best mercantile credits at from 3@5 per cent per annum. The Coal trade interests have been more or less excited during the week, by reports of the abandonment of the combination movement. On Tuesday, this change of programme was formally made public, and resulting therefrom was the announcement that on next Tuesday, Aug. 29th, 500,000 tons of coal would be offered at auction in this city on account of the Philadelphia and Reading Coal and Iron Company, Delaware, Lackawanna and Western Railroad Company, Pennsylvania Coal Company, and Delaware and Hudson Canal Company.

National Bank notes received at the Treasury Department last week for redemption were to the amount of $4,471,000. The City Banks have had their deposits cut down $508,500, and their legal tender reserve reduced $1,098,900. The specie average has been diminished $1,218,600. The loan and discount item has been enlarged

$263,600. The circulation has been contracted $559,800. The U. S. Sub Treasury in this city closed the week with a currency balance of $32,751,339 against $30,303,257 the preceding week; and a coin hoard of $33,093,589 against $31,495,648 on the previous return. The City bank exchanges it. currency reached $295,419,064 or a daily average of $31,495,648. The customs revenue of the port during the week was $2,271,000.

The City banks reported their average of gold last week at $19,873,400, and their greenback average at $57,584,300. Their deposits stood at $226,006,600. The loan item was $253,339,400. The circulation was $14,714,600.

The City Bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $20,956,050, as against $23,146,425, the preceding week.

The aggregate of the outstanding U. S. currency of all denominations, August 1st, was $403,022,216. The outstanding amount of legal tender notes is $369,619,228. The National bank circulation is now $327,489,841, including $2,092,190 of national gold bank notes.

On Wednesday of this week the cash balances of the Treasury Department at Washington were: of Currency $11,864,484; special deposit of legal tenders for the redemption of certificates of deposit, $33,855,000; Coin, $62,190,360; Coin certicates, $29,464,100.

The income of the Government from internal revenues thus far in the current fiscal year, commencing with July 1, 1876, has been about 17½ millions; and from Customs, 21 millions.

The week's import entries of Foreign Merchandise at New York were $5,179,595, including $2,137,319 of Dry Goods.

Gold has been depressed in price during the week, influenced to some extent by the reports and rumors relative to the refunding of the public debt. The speculation has lacked spirit. The customs call has been moderate and the export drain quite limited. The extremes of the price during the week have been 110½@111¼, closing on Wednesday at 110¾, as against 111⅛ on Wednesday of the preceding week. The specie outflow last week was $577,820 against $279,600, the previous week. The imports of specie at this port last week were $271,100, and since January 1st $3,120,001 as against $8,226,655 same time last year. The customs demand for gold last week averaged $378,500 per day. Foreign Exchange has been moderately sought after and quoted somewhat firmer. Bankers sixty day bills on London closed on Wednesday at $4 87@$4 88; sight bills on London at $4 89@$4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,163,132. The week's imports of Dry Goods and general merchandise were to the specie value of $5,179,595 as against $7,600,230 the corresponding week of 1875.

Government Securities have been moderately active, closing generally more firmly. The inquiry has been mostly from investment sources and for the later issues of the Gold bearing bonds. The new 5 per cent Geneva award bonds have been selling at 117¼@117⅜. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $339,395,850.

U. S sixes of 1881 closed on Wednesday of this week at 120@120¼; U. S. Five-Twenties of 1865, at 114@114¼; U. S. Five-Twenties of 1865 consolidated, 115@115¼; U. S. Five Twenties of 1867 119@119¼; U. S. Five-Twenties of 1868, 121@121¼; U. S. Ten-Forties at 119½@119¾; U. S. Fives of 1881, (Funding Loan) 117@117¼; Six per cent. currency Sixes 126¼ 126½.

More demand has been reported for State and Railway bonds chiefly on investment account, and prices of the more substantial loans have been quoted generally firmer. And in the line of Railway and Miscellaneous share property the week's business has been comparatively liberal at however unsettled prices, closing with some show of firmness and buoyancy.

The New York Herald, in its Money article of Wednesday, the day succeeding the disruption of the coal combination, says that "however disastrous the present results may be to *bona fide* investors, the dismemberment of a ring which had become not only odious to the public but most damaging in its effects upon commercial and manufacturing interests is greeted with intense satisfaction. It is felt that at least one incubus has been removed from trade, now struggling to its feet, and that a restoration of the various industries in which cheap coal plays so large a part may in good time follow."

General business has been on a comparatively moderate scale during the week in the line of domestic produce, values of which have been unsettled. Petroleum has further advanced, checking the export movement. Foreign merchandise has been more sought after and held more firmly. Hardware, Dry Goods, Boots and Shoes, brisker. Metals generally quiet. Eglinton Pig Iron quoted here at $27@$27 50; Glengarnock $27 50@$28 50; Coltness $28 50@$29 50; No. 1 American Pig at $22@$23; No. 2 do. at $20@$22 00; Forge $18@20; American Rails at works $42 50@$45 00; Old Rails $21@$22. Wrought Scrap $28. Ocean freights have been more active but at irregular figures, especially for berth room. At the close the market exhibited rather more steadiness. The Grain movement has been somewhat heavier.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ The new President of the Staten Island Railroad Co. has recently made several important changes and improvements upon the road by the purchase of new rolling stock and the laying of steel rails. On the 1st of September a midnight train will be run from Clifton to Tottenville, connecting with the 12 o'clock boat from New York.

Dayton and Southeastern Railroad.

This road is 113 miles in length, extending from Dayton to Wellston, in Jackson Co., Ohio. The officers are: S. N. Yeoman, President; J. O. Arnold, Secretary; J. S. Aukens, Treasurer. The office of the company is at Dayton, Ohio. Capital stock subscribed, $600,000. Bonded debt, $600,000. Seventy miles of the road are graded and ready for the ties, which are already on hand together with 600 tons of iron 35 pounds to the yard. Tracklaying, which was commenced on the 14th inst., will progress until the completion of the road. The contract for the construction of the road was let to Messrs. Phelps, King & Co. of Springfield, Mass., for the sum of $6,499 91 per mile. The road traverses a rich agricultural, stock raising and mineral country, through communities abounding in wealth. It was originally intended for a standard gauge, but when the narrow gauge statistics were set forth and examined, the directors determined to build a three feet gauge, and are a unit in their decision.

Union Pacific Railroad.

The gross earnings of the Union Pacific Rail road for the year ending June 30, 1876, were $12,-109,991 50, the operating expenses $4,934,082 50, and the net earnings $7,175,909. For the year ending June 30, 1875, the gross earnings were $11,522,021 54, the operating expenses $4,788,-630 47, and the net earnings $6,733,391 07—showing an increase in gross earnings of $587.969 96, with an increase in expenses of $145,452 03, making the increase in net earnings $442 517 93.

☞ The gross earnings of the Atchison, Topeka and Santa Fe Railroad for the six months ending June 30, 1876, were $1,045,802 23, the operating expenses (50.61 per cent) $529,324 70, and the net earnings $516,477 53. For the corresponding six months of 1875, the earnings were $575,677 14, the expenses (48.89 per cent) $281,-429 75, and the net earnings $294,247 59—showing a net increase in 1876 of $222 230 14. Average miles in 1876, 649; in 1875, 508.

☞ As a means of determining the comparative duration of iron and steel rails, the German Railway Association, at a meeting held in June last, agreed upon a uniform system of returns for registering the duration of rails. They also resolved to petition for an official classification of irons and steels by the government, so that the statistics of wear may be accurately compared.

☞ The work of changing the track on the completed portion of the Harrisonburg and Fredericksburg (Va.) Railroad to a 3-foot gauge is progressing. The engineers report having found an easy grade over the Blue Ridge. It is the purpose of the Royal Land Company to put the road under contract from Orange Courthouse to Rawley Springs at once. The work is to be completed in twelve months.

☞ The receipts into the Treasury of Allegheny, Penn., during the month of July, (including $72,868 29 balance in hand July 30) were $701,289 72, and the disbursements $389,758 63, leaving a balance in the Treasury July 31 of $311,-531 09.

☞ V. L. Lary, of Hillsdale, N. J., has been appointed Receiver of the New Jersey and New York Railway Company.

St. Louis, Quincy and St. Paul Railroad.

The officers of the St. Louis, Quincy and St. Paul Railroad Company, (now generally known as the Quincy and Albia Line) elected on the 10th inst., are: W. D. Marvel, of New York, President; E. Pratt Buell, of St. Louis, Vice President and Engineer; Wm. Hill, of Bloomfield, Iowa, Treasurer; H. H. Trimble, of Bloomfield, Iowa; Attorney; and C. H. Spencer, of Quincy, Ills., Secretary. The road is graded almost its entire length, and the president says he will complete the larger portion of the line before the present year is ended. A large quantity of iron has already been negotiated for, and the work of laying the track will probably begin at once. When completed, the road will be an almost straight line from St. Louis to St. Paul. The office of the company is at Lagrange, Mo.

☞ The election in Boston on the 21st inst. of the mortgage certificate holders of the Eastern Railroad for six directors resulted in the choice of the following gentlemen: A. P. Rockwell of Boston, G. S. Morison, of New York, J. S. Ludlam of Lowell, G. P. King of Boston, G. E. B. Jackson of Portland, G. S. Curtis of Manchester, Mass.

☞ Judge Stone, at Boulder City, Colorado, on the 12th inst., delivered an opinion on the application of the Union Pacific railroad, by Ames and Duff, trustees, against the Colorado Central railroad, for an injunction and the appointment of a Receiver, sustaining it and appointing David H. Moffitt, jr., the Cashier of the First National Bank of Denver, as Receiver.

☞ The directors of the Consolidated European and North American Railway Company, elected on the 15th inst., are: C. P. Stetson, J. S. Ricker, Wm. Flowers, J. S. Wheelwright, Arad Thompson, G. K. Jewett, N. Woods, J. W Emery, C. N. Stayner, E. R. Burpee, R. Robinson, Alex. Jardine, C. H. Fairweather.

☞ The Blossburg Register says that the State Line Road is progressing fast, about eight miles being laid on the Elmira end. The Northern Central is laying the third rail for the broad gauge from its junction with the "State Line" at Elmira.

☞ The Ithaca and Athens portion of the Geneva, Ithaca and Athens Railroad will be sold on the 1st of September; and the Geneva and Ithaca portion of the consolidated road on the 2nd of September.

☞ W. B. Hayford, of Bangor, Me., has been appointed by the court as trustee under the second mortgage bonds of the European and North American Railway, in place of J. Edgar Thomson, deceased.

☞ The Long Meadow Railroad has been leased to the Connecticut Valley Railroad Company at the rate of $7,000 per year, and taxes.

☞ James A. Weston has been elected Treasurer of the Suncook Valley (N. H.) Railroad Company, Vice E. W. Harrington, deceased.

☞ The first spike on the Dayton and Southeastern Railroad was driven at Xenia, Ohio, on the 14th inst.

MARSHAL'S SALES.

Marshal's Sale.

George L. Douglass, trustee, &c., pl'ffs, against Louisville, Cincinnati and Lexington Railroad Company, def'ts, and cases heard therewith—Louisville Chancery Court, No. 27,787.

BY virtue of a judgment rendered in the above-named case and the cases heard therewith, the undersigned will,

ON MONDAY, DECEMBER 4, 1876,

sell at public outcry at the door of the court-house, in the city of Louisville, Ky., about the hour of 11 o'clock, A. M., to the highest bidder, the following described property, viz:

All the rights, properties and franchises of the Louisville, Cincinnati and Lexington Railroad Company, including all the right, title and interest of said company free from the liens, mortgages or claims of any kind of the parties herein except as hereinafter stated in and to its line of railroad from its depot on Brook st., in the city of Louisville, through the counties of Jefferson, Oldham, Henry, Franklin, Woodford, Scott and Fayette to its depot on Water st., in the city of Lexington, and from Lagrange Junction, in Oldham county, through the counties of Oldham, Henry, Carroll, Gallatin, Grant, Boone, Kenton and Campbell, to its junction in the city of Newport with the Newport and Cincinnati Bridge, with all its improvements and appurtenances, right of way, lands adjacent thereto, depots, and the land upon which they are situate, and adjacent thereto, machine shops, round houses, cattle-pens, and the lands on which they are situate and adjacent thereto, turn-outs, side-tracks, switches, engines, passenger cars, baggage cars, freight cars, dirt cars, hand cars and all other rolling stock of every description, machinery, tools, implements, fixtures, furniture, whether in buildings owned by it or leased by it or the receiver, materials and supplies of every description, so as to vest in the purchaser all of the right, title and interest of said Louisville, Cincinnati and Lexington Railroad Company, and to all property owned by it or in which it has any interest on said day of sale except choses in action, and all its rights and franchises free from any lien or claim of any of the parties to this suit except as hereinafter stated.

The purchaser or in the event of his transferring his bid before confirmation of the sale and the transferee thereof being accepted by the court, such transferee shall in any event in addition to the amount bid by him be required to assume the following outstanding debts, and all the engagements and obligations of the mortgage and deed of trust given to secure them, viz: One hundred bonds of one thousand dollars each, executed by the city of Louisville, the payment whereof was assumed by the Louisville and Frankfort Railroad Company, and secured by deed of mortgage dated 20th November, 1854, and recorded in the Jefferson County Court clerk's office, in deed book —, page —. Said bonds mature July 1, 1881, and bear interest at 6 per cent. per annum from July 1, 1876, payable semi-annually on the 1st day of each July and January from January 1, 1877, to July 1, 1881, inclusive.

Twelve bonds of one thousand dollars each, executed by Louisville and Frankfort Railroad Company, and secured by deed of trust from said corporation to James Guthrie, Virgil McKnight and Joshua B. Bowles, dated March 12, 1857, five of which bonds mature July 1, 1877, and seven of which mature July 1, 1878, and all of which bear interest at 6 per cent. per annum, payable semi-annually from July 1, 1876, the first five bearing coupons payable January 1, 1877, and July 1, 1877, and the other seven bearing coupons payable January 1, 1877, July 1, 1877, January 1, 1878, and July 1, 1878.

In addition to the assumption of the above amounts, and the engagements and obligations of the above mortgage and deed of trust, the undersigned will first offer said property, subject to the assumption by the purchaser of the following amounts and of the engagements, obligations, rights, duties and powers of the deeds of trust given to secure them respectively, to-wit: three thousand bonds of one thousand dollars each, dated January 1, 1867, and due January 1, 1897, bearing interest from July 1, 1876, at the rate of seven per cent. per annum, payable semi-annually on the first day of each January and July from January 1, 1877, to January 1, 1897, both inclusive, and same secured by deed of trust from the Louisville and Frankfort and Lexington and Frankfort Railroad Companies to Norvin Green, trustee, dated January 1, 1867, and hereinafter called the Norvin Green trust deed.

Nine hundred and eighty-nine bonds of one thousand dollars, each dated April 1, 1870, and due April 1, 1900, bearing interest from October 1, 1876, at the rate of 8 per cent. per annum, payable semi-annually on the first day of each April and October from April 1, 1877, to April 1, 1900, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to George L. Douglass, trustee, dated April 1, 1870, and hereinafter called the Douglass trust deed.

Three hundred and seventy-four bonds of one thousand dollars, each dated October 1, 1872, and due October 1, 1902, bearing interest from October 1, 1876, at the rate of eight per cent. per annum, payable semi-annually, on the first day of each April and October from April 1, 1877, to October 1, 1902, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to A. D. Hunt, trustee, dated October 7, 1872, hereinafter called the Hunt trust deed.

One million five hundred and eighty-two thousand five hundred dollars in bonds, some of one thousand dollars and some of five hundred dollars, each dated April 1, 1873, and due 1st January, 1903, bearing interest from July 1, 1876, at the rate of seven per cent. per annum, payable semi-annually on the first day of each July and January from January 1, 1877, to January 1, 1903, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to James Lees, trustee, dated April 1, 1873, and hereafter called the Lees trust deed.

When said property is so offered, subject to the assumption by the purchaser of the amounts secured as above by said six mortgages, and his assumption of the engagements, obligations, rights, powers and duties of said six mortgages, if an amount is bid equal to the amount of interest due and unpaid thereon regarding the bonds as not matured, together with unpaid costs of said mortgages, and costs of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bidder. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first five mortgages (excluding the Lees trust deed), and his assumption of the engagements, obligations, rights, powers and duties of said five mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said five mortgages regarding the bonds as not matured, and unpaid costs of the said five mortgages and of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bidder therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first four mortgages (excluding the Lees and Hunt trust deeds), and his assumption of the engagements, obligations, rights, powers and duties of said four mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said four mortgages regarding the bonds as not matured, and unpaid costs of said four mortgages and costs of sale, the undersigned will proceed to sell the property so subject, and accept the highest bidder therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first three mortgages (excluding the Lees, Hunt and Douglass trust deeds), and his assumption of and subjection to the engagements, obligations, rights, powers and duties of said three mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said three mortgages regarding the bonds as not matured, and unpaid costs of said three mortgages and of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bid therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first two mortgages (excluding the Lees, Hunt, Douglass and Green trust deeds), and his assumption of and subjection to the engagements, obligations, rights, power and duties of said two mortgages, and will accept the highest bidder therefor.

The purchaser, or in the event of his transferring his bid before the sale is confirmed, and his transferee being accepted by the court, such transferee will be required to execute a separate obligation to the mortgagee or trustee of each mortgage or deed of trust to which he buys subject, and shall, by such obligation, bind himself to the payment of the debts secured by such mortgage or deed of trust, principal and interest as and when they become due, and to the performance of all the engagements and obligations contained in said mortgage or deed of trust, and shall subject himself and the property purchased by him or future to be acquired by him, as the owner of said railroad, to all the duties, conditions, engagements and obligations of said mortgage or deed of trust, and confer upon said mortgagee or trustee and his *cestui que* trusts all the powers, rights and duties conferred by the original mortgage or deed of trust, and in every way to bind himself and the property then owned and future to be acquired by him as owner of said railroad, and to confer upon said mortgagee or trustee and his *cestui que* trust all the rights and powers as if he, the said purchaser, had been the grantor in said original mortgage or deed of trust, and the maker of said bonds and coupons.

If said property is sold subject to any other mortgages than the ones of the city of Louisville and Guthrie, McKnight and Bowles, it will be sold on a credit of 3, 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36, 39, 42, 45, 48, 51, 54, 57 and 60 months, for equal parts of the purchase money. If sold subject to these mortgages, it shall be sold on a credit of 3, 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36, 39, 42, 45, 48, 51, 54, 57, 60, 63, 66, 69, 72, 75, 78, 81, 84, 87, 90, 93 and 96 months, for equal parts of the purchase money.

The purchaser will be required to execute bonds, with good security, bearing interest from date until paid at 6 per cent. per annum, and said bonds will be drawn payable on or before the day of their respective maturities. The bidder accepted by the marshal will be required to at once deposit with said marshal the sum of $20,000 as security for his compliance with the terms of sale, which sum the marshal shall at once pay into court, which may be withdrawn by the said bidder on confirmation of the report of sale. A lien will be retained on the property sold to secure the bonds of the purchaser, and any obligation executed by him for mortgages or deeds of trust assumed by him.

C. C. W. ALFRIEND,
Marshal Louisville Chancery Court.

Steam Navigation.

The fifth annual meeting of the National Board of Steam Navigation will be held in Baltimore on the 6th of September. Matters pertaining to the steam interests of the whole country will be acted upon, and representative men engaged in steamer property on the lakes, rivers and seaboard are expected to attend. Since the organization of the Board in 1872 it has been actively at work with a view to securing such legislation by Congress as will best subserve the interests involved, and protect the property rights of shippers and the lives of passengers. It has held annual meetings in Philadelphia, Buffalo and New York. A national convention will be held in Cleveland on the 24th of September. The officers for the current year are: President, J. T. Whiting, Detroit, Michigan; First Vice President, Thomas Clyde, Philadelphia; Second Vice President, R. H. Woolfolk, Louisville, Ky.; Corresponding Secretary, B. S. Osborn, New York; Recording Secretary, Wm. M. James, Philadelphia; Treasurer, Fred. Nickerson, Boston.

☞ A meeting of the Chesapeake and Ohio Canal board was held at Cumberland, Md., on the 15th inst. The report of the president for July showed that the coal tonnage was 101,890.10 tons. The decrease as compared with the corresponding month of last year is 30,152 tons. The report shows the revenue for the month to be $48,430 62; expenses $16,923 49, leaving a balance of $31,506 93. The next meeting of the board will be held at Annapolis on the 7th of September.

☞ Judge Wheeler has decided that the bonds issued by Bennington and other towns in Vermont, in 1867, in aid of the construction of the Lebanon Springs Railroad, are valid, and that interest on them—which the towns have for several years refused to pay, on the ground that the bonds were unconstitutionally issued, and for other similar reasons—must be paid by the towns.

Wilkesbarre Coal	100 3,400,000	M. & N.	Nov '69 5

The Coal Trade.

The coal tonnage for the week ending the 12th instant, as reported by all the companies, amounted to 426,200 tons, against 612,269 tons in corresponding week last year, a decrease of 186 069 tons. The total amount of anthracite mined for the year is 9,216,459 tons, against 10,096 830 for same period last year, a decrease of 790,371 tons. The quantity of bituminous coal sent to market for the week was 79,003 tons, against 79,897 tons for corresponding week last year, a decrease of 894 tons. The whole bituminous tonnage from the beginning of the coal year is 2,241 184 tons, against 2,214,679 tons in corresponding time last year, an increase of 26,505 tons. The total tonnage of all kinds of coal for the week is 505,-203 tons, against 692 163 to corresponding date last year, a decrease of 186,963 tons, and the total tonnage for the coal year is 12,057,643 tons, against 12,821,509 tons to same date last year, a decrease of 763,866 tons. The quantity of coal and coke carried over the Pennsylvania Railroad during the last week was 79,772 tons, of which 66,805 tons were coal and 12,967 tons coke. The total carried this year is 2,640,790 tons, of which 2,087,996 were coal and 442,881 coke. This total embraces all the coal carried over the road, east and west.—*Phila. Ledger, Aug.* 21.

☞ The Attorney General of the State of Pennsylvania has notified the Erie Railway Company that it must rebuild the bridge across the Delaware River connecting Port Jervis, N. Y., with Matamoros, Penna., which was blown down during a violent gale eight years ago. When the bridge was destroyed, it seems that James Fisk, Jr., obtained legislation in Pennsylvania which was supposed to release the Erie Railway Company from its obligation to build and maintain the bridge. This legislation is now discovered to be void. The Lehigh and Eastern Railroad, it is stated, will use the Matamoros bridge to connect with the Erie Railway.

☞ The Woburn (Mass.) Journal says that "the movement for a narrow gauge railway for Woburn is assuming definite form, and considerable stock has been subscribed. It is proposed to connect with the Boston and Maine at Wilmington, run down through North Woburn, go through this town somewhere near the old canal bed, the west side of Winchester, and then either go to Arlington or West Medford, as the interests of the stockholders shall determine. The road may enter Boston at the Maine depot, or at the Providence. The latter meets with considerable favor, as it would land passengers near the business centre."

☞ Articles of incorporation of the Maple River Railroad Company have been filed with the Secretary of State of Iowa. This company proposes to build a railroad from some point in Carroll or Greene county, to Onawa, in Monona county, and then run a branch from there to Correctionville, Woodbury county. The capital stock is $1,000,000.

☞ Articles of corporation for the Jonesboro Narrow Gauge Railroad have been filed in the office of the Secretary of State of Arkansas. This road is intended to tap the St. Louis, Iron Mountain and Southern Railroad at Walnut Ridge, Lawrence county, and run to Jonesboro, Craighead county.

☞ The Creston and Sioux City (Iowa) Railroad Company has been organized with a capital of $15,000 per mile.

Queer Legislation.

For the first time in the history of mail transportation in this country, Congress at its last session separated the appropriation for inland mail transportation, so as to provide an appropriation for the service by railroad separate and apart from that on other routes. For "star service," which is service of all kinds, except that performed by railroads, an ample appropriation was provided, but it was very meagre for railroad service. The Postmaster General is therefore unable to order any service on new railroads. Application was made recently by the Southern Pacific Railroad Company for an order to carry the mails on an extension between Caliente and Andrews' Station, which would cost about $10,000. The mails are now carried by a star route at a cost of nearly $22,000. By transfer from the star route to the railroad a saving of $12,000 could be accomplished, but there is no money to be paid for the railroad services, while there is an ample appropriation to pay for the other, and consequently the transfer cannot be made without a violation of law.

☞ A Chesapeake and Ohio Canal Extension meeting was held at Cumberland, Md., on the 15th inst., Hon. Patrick Hammill in the chair. The chairman said that a committee had visited Congress and failed to secure any assistance in the premises, and it was resolved to adopt the only remaining relief, viz, the establishing of a feeder in the shape of a railroad from Cumberland to the mouth of Savage river. This step is expected to be consummated by the aid of the State of Maryland and by such other assistance as can be secured. It was resolved that a committee ascertain by preliminary survey and estimates the cost of the proposed road and its probable business and profits.

☞ The Boston Advertiser says that the latest railroad project thought of "is an elevated railroad, starting at the junction of Kingston and Bedford streets, running down the former and out over Albany and Hampden streets and Grove Hall avenue to a point near Warren street. Here it becomes a ground line, turns to the right or left, and continues by a tunnel or cutting, parallel with Grove Hall avenue, until just beyond Wales street, where it emerges and follows Back street on the easterly side, crosses it beyond Oakland street and ends in Hyde Park, near the junction of Huntington avenue and Westminster street. The proposed line will be about seven miles in length."

☞ An experiment is being made in the practical workings of the Prismoidal Railroad, near Sonoma. Two miles have already been graded, beginning at deep water and running towards Sonoma, and the track will soon be laid and a locomotive and cars put on. If it meets the expectations of its projectors it is in contemplation to extend it to Santa Rosa.

☞ A certificate of incorporation of the Alliance and Mt. Union Street Railway Company was filed with the Secretary of State of Ohio on the 15th inst., by William Neely and others. The capital stock is $15,000, in shares of $25 each.

☞ The officers of the Calumet and Hecla Mining Company, recently elected, are: Alexander Agassiz, President; Quincy A. Shaw, George Higginson, H. H. Hunnewell, James M. Wright.

MACHINERY.

BOGARDUS' PATENT UNIVERSAL ECCENTRIC MILLS—For grinding Bones, Ores, Sand, Old Crucibles, Fire Clay, Guanos, Oil Cake, Feed, Corn, Corn and Cob, Tobacco, Snuff, Sugar, Salts, Roots, Spices, Coffee, Cocoanut, Flaxseed, Asbestos, Mica, etc., and whatever cannot be ground by other mills. The Great Coal Sale.

The result of the sale of Anthracite Coal, by auction, to the extent of half a million tons, which was made on Tuesday, at the instance of the great coal companies, was not so favorable as could have been desired, and by many expected, yet affords abundant cause for congratulation. In the first place, the crisis was fairly and fully met. There was no effort to "support the market;" to give to the prices obtained any artificial bolstering. The quantity offered—500,000 tons—was in excess of the requirements of the market at the moment. The sale was made at a time when much of the summer steamboating draws to an end, and when many householders have laid in their winter supplies. Thus, with an excessive offering, there were many obstacles to the development of the full strength of the market. The following is a comparison of prices, with those obtained at the last sale that was made previous to the formation of the combination which has been but recently dissolved:

Description.	Aug., 1876.	Jan., 1872.
Steamboat	$2 80	$3 77½
Grate	2 77½	3 59½
Egg	2 77½	3 51
Stove	3 60	4 09
Chestnut	2 72½	3 37½

Then, the offering was only a hundred thousand tons; now, it is half a million tons; then, the sale took place at the season of the year when inland navigation is suspended, and prices are generally dearest; now, the sale has taken place under circumstances of peculiar adversity. In this view, what other great staple has been so well supported? Not cotton nor cotton goods; not wool nor woolen goods; not flour, or meal, or grain; not iron and its manufactures; not dairy products. A re-adjustment of wages in the mining regions, and economy in the cost of transportation, must of necessity follow this reduction in the prices of coal; but this is nothing more than has already been accomplished in other important branches of industry.

The daily press croaks violently over this sale. It must have its sensation, whatever evils may be caused. The simple fact is, the coal trade has reached by a single bound the lower plane of values, which other great interests have arrived at by slow and painful steps extending over a period of three years.

The sale has been followed by a general expression of confidence that the worst is past; that the future promises a steady improvement; and we have but to look at the matter calmly and dispassionately, to find this confidence growing in strength, with all its benificent influences upon trade and manufactures.

Consolidation Coal Company.

We give elsewhere the text of the decision of Judge Pearse in the case of the State of Maryland against the Consolidation Coal Company, which was filed in the Allegany County Court at Cumberland, Md., on the 23d ult., overruling the demurrer to defendants' pleading, and dismissing the petition of the State. The case grows out of the act passed at the late session of the Legislature amending the charter of the Cumberland and Pennsylvania Railroad Company in such a manner as to reduce its tolls for the carrying of coal from the different mines on its line so as not to exceed two cents per ton per mile when and where the distance of such transportation shall exceed ten miles. Another act provides also that if the said railroad company refuse to furnish cars to any person or corporation mining coal, then such person or corporation may furnish the necessary cars, and the railroad company shall provide the motive power therefor. The acts above referred to were approved on the 14th of March last. In the meantime, however, it appears that the Consolidation Coal Company, whose charter, it is claimed, gives it the power to own and operate railroads, and which had a large interest in the Cumberland and Pennsylvania road, took steps to and did acquire the ownership of the said railroad. This was done by the Consolidation Company with the view, of course, of avoiding the reduction made by the Legislature in the rate of carrying coal for other companies, as prescribed in the amendments to the charter of the Cumberland and Pennsylvania Railroad Company.

The State held that the whole proceeding of the Consolidation Company was illegal—outside of its charter—and instituted suit accordingly. The object of the State was to force the Consolidation Company in acquiring the ownership of the railroad either to operate the road under the amended charter, or to bring it under the general railroad law of the State, passed also at the last session, and which allows not exceeding 1½ cents per ton per mile for coal. The average rate of toll on this road has been something over three cents per ton per mile, and the average haul about fifteen miles. The rates, in fact, have been from three to five cents per ton per mile, according to distance. The amended charter allows four cents per ton per mile for distances not exceeding four miles, three cents for distances not exceeding ten miles, and over ten miles, at which the bulk of the business is done, two cents per mile. The counsel in the case on the part of the defendants were Wm. M. Evarts, of New York; Wm. Pinkney Whyte, J. H. Gordon, of Cumberland, and John P. Poe. On behalf of the State the case was conducted by Attorney General Gwynn. One element of importance of the decision in this case, and the control of the Cumberland and Pennsyl-

vania Railroad, is the fact that the Consolidation Company is the largest operator and shipper of coal in the whole Cumberland region.

Marietta and Cincinnati Railroad.

The earnings of this road for the years ending December 31, 1874 and 1875, were as follows:

	1874.	1875.
From passengers....	$514,098 50	$473 692 22
" freight.....	1,389,887 88	1,029 941 93
" mail.....	115,060 13	87,387 00
" express.....	59,910 81	55,722 16
" telegraph	8 508 47	9,331 57
" miscellaneous.	7,044 85	5,940 41
	$2,094,510 64	$1,662,015 29
Expenses, viz:		
Machinery depart....	$565,801 00	$433,162 31
Road department....	468,876 54	394 069 93
Transportation depart	391,350 69	337,457 91
Mileage of cars.....	48,159 38	22,018 11
Telegraph department	28,259 83	24,916 06
General expenses....	68,912 45	78,966 18
	$1,571,359 89	$1,290,590 50
Earnings more than expenses.....	$523,150 75	$371,424 79

The ratio of working expenses in 1874 was 75 per cent; in 1875 it was 77.65 per cent. The decrease in gross earnings was $432,495 25; the decrease in expenses was $280,769 39; and the decrease in net earnings was $151,725 96.

There was a decrease in the number of through passengers of 3,257, and in revenue a decrease of $22,335 04; an increase in the number of local passengers of 80,968, and a decrease in revenue of $14,731 12. The increase in the number of passengers is principally between Cincinnati and suburban stations. The decrease in revenue is mainly for passengers carried long distances.

The total number of passengers, through and local, carried during the year was 684,469—an increase in number of 76,966, and a decrease in revenue of $40,406 28, as compared with 1874.

There was a decrease of 108,038 tons of through freight transported, and a decrease in revenue thereon of $235,983 79.

2,002 tons of new rails and 104,835 cross-ties were laid during the year.

About one-half mile of sidings was put in at the new packing-houses, near the stock-yards, on the Cincinnati and Baltimore Railway, and at Cincinnati in and around the new freight-house, at a cost in the aggregate of $5,201 50.

The iron bridge over the Little Miami river at Loveland, consisting of three spans, with an aggregate length of 374 feet, was completed, and $1,307 26 expended on this account.

$685 were paid during the year in settlement of claims for right of way, and the grading of the new yards at Cincinnati was completed at a cost of $4,220 53.

The water-station at Russell's was completed, and Zaleski water-station enlarged, at an expense in the aggregate of $1,834 69.

Ten miles of fencing were built during the year, costing $6,115 34.

The new station house at Norwood was completed, and small station houses erected at Glenwood and Mineral City. $3,769 12 were expended on these buildings.

The coal shutes at Brighton were completed.

Two new bridges upon the plan of Howe's Improved Truss were built near Anderson's.

The shops at Zaleski will be completed in March, 1876, and the total expenditures will probably not exceed $47,500, the amount donated by the Zaleski Company and the citizens of that place.

Serious losses occurred in July and August from the great freshets, the waters of the Ohio, Scioto and Hocking rivers, and their several tributaries, having risen above the flood of 1873, which, to that time, was the most serious known. The movements of trains were suspended upon the Baltimore Short Line for five days, and several small bridges on the Portsmouth Branch were swept away; but the most serious damage was upon the Cincinnati and Baltimore Line, where embankment to the extent of forty thousand cubic yards was washed out. The loss upon this portion of the line is estimated by the superintendent at $20,000 in revenue and $30,000 for repairs.

During the year, considerable work was done in widening the embankment on the Cincinnati and Baltimore Road, south of the crossing of Spring Grove avenue, and as there are now abundant facilities for the present business, construction upon the line has been suspended.

To complete the road with four tracks from the stock-yards to the southern terminus, it is estimated will cost $50,000.

Very satisfactory results in the operations of the road have been obtained since the opening of the Baltimore Short Line, from the advantages of improved location, lower grades, and better construction, as compared with the old line via Scott's Landing.

The company has sufficient equipment to manage satisfactorily and promptly a largely increased business.

It would be a source of great anxiety if the very large decrease in receipts for the year, as compared with previous years, were exceptional, but all the roads throughout the country show similar results, caused, to a great extent, by the general depression in trade affecting all branches of railroad traffic.

In addition to these troubles, which were very serious, a reckless and unprovoked attack was made upon the Baltimore and Ohio Company by the Northern Trunk Lines, in which the Marietta and Cincinnati Company was necessarily involved. Early in the year rates were established from the Atlantic cities by these rival lines at cost of transportation, and in many cases at less, and although much of this unprofitable trade was refused, the effect upon the general through business was disastrous.

The subject of rates upon through freight business is of the greatest importance to the interests of the lines forming the links in the routes between the Atlantic and the West; and to the unreasonable demands upon the part of some of the agriculturul interests, the absurd competition between the rival routes, and the irregularities established by the creation and maintenance of fast freight lines upon the Northern Trunk Lines and their Western connections, may be attributed many of the difficulties encountered by railroads generally, and Western lines especially.

The Marietta and Cincinnati Road affords a fair illustration of the gradual and highly injurious effect of these combined causes. The average result from through freight between Cincinnati and Parkersburg, was in

1872, $2 06 per ton, or 1 1-100 cts. per mile.
1873, 1 96 " " " 96-100 " " "
1874, 1 56 " " " 76½-100 " " "
1875, 1 33 " " " 65-100 " " "

Had the rate of 1874 governed in 1875, the revenue from through freight would have been $66,553 more than was realized.

At the rate of 1873, $181,712 more.

At the rate of 1872, $211,448 more.

Such vast differences in this comparatively brief period are certainly very striking, and demand some remedy, which it is alike the interest of the public and the railway companies to provide.

Toward the close of the year a more conservative policy was established, and the rates on through business fixed at a standard which, while fair to the shipper and very much less than former tariffs, yields a small profit to the transporter.

A marked improvement in public sentiment has also taken place recently on this subject, and shippers, as a class, desire only reasonable, regular rates. The wide spread disaster which would result from a continuance of reckless railway competition is now recognized, and it is believed that hereafter better results from through business may be realized.

The effects of the panic of 1873 have been prolonged beyond expectation, but the prospect is now more encouraging, and it is believed that next year confidence will be fully restored, and consequently increased activity in trade and travel experienced.

The company have 73 locomotives in good running order, viz: 18 passenger, and 55 freight; 62 are 1st class, and 11 2d class. The number of miles run by locomotives during the year was: with passenger trains, 771,400; freight trains, 1,325,100; construction and ballast trains, 164,800—total, 2 261,300. The average cost per mile run for repairs, fuel, oil and waste, pumping water, engiuemen, etc., was in 1875 15.67 cents, against 17.47 in 1874, and 18.83 in 1873. The number of passengers carried was: through, 39,926; local, 644,543—total, 684,469. Tons of freight carried: through east, 187,547; do. west, 103,992; local, 364,581—total, 656,120; showing a decrease: in through freight east of 72,462; do. west, 35,576; local, 37,440.

Interest on Tennessee State Bonds.

A question has arisen as to the legality of the course of the Governor of Tennessee, in ordering the payment of the State's back interest, and an article in the Memphis Appeal of the 25th ult. refers to a charge that the present payment is the result of a secret collusion between the Governor or other State officers with "a ring" to secure the payment. So much opposition was felt to the payment, or the manner of it, that certain citizens of Memphis addressed a communication to the Governor asking him to countermand the order to pay it and to await the action of the Legislature. The Governor refutes the charge of any connivance with "a ring" of any kind by referring to the fact that he had in December last announced that back interest would be paid whenever a sum sufficient for the purpose was accumulated in the treasury. He further states that the money is in the treasury, was levied for that purpose, and that the law gives the executive officers no discretion in the matter. The Appeal inclines to the opinion that there is at least room for doubt in regard to the question as to whether the Governor is authorized to pay the interest with the money now in the treasury, but there is no doubt that the payments will be made as announced.

Mobile and Alabama Grand Trunk Railway.

The line of this road, as surveyed, is about 230 miles in length, extending from Mobile, Ala., to Birmingham, Ala., with a branch to Selma, Ala., 40 miles—making the total length of line, as projected, about 270 miles. Of this about 59 miles, extending from Mobile to Jackson, have been completed. It is now proposed to build an extension to Uniontown, on the Alabama Central Railroad, a further distance of 78 miles, of which the cost is estimated at $1,500,000, and to complete it, the company believes it expedient to raise $3,000,000. Of this $1,125,000 is to be applied to redeeming the outstanding issue of bonds, $50,000 to payment of floating debt, and $1,500,000 to construction of the new line, leaving $325,000 to provide for emergencies.

It is hoped to raise the money by the issue of premium bonds, $3,000,000 in $20 bonds, the bonds to be divided into series, say of 100 bonds each. Drawings would take place semi-annually, at each of which a certain number of series would be drawn for payment. The holder of each bond so drawn would receive the face of his bond with simple interest at 5 per cent. from date of issue, one-half the face value of his bond in stock of the company, and would have a chance in a further drawing for a premium of from $500 to $10,000. It is expected that $1,000,000 of the bonds will be taken in Mobile, and the other $500,000 along the line and in payment for supplies, etc. Should this issue be successful, a further one of $3,000,000 will be made to pay for the extension from Uniontown to Birmingham.

Mr. F. B. Clark, the President of the company, believes that the net earnings will be sufficient to pay all liabilities of the company, and leave a surplus income. Books of subscription have been opened in Mobile, and will shortly be opened at points along the line.

St. Joseph and Denver City Railroad.

The reorganization of the eastern and western divisions of this road under separate charters has been perfected, and the new charters accepted by the respective boards of directors.

The directors of the Kansas and Nebraska Railway Company (formerly the Western Division of the St. Joseph and Denver City Railroad), consisting of William Bond, E. J. C. Atterbury, Peter A. H. Jackson, Aug. F. Miller, Charles W. Hassler, J. F. Navarro, H. H. Butterworth, Lawrence Wells, R. W. Donnell, E. W. Mealey, E. N. Morrill, J. D. Brumbaugh, and Edwin Knowles, met August 8th, and organized by electing William Bond president, and Thomas R. White, Jr., secretary of the company. The issue of the following securities was authorized: $1,700,000 of common capital stock, $1,900,000 of first mortgage bonds, $1,200,000 of second mortgage bonds, and $2,250,000 of land scrip.

The directors of the St. Joseph and Pacific Railroad Company (formerly the eastern division of the St. Joseph and Denver City Railroad) consists of the following named gentlemen: William Bond, John Baird, H. A. Johnson, Lawrence Wells, Louis Fitzgerald, Charles W. Hassler, Robert W. Donnell, H. H. Butterworth, F. W. Huidekoper, Albe M. Saxton, E. N. Morrill, J. D. Brumbaugh and Edwin Knowles. The board met August 10th, 1876, and elected William Bond president of said company, and Thos. R. White, Jr., secretary. At said meeting of the board it was among other things, resolved to issue $1,600,000 of common capital stock, $1,900,000 of first mortgage bonds, and $1,200,000 of second mortgage bonds. It is expected that the securities of both roads will be ready for delivery by the purchasing committee about the first of October.

☞ A postal convention has been concluded with Bermuda, by which postage between the Burmudas and the United States will hereafter be five cents per half ounce or fraction thereof, prepayment optional.

Boston, Stoneham and Lowell Railroad.

An informal meeting of gentlemen interested in the construction of a narrow gauge railroad between Boston and Lowell, Mass., was held in Lowell on the 26th ult., for the purpose of gaining information concerning narrow gauge railroads in general, with especial reference to the one above mentioned. Henry Blanchard, Esq., of Wilmington, exhibited a plan and explained the advantages of the narrow gauge system, which consist mostly of a great saving in the weight of rolling stock, construction of road and consumption of fuel. The line of the proposed road will go from Lowell through Tewksbury, Wilmington, Woburn and Stoneham into Melrose, where it taps the Boston, Lawrence and Haverhill Railroad, which is now under contract. This would lessen the distance to Boston 2¼ miles. The gauge would be three feet. The proposed passenger tariff is one cent per mile. The route crosses the Boston and Maine Railroad overhead in Melrose.

Memphis and St. Louis Railway.

Gen. E. H. Porter, President of the Memphis and St. Louis Railway, has been spending a few days in Little Rock, looking after the interests of his road, and while here gave us a call and told us that new life had again entered this corporation and that the road from Memphis to Walnut Ridge via Jonesboro, would undoubtedly be commenced early this Fall and pushed to early completion. The reason why we have faith in the moving forward of this enterprise is that Messrs. Owen, Adams & Co., of Detroit, Mich., promise to take this contract, and build and equip the road, and are satisfied to be secured with the 800,000 acres of land that the company own, together with $100,000 of city of Memphis subscription, $100,000 Crittenden county subscription and $25,000 of subscription along the line of the road. There is no reasonable doubt but what by the first of October dirt will be flying all along the route.—*Spirit of Ark.*

Albert County Railway.

The St. John (N. B.) News learns that 1,600 tons of rails have been shipped from England and are daily expected at Shediac. The bridge across the Petitcodiac at Salisbury will be completed within three weeks. More than half the superstructure (Howe Truss) is up; the foundation was completed some time ago. As soon as the rails arrive track laying and ballasting will commence from Salisbury to Hillsboro'. The divergence of the line into the village of Hillsboro' from Foley Hill, a distance of about three miles, is now being pushed forward vigorously, and will be ready within three weeks. It is intended to open the branch to obtain ballast at Gray's Island, in the bank of the Petitcodiac, in front of Hillsboro'. The prospect seems fair that the railway will be ready for traffic as far as Hillsboro' by the middle of October.

On the lower end of the road, beginning at Hopewell Corner and extending two miles beyond the Albert Mines, a distance of twenty miles, the road is all graded, with the exception of a few gaps, where bridges, culverts and oboideoux are being put in.

☞ All the spans of the great railroad bridge over the Susquehanna river at Havre de Grace, on the line of the Philadelphia, Wilmington and Baltimore Railroad, have been replaced by iron structures, except three. It is expected the bridge will be made entirely of iron before the end of the year.

Consolidation Coal Company of Maryland.

We have received the full text of the decision of Judge Pearse in the case of the State of Maryland against the Consolidation Coal Company, which was tried recently on printed briefs before the court at Cumberland, Md. Passing over the long and exhaustive review which Judge Pearse has made of the proper practice in the case, we come directly to the points which he has decided against the State and his reasons therefor:

First, that the company had forfeited its charter by charging higher rates of toll than was allowed by the law of 1876. Upon this point the judge rules that the act of 1876 applied to the Cumberland and Pennsylvania Railroad Company, which, however, was not in existence on the 14th of March, 1876, when the act was approved, the Consolidation Coal Company having purchased all the road with its franchises on the 2d of March 1876, and that under its own charter the Consolidation Coal Company was authorized to charge even higher rates of toll for operating the road than it has imposed.

Next as to the argument of the Attorney General that the Consolidation Coal Company, in taking possession of the road, came under the operation of the general railroad law enacted at the last session. On this point the judge remarks:

As to the act of 1876, chapter 242. This is a substitute for the act of 1870, chapter 476, and is, as all its provisions show, what is known as a general railroad act, or free railroad law, by which any individuals upon complying with the terms therein prescribed can form themselves into a railroad corporation. This act does not profess to be an amendment of any special charter whatever.

The 14th section of the act, which regulates the charges, is confined to corporations to be formed under that act, and makes no reference whatever to any corporation before incorporated. Upon the plain reading of the law there can be no doubt that by the 14th section of that act the Legislature did not intend to alter or annul the charter of the defendant. This act of 1876, chapter 242, is a general law, and does not alter or repeal prior special legislation, no such intent being expressed, and there being no words to imply such a purpose.

To infer an alteration or amendment of the defendant's charter as to the rates authorized to be charged by it, would also imply that the Legislature had violated the constitutional provision which requires that every law shall embrace but one subject, which shall be stated in its title. The title of such an act should be "an act to alter and amend the charter of the Consolidation Coal Company."

The second cause of forfeiture assigned by the State is that the defendant purchased and held prior to 1876, and in that year held a majority of the stock of the Cumberland and Pennsylvania Railroad Company, without authority of law.

It is only necessary, in answer to this alleged cause of forfeiture, to refer to a clause in the sixth section of the defendant's charter, by which it "is authorized to subscribe for and take stock in any navigation, canal and railroad company it may deem expedient." The stock taken by it in the Cumberland and Pennsylvania Railroad Company was the stock of a railroad company.

Thirdly. The State assigns as another cause of forfeiture, that the defendant purchased from the Cumberland and Pennsylvania Railroad Company the railroad, property and franchises of said railroad company, and accepted a deed for the same without the assent of the holders of two-thirds of the stock of that company, and without the assent of the holders of two-thirds of its own stock, previously obtained, as required by the act of 1870, chapter 476.

It will be at once perceived that this assignment of cause of forfeiture assumes that the act of 1870, chapter 476, in its 24th section, is obligatory upon the defendant, and regulates and controls the defendant's charter in relation to its purchase of any other railroad.

That section provides "that any railroad company heretofore or hereafter incorporated, may at any time, by means of subscription to the capital of any other company, or otherwise, aid such company in the construction of its railroad for the purpose of forming a connection with said last mentioned road with the road owned by the company furnishing such aid, or any railroad company organized in pursuance of law may lease or purchase any part or all of any railroad constructed by any other company if said company's lines of said road are contiguous or connected as aforesaid upon such terms and conditions as may be agreed on between said companies respectively, or any two or more railroad companies whose lines are so connected may enter into any arrangement for their common benefit consistent with and calculated to promote the objects for which they were created; provided that no such aid shall be furnished nor any purchase, lease or arrangement perfected until a meeting of stockholders of each of said companies shall have been called by the directors thereof at such time and place and in such manner as they shall designate, and the holders of at least two-thirds of the stock of such company, represented at such meeting in person or by proxy, and voting thereat, shall have assented thereto."

From the most cursory reading of this act it is plain that the powers thereby given were given for the purpose of enabling two contiguous roads to form a connection, and to enable one of two roads having contiguous or connecting roads to purchase or lease the other. Indeed this right of purchase or lease is given upon the condition set forth in said section, viz: "If said companies' lines of said road are contiguous or connected as aforesaid."

This section contemplated no other case than that of the union of the roads of two independent companies, each having a railroad, the one contiguous to the other. To none other was the power given. By the express terms and conditions of this grant of power, a corporation such as a coal company, even with power to construct a railroad, is not empowered to purchase the railroad of another corporation, unless at the time of the purchase it had a railroad of its own with which to connect the railroad purchased.

Now the defendant in this case, when it purchased the road of the Cumberland and Pennsylvania railroad, had no road of its own with which to make such connection, and therefore would not have been empowered to purchase, under the act of 1870, chap. 476.

But by its own charter, 1860, chap. 265, as we have seen, it had express power to purchase any other railroad.

Now would it not be a gross violation of all rules of construction to say that such express power, given to the defendant by its own special charter, for its purposes and for its benefit, should be held to be taken away by a provision of a general free railroad law, giving power to companies having no power to purchase, and confining that power to be exercised only in a given state of case, and which state of case does not embrace the defendant? The statement of this proposition seems to be its own best refutation.

The charter of the defendant authorized it to purchase any railroad, whenever in the judgment of the directors "the same may be necessary for the convenient transaction of its business." It required therefore no assent of the stockholders of the defendant. In the absence of any express provision the act of the directors is presumed to be done by the assent of the stockholders.

The act of 1870, chap. 476, has been repealed by the act of 1875, chap. 242: Even, therefore, if the act of 1870 were applicable to the charter of the defendant, and that there was the want of assent of the stockholders of either or both companies to the purchase of the road under that act, it would seem that the forfeiture was remitted by a repeal of the act.

In support of his opinion that there was no forfeiture incurred the judge cited various adjudicated cases bearing upon this point. He closes by saying:

It must be remembered that under this alleged cause of forfeiture, which we are now discussing, the assignment is that it is for a violation of the act of 1870, chapter 476. We are discussing the sufficiency in law of the causes assigned, and none others. The court can look at no others. The cause here assigned is under an act that has been repealed, which repeal remits the penalty in the particular case.

By the repeal the Legislature has declared that violation of the provisions of that law shall no longer be a cause of forfeiture. If no longer a cause of forfeiture, it cannot be enforced as such by the court in declaring a forfeiture.

For these reasons judgment will be given for the defendant upon the demurrers, and the petition filed in behalf of the State be dismissed.

It is thereupon ordered this —— day of August, 1876, that judgment be entered upon the demurrers in this case for the defendant, and that the petition of the State in this case filed be, and the same is hereby, dismissed.

Iron Rails.

We publish an entertaining and instructive essay on "The Manufacture and Endurance of Iron Rails," by W. E. C. Coxe, Esq., superintendent of the Reading Railroad Company's rolling mill at Reading, Pa. Mr. Coxe makes a strong plea in behalf of *well made* iron rails, claiming that the use of such rails by many roads is more economical than the use of Bessemer rails. We remember publishing a statement a few years ago by the president of the St. Louis and Iron Mountain Railroad Company, to the effect that well made iron rails had stood the test of heavy traffic for thirteen years on that road, while inferior iron rails on the same road had lasted only two years. There is certainly a great difference in the quality of iron rails. Mr. Coxe shows how he makes a rail of iron that will last for many years.

Curiously enough, almost the same mail that brought us Mr. Coxe's excellent paper also brought us a personal letter from James J. Hagerman, Esq., president of the Milwaukee Iron Company, concerning the success of his Company in making an iron rail that is giving great satisfaction on western railroads. The East and Mr. Coxe are not to have all the honors! We venture to quote a portion of Mr. Hagerman's letter, only adding for ourselves by way of comment, that we are glad to notice the revival in this country of an interest in the manufacture and use of iron rails of the best quality. Mr. Hagerman says:

"Since April 1 we have been doing a good deal in rails. I think we will average 2,500 tons per month this year, including April. We have sold a good many new rails; we have several large lots in prospect, and our rerolling business is improving very much. Indeed, it looks now as if we should have about all we can do the remainder of the season in rails. This, however, is largely due to the good quality of rails we began to make about eighteen months ago. We knew we must make good iron rails or none at all. We have adopted the plan used several years in the mill of the Reading Railroad Company, and the good results have far surpassed our expectations. If business keeps as it now promises we will re-roll 18,000 tons this year at least. Inclosed I send you a circular we got out some time ago regarding our 'reheated' rails. We shall soon get out a second edition with far better and stronger letters, founded on longer experience."

Referring to the circular mentioned in Mr. Hagerman's letter, we find several testimonials to the excellence of the Milwaukee Iron Company's rails, from which we extract the following:

Mr. M. Hughitt, general superintendent of the Chicago and Northwestern Railway Co., writing

from Chicago, says, under date of August 2, 1875: "I find on personal examination of the reheated rails laid just east of Cedar Rapids in December last, that all are in perfect condition. They promise to wear better than any iron rails we have laid. The reheated rails laid on the Western and St. Paul Road, also on the Madison division, in April, are also wearing well. None have failed, nor is there apparent evidence that they will soon. It is too early to say from actual experience how iron rails made after this formula will wear, but I do not hesitate to express this opinion, that they will last three times as long as rails of the quality we have been receiving during the past three years.

John C. Gault, assistant general manager of the Chicago, Milwaukee and St. Paul Railway, in a letter dated October 1, 1875, says: "From a test made by us in our yards where the service is very severe, we find the rails have shown remarkably well—wearing much longer than any iron we ever used. * * * All the iron which we have used this summer, made in this way, appears to be perfect, so far as can be seen in passing over the road. It is too early to judge accurately as to its durability, and yet I have no hesitation in saying I consider it much the best iron we have ever had, and I shall be greatly disappointed if it does not prove more than twice as durable as iron made in the ordinary way."

Allen Manvel, assistant superintendent of the Chicago, Island and Pacific Railroad, says, under date of February 26, 1876: "Replying to your inquiry about the 3,500 tons reheated iron rails purchased from your company last season, I have to say that the bulk of them have only been laid a few months. But I put down a few of them in August last in our yard at Chicago, where the wear is constant, and taking the quality of these as a sample of the lot, I am of the opinion that they will come fully up to your representations, and you will remember that you spoke of them in no light terms of praise."—*Iron and Steel Bulletin.*

The Coal Trade.

The coal tonnage for the week ending the 19th inst., as reported by all the companies, amounted to 343,895 tons, against 569,038 tons in corresponding week last year, a decrease of 325,143 tons. The total amount of anthracite mined for the year is 10,160,386 tons, against 11,175,876 for same period last year, a decrease of 1,015,490 tons. The quantity of bituminous coal sent to market for the week was 76,548 tons, against 80,453 tons for corresponding week last year, a decrease of 3,905 tons. The whole bituminous tonnage from the beginning of the coal year is 2,227,532 tons, against 2,295,131 tons in corresponding time last year, a decrease of 67,599 tons. The total tonnage of all kinds of coal for the week is 420,443 tons, against 649,441 to corresponding date last year, a decrease of 229,048 tons, and the total tonnage for the coal year is 12,387,918 tons, against 13,471,007 tons to same date last year, a decrease of 1,083,089 tons. The quantity of coal and coke carried over the Pennsylvania Railroad during the last week was 89,298 tons, of which 72,086 tons were coal and 17,212 tons coke. The total carried this year is 2,730,088 tons, of which 2,160,052 were coal and 460,093 coke. This total embraces all the coal carried over the road, east and west. The total of coal received from the Lehigh Valley Railroad at Perth Amboy for the week ending on the 19th instant was 15,198 tons, the amount shipped thence amounting to 21,277 tons, leaving 64,845 tons on hand. Freights to Boston, 90 cents; New Haven, 60 cents; Hartford, 90 cents; New York, 35 cents. The Delaware and Hudson Canal Company announces the following as the prices for coal deliverable free on board vessel at Weehawken, N. J., or Rondout, N. Y., between the 1st of September and the 1st of October next: Furnace, lump, $4 95; steamer, lump, $5 05; grate, $5 15; egg, $5 25; stove, $5 85, and chestnut, $5 15, per ton of 2240 pounds.—*Phila. Ledger, Aug.* 28.

☞ There are now nearly 7,250 miles of lines of local interest in operation in France.

Direct Trade with Europe via Halifax.

The report of a committee of the Halifax (N. S.) Chamber of Commerce, appointed to collect information respecting the inducements offered by Halifax for a direct line of traffic with Europe, says that "shipments from Chicago and intermediate points via the Grand Trunk and Intercolonial Railways would reach the English market ten days earlier than by the usual lake and canal route. The increased cost of freight by rail would be more than compensated by the saving of time, lower insurance and reduced rates of freight by steamers and sailing vessels. As an Atlantic terminus, Halifax is safer and cheaper than Portland, and 350 miles nearer Europe. There would be no delay in handling and unloading, and the charges are lower than at any port on the Continent. The cost of coal supplies for steamers is 30 per cent less than at Portland."

Erie Railway.

The London Times of August, 24th, in its financial article, says:

"An amended Erie reconstruction scheme has been issued providing that up to 1879 four coupons of the first consolidated bonds are to be paid in cash, and six funded. All the coupons after 1879 will be paid, and coupon bonds bearing interest at seven per cent. and payable in gold in 1920, will be issued in exchange for the funded coupons. The second consolidated mortgage bondholders are to fund ten consecutive coupons from June 1, 1875, to Dec. 1, 1879, and the convertible gold bondholders are to fund 18⅔ quarterly coupons within the same dates. Coupon bonds for these funded coupons will bear five per cent interest till 1883, and thereafter six per cent. All bonds and coupons must be forthwith deposited with the Re-construction Committee, who will foreclose on the railway and buy it on behalf of the bondholders. A new company is to be formed to work the line. Half the shares of the new company are to be vested in Trustees, to be called voting Trustees. The shareholders in the present company are to be admitted to the new company on payment of their assessment on the shares."

☞ The work of altering the track of the Vermont and Massachusetts division of the Fitchburg Railroad, near the Ashburnham Junction, was completed on the 26th ult. As the road was originally built, all trains at this point had to wait for the engine to move on to a turn table and be turned around before proceeding; the seats all had to be turned or else the occupants rode backward. By the new arrangement, brought about since the Fitchburg road took charge of this division, the track at about a mile east of the depot begins to curve and swings around so as to come on to the old track again at the east end of the junction depot. This change is considered a very desirable one.

☞ A despatch dated Port Jervis, N. Y., Aug. 24th, says: "The break in the great coal ring is already beginning to show its good results. The transportation of coal, which is one of the principal freights on this end of the Erie, will begin today. Seventeen engines which had been laid up in switches are being got in readiness, and will be at once put to work."

☞ The roadbed of the Gallipolis, McArthur and Columbus (Ohio) Railroad is to be sold to the Columbus and Gallipolis Railroad Company for the sum of $60,000, the road to be completed in eighteen months.

NEW BOOKS.

THE INTERCOLONIAL.—The Inception, Location, Construction and Completion of the Line of Railway uniting the Inland and Atlantic Provinces of the Dominion; with Maps and Numerous Illustrations: By SANFORD FLEMING, C. E., Engineer in Chief of the Newfoundland, Intercolonial and Canadian Pacific Railways. Dawson Brothers, Montreal. 1876.

A peculiarly full and valuable report, amply illustrated but not in the extremely costly style in which great engineering works are sometimes published. It explains the origin and reasons for whatever was peculiar, as for example the adoption of Iron Bridges through this heavily timbered country. It presents from one point of view the claims of this great line hugging the bank of the St. Lawrence and the shore of the Gulf from Quebec to Halifax; and last, and very important to the general community, it makes accessible for application to other works the experience gained in the construction of such work in cold climates exposed to unusually steep and violent torrents. The history of the Maine boundary question is interesting as a part of the diplomatic record of the two great Anglo Saxon peoples.

The road had reached "a condition" at the date of the preface, July 1, 1876, "to be opened for traffic throughout its entire length."

The provisions for underdraining a portion near the Trois Pistoles River, about half-way down the St. Lawrence, were peculiarly thorough. One slip had occurred, carrying an embankment several hundred feet into the river. It became necessary to drain the slippery clay foundation to a great depth. Vertical shafts 50 feet apart, and to depths varying from 25 to 30 feet under formation, were sunk along the uphill side of the railway, and about 15 feet distant from it. From shaft to shaft tunnels about 5 feet diameter were driven each with an inclination to points where lateral off-take tunnels to the side-hill were provided for the discharge of the water collected. In the bottoms of the tunnels a sewer pipe was placed, and the tunnels and vertical shafts were filled with gravel.

Treatise on the Mechanical Theory of Heat, and its applications to the Steam Engine, etc.: By R. S. McCulloch, C. E. etc., Professor of Mechanics in Washington and Lee University, Lexington, Va. D. Van Nostrand, New York. 1876.

Scholastic; dedicated to Prof. Henry, of the Smithsonian Institute; full of profound mathematics; void of engravings except a few simple diagrams; revelling in such terms as "Cycle of Carnot," "Emmagazined," "Adiabatic Curve," and "Chute de Chaleur;" utterly useless for a purely practical enquirer.

Full of facts; just enough of history; attractive and vigorous style; sensible; the best book ever published in this line for a would-be thorough student.

We commenced to read with a prejudice against it, but it is gone. We do not know Mr. McCulloch, but would like to. He knows how to teach his art.

☞ It is stated that work will begin on the Sarnia, Chatham and Erie Railway on the first day of October next. Workmen are being placed at the above named points, and also at Flenheim on the lake.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

Figures in brackets [ ] occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, September 2, 1876.

Financial and Commercial Affairs.

The feature of the speculation on the Stock Exchange has continued to be the "coal stocks"—the Delaware and Hudson Canal, the Delaware, Lackawanna and Western Railroad, and the Central Railroad of New Jersey. The state of semi-panic into which these securities were precipitated by the announcement, last week, of the disruption of the coal combination, was followed by a recovery in the former two of about ten per cent, but the latter continued depressed. The result of the auction sale again developed weakness, and on Wednesday Delaware and Hudson stock was 84 cash, and 79 seller 60 days; Delaware, Lackawanna and Western, 81¾ cash, and 78 seller 60 days, and Central of New Jersey closed at 38¾. In Philadelphia, Philadelphia and Reading was 90, and Pennsylvania 94¾ per cent. Lehigh Valley recovered from 104 to 107, Lehigh Coal and Navigation was 94½ per cent. In other securities, on the New York Stock Exchange, business has been dwarfed by the excitement in coal stocks; and but little interest has been felt except in Lake Shore and Michigan Southern Railway and Western Union Telegraph. Investment railway securities exhibit more or less decline. Money continues abnormally easy.

There has been a sharp decline in gold, from 110¾ at the close of our last to 109⅞; and, accompanied, as it is, by a decline in the rate of Exchange, operates very strongly against the exporter. The currency value of the pound sterling has declined about six cents or 1¼ per cent. Imports are light, and such as they are, are not being remitted for; therefore the demand for ex-

change is quite small. Bankers' sixty day bills on London closed on Wednesday at $4 87@$4 87½, gold; sight bills on London at $4 88½@$4 89, gold, to the £ sterling.

The Bank Statement for the past week shows a slight decrease in the reserve, owing to a reduction in the amount of legal tenders held by them, and a decrease of circulation; besides an increase in the amount of specie. The smaller reserve is ascribed to the call for funds with which to move the crops that are now maturing under the most favorable auspices with unimportant exceptions.

The markets for merchandise have been fairly active. An important decline in Cotton has taken place, under the combined influences of dull foreign advices, and better weather for the maturing crop. The speculation in pork and lard has been towards a further sharp decline, under the prospect of a large production during the next packing season. Flour and wheat have been improved slightly by stronger foreign accounts, and some return of confidence to holders, but the business has not been active; and Indian corn is drooping. There has been an excited speculation in petroleum, and this important staple to our foreign commerce has advanced about 30 per cent, but the close is at some reaction.

The exports from New York continue at a full valuation, and amount for the past week to $5,540,585, a slight increase over last week.

Government Bonds have declined. There is a good deal of uncertainty felt as to the effect upon them that may be caused by the new 4½ per cent loan, and the decline in gold somehow has a depressing influence; but at the close more steady, on the announcement that the new 4½ per cent stock is to be brought out at a small premium. This put up the 5-20s of 1865 about ½@⅝ per cent. The closing prices are as follows:

U. S. sixes of 1881, 118½@119; U. S. Five-Twenties of 1865, at 112½@113; U. S. Five-Twenties of 1865, consolidated, 113⅛@113½; U. S. Five-Twenties of 1867 117@117¼; U. S. Five Twenties of 1868, 119@120; U. S. Ten-Forties, 115⅜@115⅝; U. S. Fives of 1881, (Funding Loan) 115¾@115⅞; Six per cent. currency Sixes, 126@126¼.

Pig Iron has been quiet; Glengarnoch Scotch, $27@$27 50, and No. 2 American, $20@$21. There has, however, been a sale of 10 000 tons of Steel Rails to a Western Railroad at a private price—quoted at $65 currency. Old rails are quiet at $20@$22.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Missouri, Kansas and Texas R. R., 8; do. consol. S. F. bonds, 57½; Chesapeake and Ohio 1st mort., coupon on, 27½; New Jersey Southern R. R., ⅛; Producers' Consol. L. and P. Co., 115⅞; Maryland Coal, 13½; South Carolina 6s, new, non fund., 2⅛; Tennessee 6s, old, 48¾; do. 6s, new, 48¼; do. n. s., 48¼; Missouri 6s, 1877, 101; do. long bonds, 106¼; Michigan 6s, 1878, 101; Arkansas 7s, issued to Central R. ☞ Parties desirous of investing in the new U. S. 4½ per cent bonds to be brought out by Messrs. AUGUST BELMONT & Co., and others, as per advertisement in another column, are advised to do so now, as the price will undoubtedly be advanced after a time.

☞ The coupons of the First Mortgage Bonds of the Texas and Pacific Railway Company, maturing Sept. 1, 1876, will be paid in gold on and after that date on presentation at the office of the company, No. 50 Exchange place, New York, or No. 275 South Fourth st., Philadelphia.

The New United States 4 1-2 Per Cent Loan.

Messrs. August Belmont & Co., 19 and 21 Nassau street; Drexel, Morgan & Co., 23 Wall street; J. & W. Seligman & Co., 21 Broad street; and Morton, Bliss & Co., 3 Broad street, New York, give notice that they will receive application from Thursday, August 31, to Monday, September 4, at 4 o'clock P. M., for the new United States 4½ Per Cent Loan, payable after 1891, at the price, in gold, of 100¾ and accrued interest from September 1 to time of payment, at the pleasure of the purchaser, between the 10th and 30th of September. The bonds will be issued in registered certificates only in demonstrations of $50, $100, $500, $1,000, $5,000 and $10,000. Two per cent of the purchase money to be paid on making the application and the remainder on delivery of the certificates. United States securities taken in payment on favorable terms.

The prospectus of the new 4½ loan was brought out is London on Wednesday by the house of Rothschilds there for themselves and associates, the asked price being 103½. The bonds are described as redeemable in 1891, with interest payable quarterly, principal and interest to be paid in gold coin. The subscription lists were to have been opened on Thursday, to remain open until Tuesday next. Interest on registered bonds will be made payable on the same principle as British consols. The first coupons will be made payable in June, 1877. Payment of £5 must be made on application, £25 on allottment, £25 in October, £25 in December, 1876, and £28 10s. in February, 1877.

☞ At an election for officers of the Quincy and St. Paul Railway Company held at La Grange, Mo., on the 10th ult., the following gentlemen were chosen: William D. Marvel, New York, President and Financial Agent; A. J. Morrison, Moulton, Iowa, Treasurer; C. H. Spencer, Quincy, Ills., Secretary; E. P. Buell, Warsaw, Ills., Superintendent and Chief Engineer; G. M. Ochiltree, Waterloo, Mo.; J. W. Kittle, Keokuk, Ia.; J. M. Mason, St. Louis, Mo.; Hon. H. H. Trimble, (ex-Judge), Bloomfield, Ia., Counsellor.

☞ The sale of the Louisville, Paducah and Southwestern Railroad took place at Louisville, Ky., on the 24th ult. The main stem, from Elizabethtown to Paducah, was bought by H. W. Smithers of London and A. Marcus of New York, as trustees of the European bondholders, for $700,000. The branch, from Elizabethtown to Louisville, was bought by the branch bondholders, represented by Morris K. Jesup of New York, George Webb of Philadelphia, and John T. Mason of Louisville, for $540,000. The terms of the sale are cash when the sale is affirmed.

☞ The election in Boston on the 21st ult. of the stockholders of the Eastern Railroad Company for three directors, resulted in the choice of the following gentlemen: James W. Johnson, of Enfield, N. H.; Samuel C. Lawrence, of Medford, Mass.; and Frank Jones, of Portsmouth, N. H.

☞ The railroad connecting San Louis Obispo, Cal., with the harbor at Avila, nine miles distant, was completed on the 9th ult. The formal opening was to have taken place on the 19th. The road is a narrow gauge, and is well constructed and equipped.

Erie Railway.

It is stated that the Erie Railway Company (acting in conjunction with the United States Express Company) have determined on extending their through system of booking, from Europe to all the principal points in the United States and Canada, which has heretofore been restricted to passenger traffic, to goods and parcels as well, whereby a great saving of time, labor, and expense will accrue to the shippers. The new through goods and parcels department has its chief office at 48, Old Hall Street, Liverpool, and has been placed by the Receiver and President of the Company (the Hon. Hugh J. Jewett) under the care of Mr. J. H. Redman, formerly of the London and North Western, and late of the South Eastern Railway.—*Herapath.*

☞ The Holyoke narrow gauge railroad survey having reached Hartford, the engineers have decided to push it through to New Haven and tide water. They find it 32 miles from Holyoke to Hartford, and the route very feasible. Then they are going to survey over to Amherst from Holyoke with the idea that the Massachusetts Central will ultimately be built as a narrow gauge road to connect with the Southern Vermont scheme, and so trunk narrow gauge lines from the Connecticut valley ultimately find outlets at Boston and New Haven.

☞ As the Connecticut Central and Valley Railroad Companies cannot agree to operate the new line from Springfield to Hartford together the former has taken possession of its own property and commenced operating it independently of the through line. This closes the seven miles of road from Springfield to Long Meadows and the city's new southern connection for the present.

☞ Messrs. Buck Brothers, of Millbury, Mass., chisel manufacturers, have secured an order for goods from Australia. It is believed they will be the first goods of that description ever shipped from this country to that, they having heretofore been purchased in England. A case of goods on exhibition at the Centennial are thought to have caused the order.

☞ Holders of the first mortgage bonds of the Montgomery and Eufaula Railroad, endorsed by the State of Alabama, are notified to file a statement of such bonds, pursuant to a decree of the United States Circuit Court in Alabama, with Mr. J. W. Dimmick, the master in chancery, at his office in Montgomery, Alabama, by October 16th, 1876.

☞ The Comptroller of Tennessee gives notice that the past due coupons of bonds of that State, of July, 1874, July 1875, and January, 1875, will be paid on and after the 15th inst., at the Fourth National Bank in New York, or the State Treasurer's office in Nashville.

☞ The interest maturing September 1 on the fifteen-year 8 per cent convertible bonds of the Hannibal and St. Joseph Railroad Company will be paid on and after that date at the Bank of North America.

☞ The earnings of the Hannibal and St. Joseph Railroad for July, 1876, were $138,087; for July, 1875, $113,131—increase, $24,956.

☞ The new railroad between Osaka and Kioto, Japan, thirty miles long, was opened last month and is now in regular operation.

BANKING AND FINANCIAL.

The undersigned hereby give notice that they will receive applications from THURSDAY, 31st inst. to MONDAY, Sept. 4, at 4. p. m., for the new United States 4½ per cent Loan, payable after 1891, at the price in gold of 100¾ and accrued interest from Sept. 1 to time of payment at the pleasure of the purchaser between the 10th and 30th of September.

The Bonds will be issued in registered certificates only, in denominations of $50, $100, $500, $1,000, $5,000, and $10,000.

Two per cent of the purchase money to be paid on making the application, and the remainder on delivery of the certificates.

United States Securities taken in payment on favorable terms.

AUGUST BELMONT & Co., 19 and 21 Nassau-st.
DREXEL, MORGAN & Co., 23 Wall-st.
J. & W. SELIGMAN & Co., 21 Broad-st.
MORTON, BLISS & Co., 3 Broad-st.
New York, Aug. 30, 1876.

☞ The Little Rock and Hot Springs Railroad Company, in Arkansas, have contracted with W. P. Hanchett for building a single track road from Little Rock to Hot Springs. The work will be commenced on October 1, 1876, and is to be completed within one year. The length will be sixty miles. The cost of grading, laying the iron and completing the road in readiness for the cars will be about $500,000. J. W. Webster is president of the company.

☞ The grading on the St. Martins and Upham (Ca.) Railway is in an advanced state, about two-thirds of the work being completed. There are also upwards of sixty thousand sleepers ready for use along the line. A small portion of the rails on the Hampton end of the line are in position.

☞ The contract has been awarded for the construction of the Extension of the Whitby (Ca.) Railway from Port Perry to Lindsay. The time set for the completion is the 1st of August next year. The contractors expect to finish the grading before winter, and bring the work to an end by the commencement of June.

☞ Messrs. Turton & Knox commenced on the 12th ult. laying track on the Amador Branch Railroad, extending from the town of Galt on the Central Pacific Railroad to Ione in Amador County, a distance of 27 miles. The work is to be pushed on rapidly to completion.

☞ It is stated that an effort is being made to resuscitate the Queenstown and Harrington Railroad, in Queen Anne's County, Md., and to establish in connection therewith a line of steamers to Baltimore.

☞ The Rochester and State Line Railroad will be finished to Salamanca by the 1st of January, 1877, and next spring it will be pushed on towards the coal basin of Jefferson County.

☞ The railroad from Oakland Point to Berkeley, in Alameda County, Cal., was opened on the 14th ult.

☞ One of the bridges of the Felton Railroad Company over a canyon leading into San Lorenzo, Alameda Country, Cal., is eighty feet high.

☞ The iron rails on the Castle Shannon Railroad are being replaced by steel ones.

MARSHAL'S SALES.

Marshal's Sale.

George L. Douglass, trustee, &c., pl'ffs, against Louisville, Cincinnati and Lexington Railroad Company, def'ts, and cases heard therewith—Louisville Chancery Court, No. 27,787.

BY virtue of a judgment rendered in the above-named case and the cases heard therewith, the undersigned will,

ON MONDAY, DECEMBER 4, 1876,

sell at public outcry at the door of the court-house, in the city of Louisville, Ky., about the hour of 11 o'clock, A. M., to the highest bidder, the following described property, viz:

All the rights, properties and franchises of the Louisville, Cincinnati and Lexington Railroad Company, including all the right, title and interest of said company free from the liens, mortgages or claims of any kind of the parties herein except as hereinafter stated in and to its line of railroad from its depot on Brook st., in the city of Louisville, through the counties of Jefferson, Oldham, Henry, Franklin, Woodford, Scott and Fayette to its depot on Water st., in the city of Lexington, and from Lagrange Junction, in Oldham county, through the counties of Oldham, Henry, Carroll, Gallatin, Grant, Boone, Kenton and Campbell, to its junction in the city of Newport with the Newport and Cincinnati Bridge, with all its improvements and appurtenances, right of way, lands adjacent thereto, depots, and the land upon which they are situate, and adjacent thereto, machine shops, round houses, cattle-pens, and the lands on which they are situate and adjacent thereto, turn-outs, side-tracks, switches, engines, passenger cars, baggage cars, freight cars, dirt cars, hand cars and all other rolling stock of every description, machinery, tools, implements, fixtures, furniture, whether in buildings owned by it or leased by it or the receiver, materials and supplies of every description, so as to vest in the purchaser all of the right, title and interest of said Louisville, Cincinnati and Lexington Railroad Company, and to all property owned by it or in which it has any interest on said day of sale except choses in action, and all its rights and franchises free from any lien or claim of any of the parties to this suit except as hereinafter stated.

The purchaser or in the event of his transferring his bid before confirmation of the sale and the transferee thereof being accepted by the court, such transferee shall in any event in addition to the amount bid by him be required to assume the following outstanding debts, and all the engagements and obligations of the mortgage and deed of trust given to secure them, viz: One hundred bonds of one thousand dollars each, executed by the city of Louisville, the payment whereof was assumed by the Louisville and Frankfort Railroad Company, and secured by deed of mortgage dated 20th November, 1854, and recorded in the Jefferson County Court clerk's office, in deed book —, page —. Said bonds mature July 1, 1891, and bear interest at 6 per cent. per annum from July 1, 1876, payable semi-annually on the 1st day of each July and January from January 1, 1877, to July 1, 1891, inclusive.

Twelve bonds of one thousand dollars each, executed by Louisville and Frankfort Railroad Company, and secured by deed of trust from said corporation to James Guthrie, Virgil McKnight and Joshua B. Bowles, dated March 12, 1857, five of which bonds mature July 1, 1877, and seven of which mature July 1, 1878, and all of which bear interest at 6 per cent. per annum, payable semi-annually from July 1, 1876, the first five bearing coupons payable January 1, 1877, and July 1, 1877, and the other seven bearing coupons payable January 1, 1877, July 1, 1877, January 1, 1878, and July 1, 1878.

In addition to the assumption of the above amounts, and the engagements and obligations of the above mortgage and deed of trust, the undersigned will first offer said property, subject to the assumption by the purchaser of the following amounts and of the engagements, obligations, rights, duties and powers of the deeds of trust given to secure them respectively, to-wit: three thousand bonds of one thousand dollars each, dated January 1, 1867, and due January 1, 1897, bearing interest from July 1, 1876, at the rate of seven per cent. per annum, payable semi-annually on the first day of each January and July from January 1, 1877, to January 1, 1897, both inclusive, and same secured by deed of trust from the Louisville and Frankfort and Lexington and Frankfort Railroad Companies to Norvin Green, trustee, dated January 1, 1867, and hereinafter called the Norvin Green trust deed.

Nine hundred and eighty-nine bonds of one thousand dollars, each dated April 1, 1870, and due April 1, 1900, bearing interest from October 1, 1876, at the rate of 8 per cent. per annum, payable semi-annually on the first day of each April and October from April 1, 1877, to April 1, 1900, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to George L. Douglass, trustee, dated April 1, 1870, and hereinafter called the Douglass trust deed.

Three hundred and seventy-four bonds of one thousand dollars, each dated October 1, 1872, and due October 1, 1902, bearing interest from October 1, 1876, at the rate of eight per cent. per annum, payable semi-annually, on the first day of each April and October from April 1, 1877, to October 1, 1902, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to A. D. Hunt, trustee, dated October 7, 1872, hereinafter called the Hunt trust deed.

One million five hundred and eighty-two thousand five hundred dollars in bonds, some of one thousand dollars and some of five hundred dollars, each dated April 1, 1873, and due 1st January, 1903, bearing interest from July 1, 1876, at the rate of seven per cent. per annum, payable semi-annually on the first day of each July and January from January 1, 1877, to January 1, 1903, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to James Lees, trustee, dated April 1, 1873, and hereafter called the Lees trust deed.

When said property is so offered, subject to the assumption by the purchaser of the amounts secured as above by said six mortgages, and his assumption of the engagements, obligations, rights, powers and duties of said six mortgages, if an amount is bid equal to the amount of interest due and unpaid thereon regarding the bonds as not matured, together with unpaid costs of said mortgages, and costs of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bidder. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first five mortgages (excluding the Lees trust deed), and his assumption of the engagements, obligations, rights, powers and duties of said five mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said five mortgages regarding the bonds as not matured, and unpaid costs of the said five mortgages and of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bidder therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first four mortgages (excluding the Lees and Hunt trust deeds), and his assumption of the engagements, obligations, rights, powers and duties of said four mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said four mortgages regarding the bonds as not matured, and unpaid costs of said four mortgages and costs of sale, the undersigned will proceed to sell the property so subject, and accept the highest bidder therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first three mortgages (excluding the Lees, Hunt and Douglass trust deeds), and his assumption of and subjection to the engagements, obligations, rights, powers and duties of said three mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said three mortgages regarding the bonds as not matured, and unpaid costs of said three mortgages and of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bid therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first two mortgages (excluding the Lees, Hunt, Douglass and Green trust deeds), and his assumption of and subjection to the engagements, obligations, rights, power and duties of said two mortgages, and will accept the highest bidder therefor.

The purchaser, or in the event of his transferring his bid before the sale is confirmed, and his transferee being accepted by the court, such transferee will be required to execute a separate obligation to the mortgagee or trustee of each mortgage or deed of trust to which he buys subject, and shall, by such obligation, bind himself to the payment of the debts secured by such mortgage or deed of trust, principal and interest as and when they become due, and to the performance of all the engagements and obligations contained in said mortgage or deed of trust, and shall subject himself and the property purchased by him or future to be acquired by him, as the owner of said railroad, to all the duties, conditions, engagements and obligations of said mortgage or deed of trust, and confer upon said mortgagee or trustee and his *cestui que* trusts all the powers, rights and duties conferred by the original mortgage or deed of trust, and in every way to bind himself and the property then owned and future to be acquired by him as owner of said railroad, and to confer upon said mortgagee or trustee and his *cestui que* trust all the rights and powers as if he, the said purchaser, had been the grantor in said original mortgage or deed of trust, and the maker of said bonds and coupons.

If said property is sold subject to any other mortgages than the ones of the city of Louisville and Guthrie, McKnight and Bowles, it will be sold on a credit of 3, 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36, 39, 42, 45, 48, 51, 54, 57 and 60 months, for equal parts of the purchase money. If sold subject to these mortgages, it shall be sold on a credit of 3, 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36, 39, 42, 45, 48, 51, 54, 57, 60, 63, 66, 69, 72, 75, 78, 81, 84, 87, 90, 93 and 96 months, for equal parts of the purchase money.

The purchaser will be required to execute bonds, with good security, bearing interest from date until paid at 6 per cent. per annum, and said bonds will be drawn payable on or before the day of their respective maturities. The bidder accepted by the marshal will be required to at once deposit with said marshal the sum of $20,000 as security for his compliance with the terms of sale, which sum the marshal shall at once pay into court, which may be withdrawn by the said bidder on confirmation of the report of sale. A lien will be retained on the property sold to secure the bonds of the purchaser, and any obligation executed by him for mortgages or deeds of trust assumed by him.

C. C. W. ALFRIEND,
Marshal Louisville Chancery Court.

A New Drawbridge.

A recently patented drawbridge, designed to afford perfect facilities for crossing navigable streams without impeding navigation, is the invention of Lieut. Com. H. H. Gorringe, U. S. N., of Washington. The bridge is composed of a number of floats, each pivoted or hinged at one end, the other end being moored to anchor piles by means of a chain passing over a windlass on the swinging end of the draw or leaf. By revolving the windlass the draw or leaf may be swung clear, so as to afford vessels a single passage as wide as the length of the draw; a reverse motion of the windlass closing the draw and opening the roadway. Since this operation may be performed with either or all of the floats, vessels may pass through the bridge at any point selected, or the whole width of the river may be thrown open to navigation. The inventor, among other things, claims "cheapness and facility of construction, greater security than ordinary bridges, freedom from obstruction to navigation, and from risk of damage by freshets, moving ice and other floating bodies."

☞ Messrs. Williams & Woods, the contractors for building the Lehigh and Eastern Railroad, correct the statement that they had contracted for forty miles as follows: "We have contracted with the company for the entire road, and the contract has been ratified by the board of directors, and we have already commenced operations. The road is to be finished so that a train of cars loaded with coal shall reach Boston by the first day of April next."

☞ Mr. William R. Allen has been appointed Assistant President of the St. Louis, Iron Mountain and Southern Railroad company, with authority to direct the affairs of the company in any department, and to be subordinate only to the president and board of directors. He will continue to act as general ticket agent.

Bleecker Street and Fulton Ferry Railroad.

The lease by which the Bleecker Street and Fulton Ferry Railroad is placed under the control of the Twenty-third Street Railroad Company for ninety-nine years was executed on Saturday, the 26th of August, and Mr. A. S. Southworth, the Receiver of the former road, has surrendered its appurtenances to the lessee. The lease provides that the Twenty-third street Railroad Company shall pay to the stockholders of the Bleecker Street Company a yearly dividend of at least one and one-half per cent. upon the stock, and shall also pay the interest on the bonds of the leased road. Mr. Jacob Sharp, President of the Twenty-third Street Company, is now in charge of the Bleecker Street Road. He says that within a very short time the road will have its up town terminus at the foot of West Twenty-third street instead of at Twelfth street and Tenth avenue. For some time tracks connecting these places have been ready for use. When the leased road begins at Twenty-third street, it will be operated directly by the managers of the company whose tributary it has become, and hence quite a number of changes will be made in its working force.

☞ Work on the Omaha and Northwestern Railroad from Herman, in Washington county, to Tekamah, in Burt county, Nebraska, is now under full headway, and track laying is in progress at the rate of half a mile per day. Eighty cars of ties and sixty cars of rails have passed through Omaha for the road, and the company are pushing matters as much as possible. They have about fifty men employed at the present time.

☞ Ground was broken at Matamoras, Pa., on the 24th ult., for the Lehigh and Eastern Railway, which is to extend 100 miles and connect with the Erie Railway at Port Jervis, N. Y. The road is to be finished on the 1st of April, 1877.

DIVIDENDS.

OFFICE OF HANNIBAL AND ST. JOSEPH R. R. Co., No. 78 BROADWAY, (P. O. Box No. 2,839,) NEW YORK, Aug. 24, 1876.

THE INTEREST MATURING SEPT. 1, 1876, on the fifteen year Eight per Cent. Convertible Bonds of this company will be paid on presentation of the proper coupons at the Bank of North America, No. 44 Wall st., New York, on and after Friday, Sept. 1, 1876. JOHN P. ACKER, Treasurer.

THE TEXAS AND PACIFIC RAILWAY COMPANY.

The coupons of the first mortgage bonds of the Texas and Pacific Railway Company, maturing Sept. 1, 1876, will be paid in gold on and after that date, on presentation at the office of the company, No. 50 Exchange place, New York, or No. 275 South 4th st., Philadelphia. GEO. D. KRUMBHAAR, Treasurer.

American Railroad Journal.

New York, Saturday, September 9, 1876.

The United States 4 1-2 Per Cent Loan.

The good measure of success which has attended the bringing out of the 4½ per cent funding loan, by the United States Treasury Department, under the auspices of Messrs. August Belmont & Co., and their associates, as announced in the last number of the JOURNAL, is a subject for congratulation on all sides.

It is, in the first place, a conspicuous illustration of the rapid growth of the credit of the United States in the leading financial circles of Europe. We tally among the nations of the very best credit. It is a tribute to our willingness as well as our ability to pay. It is an expression of confidence that whatever our party contests may now be, or may have been, or are likely to be, the character of our people is such that a maintenance of the public credit may be implicity relied upon. We deserve this, for we have greatly reduced the public debt and the annual charge for interest. We have done in that direction all that could be expected of us.

The success of the 4½ per cent loan is, in the second place, evidence that lower rates of interest are henceforth to be the rule in this country. This is an important consideration. It is a fact that the high rates of interest on public and private debts, which we have been accustomed to pay in years gone by, have weakened our credit abroad. The capitalists of Europe have been accustomed to declare that no people, and no enterprise, and no business-man, can pay seven, eight, ten, twelve, and fifteen per cent for money, and prosper. It is true our position, and the circumstances by which we have been surrounded, have been such as to create a great need for money, and we have been obliged to pay high rates of interest. We were justified in doing so. But there is a change in many respects, and one of the compensations for the evils following the panic of 1873 is found in the general acceptance, not only of a lower plane of values, but of reduced usance for money. For the money actually at interest, we are probably not paying more than seventy-five per cent as much as in the Spring of 1873. This is a vast saving, and must increase as years go by. There is no doubt, for example, that the entire indebtedness of the New York Central Railroad could be funded at five per cent; and it is worth the while of other railroad companies of established credit to make the effort to reduce the amount paid by them for interest.

The increase in the debt of the United States in the past fifteen years, from a merely nominal sum to an amount requiring nearly one hundred millions of dollars per annum to pay the interest upon it, and the maintenance of the public credit in the face of this increase, though surprising facts in themselves, are yet susceptible of easy explanation. The resources of the nation have fully kept pace with the increase in the indebtedness. The discovery of petroleum in Pennsylvania realizes an annual return to our people, directly and indirectly, through the saving in the cost of light, in its actual value, and in the industry and transportation which it develops and employs, fully equal to the interest on the United States debt. We have, besides, the effect in the development of resources produced by many thousand miles of railroad; and if we have also, through the influence of well secured bonds, at a low rate of interest, a reduction of two to five per cent in the value of money, we shall have an additional cause for congratulation.

A renewal of mechanical and manufacturing industries cannot long be delayed after cheap money is well assured; and we see, in the success of this loan, a new assurance that the work of recuperation is begun upon a solid basis.

Progress of the Southern Pacific Railroad.

The telegraph announces that the junction of the Los Angeles and Middle divisions of the Southern Pacific Railroad was made 42 miles north of Los Angeles on the 5th inst., witnessed by a concourse of spectators. The ceremony was further observed the same evening by a grand dinner and ball given to the officers of the railroad by the chief citizens of Southern California. The connection of these two long-separated divisions is a fact of much importance to the country at large, inasmuch as it not only connects the rich territory of Southern California to the railroad system of the country—and allows continuous transit from the easternmost points to Los Angeles, and nearly to San Diego and the Mexican boundary at Fort Yuma—but also forms an immense contribution toward a second overland line of railroad.

Heretofore the line of the Southern Pacific Railroad has consisted of three divisions, independent of each other. By the junction of Tuesday the two southernmost lines are made one. It extends from Goshen, where it connects with the San Joaquin Branch of the Central Pacific Railroad, to Los Angeles, a distance of 260 miles; and thence eastward toward the southeastern corner of California at Indian Wells, a further distance of 130 miles. A branch from Los Angeles to Wilmington on San Pedro Bay, 20 miles, and another to Anaheim of 25 miles, make up the Southern division. The Northern division, extending from San Francisco southerly, has a mileage of 161 miles, or a total for the whole road and branches of 550 miles. The Northern division is not connected with the rest at present, for the reason that it lies parallel with the great southern arm of the Central Pacific Railroad, and

the means and energies of the company have bee devoted to pushing on the more essential parts of the main line, business being sufficiently accommodated over the neighbor road. This part of the main stem, either via the San Benito Pass to Goshen, or via the Polonio Pass to Lerdo, will be completed so soon as the main line southward and eastward is done.

Inasmuch as Visalia, the initial point of the Southern Pacific Middle division, is 228 miles south of San Francisco, it will be seen that added to the 390 miles between Goshen and Indian Wells there are 618 miles of continuous road in operation on the Pacific coast, toward the completion of this southern overland route, or just about one third the distance between San Francisco and the Gulf ports in Texas. This, it should be remembered, covers not the easiest, but by far the hardest part of the whole route. The 1200 miles between Fort Yuma and the Texas roads are known to be comparatively easy. In crossing the Sierra Nevadas, it is asserted the Southern Pacific has encountered 20 miles of the hardest work in California—which is no light matter. There are 18 tunnels, and immense side hill cuts and fills in that space. In crossing the coast range, also, one of the longest tunnels in the country is required. All this is out of the way now, and hereafter the company will have a through traffic on the whole line, and can put its army of men at work on the extension to the Arizona frontier.

It was stipulated in the land grant acts applying to both corporations, passed in 1871, that it was to be met at the Colorado river by the Texas Pacific Railroad from the east. Scott's unfortunate failure to have his road there has prompted the California company to offer to build on until a meeting point is reached, at the Rio Grande if need be; but Col. Scott prefers to ask the Government to endorse his company bonds at $35,000 and $45,000 per mile. At any rate it is clear that a long step has now been made toward a Southern Pacific Railroad to the Gulf cities.

The Composition of Steel.

At a meeting of the American Association for the Advancement of Science and Art, held in Buffalo on the 25th ult., a paper on "The Relations of Structure, Density, and Chemical Composition in Steel," was read by John W. Langley. It has long been known to practical men that the appearance of the fracture of steel bears some relation to its mechanical properties, as developed in the machine shop. It has further been known in a general way that this appearance was connected with the quantity of carbon in the metal. The researches embodied in this paper extend over a period of two years, and show, first, that steel can be selected by ocular inspection alone with a high degree of precision, and that differences of less than seven-hundredths of one per cent. of carbon can be certainly known by the appearance of the freshly broken ingots; 20 ingots manufactured by Messrs. Miller, Metcalf & Parkin, of Pittsburgh, formed the material for these determinations; second, it was shown that in general the specific gravity decreases in proportion with the increase of carbon, though there are some apparent exceptions to the rule; and third, that when the metal is hardened by being plunged into water the density is less the greater the heat to which the specimen was subjected. The paper was accompanied by extensive tabulated reports. In conclusion it was asserted that the time had arrived when the eye had very nearly become the rival of chemical analysis in this branch of metallurgy.

Maine Central Railroad.

The earnings of the Maine Central Railroad and Branches for the years ending December 31, 1874 and 1875, were as follows:

	1874.	1875.
From passengers....	$910,391 89	$797,767 25
" freight.....	1,028,965 41	866,241 36
" U. S. mail.....	53,427 76	52,427 54
" express.....	37,712 00	37,500 00
" car service....	56,625 69	25,306 30
" extra baggage.	1,568 85	2,543 25
	$2,088,691 60	$1,781,785 70
Expenses, viz:		
Fuel consumed.....	$205,633 63	$195,729 20
Maintenance of way.	461,334 71	353,860 38

		$1,010,597 43
Paid on improvement account.....	$44,262 83	
Equipment account.....	7,961 71	
Construction account....	495,389 48	
		547,614 02
Balance December 31, 1875....		$462,983 41

This balance is composed of the following assets:

Cash on hand.....	$207,218 81
Stock for repairs on hand.....	55,861 56
Wood and coal on hand.....	140,117 83
European and North American Railway bond.....	1,000 00
Dexter and Newport Railroad stock..	5,000 00
Ticonic Water Power Co. stock.....	5,000 00
Due from other Railroad Companies..	11,279 89
" A. &. W. Sprague Co.....	4,618 79
" station agents.....	27,479 19
Notes receivable.....	5,407 34
Total, as above.....	$462 983 41

The total earnings for 1874 were $2,094,080 55; operating expenses, $1,281,681 25; net earnings, $812,399 30. The total earnings for 1875 were $1,786,076 47; operating expenses, $1,147,066 82; net earnings, $639,009 65—showing a diminution in 1875, compared with 1874, in gross receipts of $308,004 08; in operating expenses of $134,614 43; and in net receipts of $173,389 65. The President in his report says:

Of this reduction in our gross receipts the past year $77,322 56 was occasioned by the modification of former contracts for the purpose of producing uniform and harmonious action between the Eastern and Boston and Maine Roads, which will result, as we trust, to the benefit and in the general convenience of our patrons who have occasion to do business over the Railroads west of Portland. The balance of the diminution in our gross receipts, $230,681 62, must be attributed to the general depression of the business of the country, and "reduction of tariff by special rates."

During the present year the Second Mortgage Bonds of the Somerset and Kennebec Railroad Company amounting to $260,000, will mature. Bonds of this company have been provided and appropriated for their redemption. It is also advisable to use the bonds provided for that purpose to liquidate a portion or all the floating debt of this company at an early day.

The Report of the Superintendent, herewith submitted, presents in detail the practical operation of the road during the present year. It shows that the condition of the road, both for safety and efficiency has been well kept up, and that substantial reductions in the expense of operating have been effected in his Department, and that he has been vigilant, careful and faithful in the discharge of his duties.

Doubts have been entertained by members of the board and other parties for some time past, as to the policy of continuing our night passenger train. It is contended that it has proved unremunerative to this company, and therefore, though it may be a convenience to a class of the community, should be discontinued. If the fact were established, that as a whole the company suffers permanent loss from the operations of this train, and that loss cannot be avoided, then the conclusion would seem to be well founded. We cannot afford to run this train or any other as a matter of mere charity or display.

The train, when established, was designed to be a portion of a continuous line extending from Boston to St. John, and was so run for a considerable period of time. It was then not only self sustaining but promised to prove eminently successful, by diverting a large and growing business from the water at St. John to the road. This hopeful prospect was materially clouded by the withdrawal of the night train between Bangor and St. John, thus compelling all business leaving the latter city in the afternoon for the West to resort to transportation by water, as in former times.

This so maimed the line that it cannot be run by us at the hours desired, and under the distribution of the tariff established, without positive loss. To thus run it we cannot consent. From Boston to Portland it does largely the business of a local train, while from Portland to Bangor, in consequence of passing over our road in the middle of the night, it does little local business, yet is maintained at the inconvenience and expense of a special train run in the night time, and on a tariff entirely inadequate to the service.

We are happy, however, to inform the stockholders that the matter has not only received the careful consideration of our Directors, but they have the strongest assurance from the managers of the European and North American Railroad that the night train between St. John and Bangor will not only be restored early the present season, but under circumstances which will give it a business largely increased from any hitherto done by it.

At the last session of the Legislature, acts were passed authorizing this company to connect its line in the city of Lewiston, by the construction of a short piece of road in that city, and also to discontinue a portion of the line now used between Leeds Junction and the village of Sabattisville. The construction of the road in Lewiston was contingent upon the approval of the City Governments, and the right to discontinue the branch from Leeds Junction was contingent upon the construction of the connecting link in Lewiston.

The City Government have had the matter under advisement and have thus far declined to approve the line as proposed to be located by this company. Thus the matter remains, for the present at least, as before.

We have noticed that in the recent discussions that have grown out of the peculiar condition of the railroads leading eastward from Boston, statements have been made in relation to transactions, had with this company as matters of history which we deem erroneous, still not deeming this a suitable time to go into discussions of their merits we only desire to express our dissent less by silence we be supposed to assent to their correctness.

In conclusion we have to suggest, that although the past year has been one of depression and hard ship, it has not been wholly without redeeming characteristics. That while the falling off of our general business has been large, the heaviest part of that decrease was in the middle and earlier part of the year; that in the later months there has been little or no decrease from corresponding months of the preceding year, and that this improved condition of things continues to the present time, giving us reason to hope that the dawn of a better day is upon us. The necessities of the times have so impressed the lessons of economy, that even should there be for the present year no substantial increase of our business, the diminution of our expenses will produce a marked increase in the net earnings of the road.

This further reflection may be indulged; that such is the favorable location of our road and its branches, as exhibited on the accompanying map, being as it is an important link in the great connecting line between the Provinces east, and the States west of us, and literally filling out the valley between the ocean and the mountains, that when the business of the country shall revive, as revive it must at no distant day, we shall be the recipients of our full share of that restored prosperity. It cannot be lost or taken from us unless by our own apathy or neglect.

The equipment of the road consists of 60 locomotives (16 coal and 44 wood burners), 57 passenger, 28 baggage, 4 postal, 14 freight saloon, 6 workmen's, 777 box, 556 flat, 110 wood and gravel, 4 wrecking, 102 hand, and 79 push cars, and 16 snow plows. As a measure of safety, the Westinghouse Air Brake has been applied to the engines and cars of the through passenger trains, and nearly all of the cars are furnished with the Miller Platform and Coupler.

The number of tons of freight carried was 374,-104; number of tons carried one mile, 23,288,067. Average receipts per ton, $2 31 55; do. per ton per mile, 3.72 cents. Average mileage of one ton 62.25 miles.

Number of passengers carried, 672,372; do. carried one mile, 25,690,863. Average distance travelled by each passenger, 38.20 miles. Average earnings per passenger $1 19; do. per passenger per mile, 3.15 cents.

The number of miles run by passenger trains was 532,226; by freight trains, 404,545; by wood, construction and switching, 303,209—total, 1,-239,980.

BALANCE SHEET, DECEMBER 31, 1875.

President.—ABNER COBURN.

Directors.—Darius Alden, Noah Woods, Frank W. Hill, George L. Ward, James W. Johnson, James P. Cook, Arthur Sewall, William G. Davis, N. M. Whittemore, Frank Jones, John Cummings, John Wooldredge.

Superintendent.—PAYSON TUCKER.

Treasurer.—J. S. CUSHING.

United States Rolling Stock Co.

At a meeting of the Trustees of the United States Rolling Stock Co., held in this city on the 22d ult., J. B. Hodgskin, Esq., President, submitted a report for the six months ending June 30, 1876, showing that the receipts for rentals, mileage and interest were $269,243 44, the expenses $79,189 59, and the net earnings $190,058 85—equivalent to 3.8 per cent on the capital stock; out of which a dividend of eight shillings per share (two per cent. gold) was declared, leaving about $85,000 to be carried to reserve account. Compared with the corresponding period of 1875, there is an increase of more than 10 per cent. in earnings. The average earnings are gradually rising notwithstanding the depression that has continued to prevail in all business connected with the railroad interests of the country. As the stock passes into the hands of a larger number of lessees, the earnings become more regular. A good proportion of the freight cars let during last year at extremely low rates and on temporary leases have, during the last six months, gone into permanent leases at steadily improving figures. The collections continue to be a source of much trouble and some anxiety. In spite of every effort, lessees fall in arrears, owing to the extremely low rates of freight. The Receiver of the Atlantic and Great Western Railroad, who still remains our most important customer, is steadily falling behindhand. The road is not nearly earning its working expenses; and not only has it not paid off any portion of last year's deficit, but it has increased its debt to us alone by $43,746 95. We now hold $251,123 50 of the Receiver's certificates, against $207,376 25 on Dec. 31, 1875. These certificates are a prior lien upon all the property in advance of all mortgages. The contract with the Receiver expires in December of this year. The policy to be pursued at that time will greatly depend upon the course of the proceedings for foreclosure and reorganization now pending, and are the subject of the most serious consideration by your management.

The Hoosac Tunnel Line.

From the report of Jeremiah Prescott, Esq., Manager of the Hoosac Tunnel and Troy and Greenfield Railroad, for the year ending July 1, 1876, we learn that the total receip's for the year were $79,871, expenses $44,705, and net receipts $34,666. The total number of passengers carried was 68,130, for which $19,025 was received; tons of freight 166,245, for which $44,285 was taken; $112,000 was received from the Troy and Boston Company, and $3,280 for postal service. The net receipts from freight and passengers were $13,-193 for the six months ending January 1, 1876, and $6,192 for the six months ending with July. Meantime the volume of freight has grown from 59,671 tons the first half year, to 106,574 the last. Of the $44,705 total expenses, $39,725 was paid in salaries and wages. Mr. Prescott considers the freight rates of the last six months as low as in equity should be adopted by the State; for, while the volume of freight has more than doubled, the net receipts are less than one-half as much, while the expenses have been somewhat less—$21,306 to $23,399. The expenses have been 56 per cent. of the gross receipts.

About 840 tons of old iron have been re-rolled (a considerable part of the cost of which has been paid in old iron), and used for side tracks and renewing the old track—which will be abandoned on the completion of the new line into Greenfield, (which he thinks will be about the 1st of November) when all this iron will be used for side tracks, and the remainder rerolled or sold. Some 803 tons of new steel rails have been delivered along the line of the relocation.

The experiences of the year have confirmed the manager's opinion that the most satisfactory and profitable method of operating the Troy and Greenfield Railroad is to equip it with locomotives and employes, dividing with connecting links, allowing the usual and customary rate for car service.

New Pacific Railroad Survey.

The Secretary of War has detailed Col. J. W. Twining to take charge of the survey of the Union and Central Pacific Railroad line between Omaha and Sacramento, under the following resolution of the House of Representatives:

Whereas, It is alleged that the measurement of distances on the Union Pacific and Central Pacific Railroads, upon which bonds were issued by the Government to the companies owning said railroads, was hastily and inaccurately made; therefore,

Resolved by the House of Representatives, That the Secretary of War be requested to detail an efficient force from the Engineer Corps of the army to make a careful and exact survey of distances of said roads between Omaha and Sacramento, distinguishing between sections for which bonds were issued to companies at the different rates, exhibiting the number of miles at each rate, designating the point between which the different rates were designed, and report the result of the survey to this House at the commencement of the next session of Congress.

Imports of Dry Goods at New York.

The imports of foreign dry goods at New York for the month of August, were:

☞ The entire amount of bonds issued and to be issued by the Port Dover and Lake Huron Railway is $375,000, or $6,000 per mile for 68 miles of road, all of which have been disposed of except about $60,000 worth. These bonds were mostly taken by residents along the line of the road. One or two municipalities have received them in exchange for debentures—thus increasing confidence in them as a safe investment.

Chicago and Northwestern Railway.

REPORT OF THE LAND COMMISSIONER.

CHICAGO AND NORTHWESTERN RAILWAY CO.,
LAND DEPARTMENT,
CHICAGO, July 17, 1876.

ALBERT KEEP, ESQ.,
President C. & N. W. Railway Co., Chicago, Ill.

DEAR SIR: During the last year the company has received from the United States Government the additional quantity of 2,551.40 acres of land under its land grant in the State of Michigan, and in the same time an increase appears in the aggregate number of acres in Wisconsin, Minnesota and Dakota, arising from the correction and adjustment of the land lists made up from the respective grants. Until all the lands contained within the limits of the land grants shall be fully examined, and all conflicting titles arising from homestead and pre-emption claims are disposed of, these changes in the exact quantity of land belonging to the company will, to some extent, continue to appear. The result of the changes thus far has been to increase the aggregate quantity to which the company is entitled under its land grants.

The sales of lands in Wisconsin and Michigan have been less than during the preceding year, arising from the fact, that most of the lands in these States are timbered lands. Some of them are covered with heavy growth of pine and hard wood, and are valuable according to their location upon the streams or near the line of the railroad for facility of lumbering, or for making charcoal for the iron furnaces. Other of the lands are more lightly wooded, and are less available in dull times for sale, while still other portions of the lands are of little value for lumber, and are not in demand for farming purposes. The continued stagnation in the lumber and iron trade, and the large quantity of pine timber lands purchased by the lumbermen in former years, have combined to decrease the sales during the year.

The prairie lands in Minnesota give promise of earlier sale and settlement, and are appreciating in value with the occupation of contiguous Government sections. A land office is now being erected at Marshall, in Brown County, and facilities will be fully organized by the agency at that place, to put such lands as may be wanted into market by September next. The alternate Government sections in that region of country east of Lac qui Parle River, in Range 45, have been mostly taken up, and there is a fair prospect for the beginning of moderate and increasing sales of the land grant lands situated on or near the Winona and St. Peter Railroad.

A full examination of each tract and section of the unexplored lands in Dakota, between the Minnesota boundary and the Big Sioux River, is now being made, and as soon as this is completed, these lands will be mapped and appraised, and put in readiness for sale whenever the demand shall follow the occupation of Government lands.

The number of acres of lands sold and conveyed during the year ending May 31, 1876, was as follows:

	Acres.
Of lands in Michigan..	8,810 64
Of lands in Wisconsin..	1,646.26
Total acres sold..	10,456.90

The average price received for the whole, was $2 96 per acre.

A summary of the land grant lands, remaining unsold on the same date, is as follows:

	Acres.
Lands in Michigan....	633,491.63
Lands in Wisconsin....	362,551.88
Lands in Minnesota and Dakota.	1,159,517.39
Total lands unsold.	2,155,560.90

Very truly, your obedient servant,

GEORGE P. GOODWIN,
Land Commissioner.

The Coal Trade.

The coal tonnage for the week ending the 26th ultimo, as reported by all the companies, amounted to 339,294 tons, against 561,415 tons in corresponding week last year, a decrease of 222,121 tons. The total amount of anthracite mined for the year is 10,478,912 tons, against 11,737,286 for same period last year, a decrease of 1,258,376 tons. The quantity of bituminous coal sent to market for the week was 78,337 tons, against 77,833 tons for corresponding week last year, an increase of 504 tons. The whole bituminous tonnage from the beginning of the coal year is 2,305 079 tons, against 2,373,023 tons in corresponding time last year, a decrease of 67,944 tons. The total tonnage of all kinds of coal for the week is 417,-631 tons, against 639,248 to corresponding date last year, a decrease of 221,617 tons, and the total tonnage for the coal year is 12,783,991 tons, against 14,110,311 tons to same date last year, a decrease of 1,326,320 tons. The quantity of coal and coke carried over the Pennsylvania Railroad during the last week was 89,937 tons, of which 74,555 tons were coal and 15,382 tons coke. The total carried this year is 2,820,025 tons, of which 2,234,607 were coal and 475,475 coke. This total embraces all the coal carried over the road, east and west. The total of coal received from the Lehigh Valley Railroad at Perth Amboy for the week ending on the 26th ultimo was 20,128 tons, the amount shipped thence amounting to 18,068 tons, leaving 67,421 tons on hand.—*Phila. Ledger, Sept. 4.*

Union Pacific Railroad Terminus.

DECISION OF THE UNITED STATES SUPREME COURT.

No. 584.—The Union Pacific Railroad Company, plaintiff in error, vs. Samuel E. Hull and John W. Morse.—In Error to the Circuit Court for the District of Iowa.—This is a proceeding instituted under the act of Congress of March 3, 1873, (17 Stats. at Large, page 509, section 4,) which confers upon the proper Circuit Court of the United States jurisdiction to hear and determine all cases of mandamus to compel the Union Pacific Railroad Company to operate its road as required by law. The alternative writ, as amended, commanded the railroad company to operate the whole of their road from Council Bluffs westward (including that portion thereof between Council Bluffs and Omaha, and constructed over and across their bridge spanning the Missouri River) as one continuous line for all purposes of communication, travel, and transportation, and especially commanded them to start from Council Bluffs their regular through freight and passengers trains westward bound, and to run their eastern bound trains of both descriptions through and over said bridge to Council Bluffs under one uniform time schedule with the remainder of their road, and to desist and refrain wholly from operating said last mentioned portion of said road as an independent and separate line, and from causing freight and passengers bound westward or eastward to be transferred at Omaha, or to show cause why they did not obey the writ. To the alternative mandamus the railroad company put in a return, which was met by answer filed by the relators, and the case was heard by the Circuit Court on the facts stated in the writ, the return and the answer (the averments of the answer not being controverted) and a peremptory mandamus was ordered. It is of this final judgment that the plaintiffs in error now complain. The obligation of the Union Pacific Railroad Company to operate their road as a continuous line throughout its length is not denied. The company is a creation of Congressional leg-

islation. It was incorporated by the act of Congress July 1, 1862, (12 Stats., 489,) and its powers and duties were prescribed by that act and others amendatory thereof. By the twelfth section it was enacted that the "whole of the railroad and branches and telegraph shall be operated and used for all purposes of communication, travel and transportation, so far as the public and Government are concerned, as one connected, continuous line," and a similar requisition was made in the fifteenth section of the amendatory act of July 2, 1864, (13 Stats. 356.) The contest in the case does not relate to the existence of this duty. It is principally over the question whether the railroad bridge over the Missouri River between Omaha, in Nebraska, and Council Bluffs, in Iowa, is a part of the Union Pacific Railroad, for if it is there can be no doubt that the company are required by law to use it in connection with and as a part of their entire road, operating all parts together as a continuous line. This question is answered in the affirmative, after an elaborate examination of the acts of Congress relating to the subject and the progress of the work under them, and it is accordingly determined that the western shore of Iowa was intended to be the terminus of the road. Else, it is asked, why was Iowa mentioned at all in the legislation? From the entire legislation on the subject it is decided that the road should be constructed to the Iowa shore, and be used as a continuous line. Hall and Morse are held to have been competent to apply for the injunction, and the decree is affirmed. Mr. Justice Strong delivered the opinion, Mr. Justice Bradley dissenting.

Value of Gold and Silver.

The following is the text of the joint resolution passed by Congress at its last session authorizing the appointment of a commission to inquire into the change which has taken place in the relative value of gold and silver coin, the causes thereof, and the effect thereof upon trade, commerce, etc., etc.:

That a commission is hereby organized and constituted, consisting of three members of the Senate and three members of the House, to be appointed by the Speaker, and experts, not exceeding three in number, to be selected and associated with them, with authority to determine the time and place of meeting, and whose duty it shall be—first, to inquire into the change which has taken place in the relative value of gold and silver, the causes thereof, and the effect thereof upon trade, commerce, finance and the productive interests of the country, and upon the standard value in this and foreign countries; second, into the policy of the restoration of the double standard in this country, and if restored, what the relations between gold and silver coins should be; third, into the policy of continuing legal tender notes concurrently with the metallic standard, and the effects thereof upon the labor industries and wealth of the country, and, fourth, into the best means of providing for facilitating the resumption of specie payments. And said commission is authorized to employ a stenographer, and shall report on or before the 15th day of January, 1877, with the evidence taken by them and such recommendations for legislation as they may deem proper.

In accordance with the above resolution the members of the commission, consisting of Senators Jones, Boutwell and Bogy, and Representatives Gibson, Bland and Willard, will organize in this city on the 11th inst. The three additional members will be selected from great commercial centres, probably one from New York, one from Boston and one from the West. Most of the work of the commission will be done in this city, though a sub-committee may be sent to the Pacific coast. Careful inquiry will be made into the condition of silver in India, China and other foreign countries where it is largely used. Merchants and others who are posted upon the subject of silver and its requirements for trade, will be called before the commission and examined.

The Cold Straightening Process in the Manufacture of Rails.

A writer in the American Manufacturer, referring to the cold straightening process in the manufacture of rails, asserts that the practice is faulty. The physical construction of iron is not, he says, absolutely solid: it is, in fact, composed of particles which adhere by cohesion, induced by impact, the particles being thus imperfectly joined at best; their cohesion, moreover, it is well understood, is less in proportion as the temperature of the iron is increased, hence hot iron may be easily bent, while cold iron is very rigid, and hence, furthermore, any disturbance of the particles of iron when cold works a greater injury to their adhesive power or strength than the same degree of disturbance when hot. For this reason cold straightening is more injurious to a rail than straightening when hot, therefore that method should never be resorted to when it can be avoided. This writer also asserts: first, that sixty or one hundred foot rails cannot be hot-straightened perfectly; second, that cold straightening is injurious to the physical structure of the metal; third, that a higher per cent. of perfect rails can be made at thirty than sixty or one hundred feet; fourth, that thirty foot rails can be handled, shipped and put into position at less cost than the longer ones; the rail joints, too, can be made as serviceable and secure as any other part of the track.

Redemption of Five-Twenty Bonds.

TREASURY DEPARTMENT,
September 1, 1876.

By virtue of the authority given by the Act of Congress, approved July 14, 1870, entitled an Act to authorize the refunding of the national debt, I hereby give notice that the principal and accrued interest of the bonds herein designated, known as "Five-Twenty Bonds," will be paid at the Treasury of the United States in the city of Washington on and after the First day of December, 1876, and that the interest on said bonds will cease on that day. That is to say coupon bonds, act of March 3d, 1865, dated Nov. 1st, 1865, as follows: Coupon bonds $500, No. 501 to 3350, both inclusive; $1000, No. 2801 to 14,550, both inclusive; $7,000,000. Registered bonds, $100, 1 to 200, both inclusive; $500, 1 to 800, both inclusive; $1,000, No. 1 to 500, both inclusive; $5000, No. 642 to No. 1100, both inclusive; $10000 No. 1 to 1150 both inclusive; $3,000,000. Total, $10,000,000. Of the amount outstanding embraced in the numbers as above, $7,000,000 are coupon bonds and $3,000,000 are registered bonds.

United States securities, forwarded for redemption, should be addressed to the "Loan Division Secretary's Office," and all registered bonds should be assigned to the Secretary of the Treasury, for redemption.

(Signed) CHAS. F. CONANT,
Acting Secretary.

☞ The Baltimore Sun notices the arrival at that place from Philadelphia of eight sections of massive wrought iron columns, consigned to Bartlett, Robbins & Co., for the Peabody Institute.

Newspapers at the Centennial.

The Special Correspondent of the London *Times* says it would be difficult to find an apter illustration of the big way in which the Americans do things than that furnished by the "Centennial Newspaper Building," in the Exhibition grounds. Here you may see any one, or, if you like, all of the 8,129 newspapers published regularly in the United States, and see them, one and all, for nothing! You are not only permitted as a favor to see them, but invited, nay, pressed, to confer the favor of entering the building and calling for what paper you like. It is about as cool and agreeable a place—quite apart from its literary attractions—as a visitor to the Exhibition could wish to be offered a chair in. He may at first wonder how, among 8,000 papers, among them such mighty sheets as the New York *Herald*, he is to get at the small, loved print of his home, thousands of miles away, it may be, over the Rocky Mountains. But the management is so simple that, by consulting the catalogue, or even without the aid of the catalogue, any one can at once find whatever paper he wants. They are pigeon-holed on shelves in the alphabetical order of their States or Territories and their towns, the names of which are clearly labelled on the shelves. The proprietors of the Centennial Newspaper Building are advertising agents, the largest in all America—Messrs. G. P. Rowell & Co., of New York. Their enterprise will cost altogether about $20,000, or £4,000, including the building and the expenses of "running" it for six months. The 8,000 and odd American newspapers are declared, by the same authority, to exceed "the combined issues of all the other nations of the earth.

Interest on Tennessee State Bonds.

A letter from a banker in Nashville, Tenn., to a firm in Baltimore, gives some interesting views as to the feeling there is in regard to the payment of the coupons of July, 1875, the order for which has lately been issued. The writer says it is not believed that any Nashville banker or broker made a cent out of the movement, and mentions the coupons having sold a short time previous at 65 cents on the dollar. We quote:

"Whether it was known in New York or not of course we do not know. Our New York correspondent always attributed the rise in Tennessee bonds to the action of the Democratic State Convention in not recommending a reduction in the rate of taxation. It was generally thought here that nothing would be done until the meeting of the Legislature, and the determination to pay was, we think, a political move. The radical papers were asking what was done with the money collected for taxes, and why was the money not used in paying the interest, as the law directs? We believe there is no doubt whatever but that the interest will be paid on the day specified, for it would be ruinous to the Governor to recede from his position."

☞ The Chicago, Milwaukee and St. Paul Railway Company has declared a dividend of $3 50 per share on the preferred stock, payable at the office of the company, No. 68 William St, New York, on the 5th of October next.

☞ The Chicago and Northwestern Railway Company has decided to build a branch line from Sleepy Eye, fifteen miles beyond New Ulm, in Brown County, Minnesota, to Redwood Falls, in Redwood county, a distance of thirty miles.

☞ Officers of the Des Moines and Fort Dodge, Iowa, Railroad are prospecting for a branch from Dallas Center to Guthrie Center via Panora,

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, September 9, 1876.

Financial and Commercial Affairs.

The speculation on the Stock Exchange has been quite excited, but the turn of prices has been almost uniformly in favor of operators for a decline. The "coal stocks" have been the object of renewed attack, and a material decline took place in Central of New Jersey—not in the stock only, but in its bonds, and securities guaranteed by that company. A favorite point of attack continues to be what are known as "investment securities," and New York Central and Hudson River, Chicago, Rock Island and Pacific, Chicago, and Alton, Illinois Central, Pittsburg, Fort Wayne and Chicago, and Cleveland and Pittsburg, all declined more or less, followed in some cases by a slight recovery. The great trunk railroads are accepting greatly reduced rates for passengers and freights, especially as compared with those current a year ago, and the shares of the Lake Shore and Michigan Southern Railway, it may be noted, have declined to the lowest price quoted since the present organization was affected. However, the weakness of railroad securities may be ascribed mainly to distrust growing out of the misfortunes that have overtaken the Central of New Jersey.

On Wednesday, there was a renewal of the assault on the "coal stocks;" the most scandalous rumors were put in circulation respecting the affairs of the Central of New Jersey, and the good name of its President, under which the stock sold down to 25, and Delaware, Lackawanna and Western, and Delaware and Hudson Canal sympathized to some extent, but at the close was steadier, not only for these shares, but for nearly the entire list,

Government securities show some further decline, owing to the measure of progress which has attended the 4½ per cent loan; and it was stated late on Wednesday that the Treasury had decided to call in an additional ten millions of five-twenty bonds.

Gold declined and touched 109¼, from which rate there was a rally, and at the close on Wednesday stood at 109⅜. The decline was attributed to the weakness in exchange, and the reports of the success of the 4½ per cent loan. The reaction was due to a variety of influences.

The exports of merchandize from New York the past week was valued at about 6½ millions dollars, or about a million in excess of the corresponding week of last year. The imports last week were, on the contrary, a million dollars less than the corresponding week last year. Foreign exchange has been dull and rates drooping.

The latest bank statement presented some notable features, as compared with last year. The situation remains favorable to a continued ease in the money market; and yet some appreciation in rates, as the movement of the crops becomes active, seems to be anticipated. But the features referred to are the increase in the amount of gold held by the National banks of New York city, from $10,210,300 on the 4th of September, 1875, to $22,142,000 on the 2d of September, 1876, or about 117 per cent. There has been at the same time in the bank note circulation a decrease from $18,125,400 to $14,608,800. The actual strength of the banks is nearly 7½ per cent less than a year ago, though nominally greater. Prices of leading staples are much less than a year ago, and there is less disposition to speculation; hence, not so much money is now needed to move the crops as was then required.

There has been rather more doing in American pig iron. Cotton continues to decline under improved crop prospects, and comparatively free arrivals at the ports. Breadstuffs and provisions have in most particulars rapidly advanced. Coffees and sugars are lower. A check has been given to the upward tendency of petroleum. We are having delicious Autumn weather, and the volume of trade is large: so large, indeed, as to present the appearance of activity.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

CHICAGO, MILWAUKEE AND ST. PAUL RAILWAY CO., NEW YORK, Sept. 5, 1876.

NOTICE IS HEREBY GIVEN THAT A DIVIdend of Three Dollars and Fifty Cents per share has been declared on the preferred stock of the Chicago, Milwaukee and St. Paul Railway Company, payable at the office of the company, No. 68 William st., on the 5th day of October next, and that the transfer-books will be closed on the 20th day of September and reopened on the 10th day of October next.

JULIUS WADSWORTH,
Vice President.

☞ The route for the contemplated North Shore Railroad on Long Island, is now being surveyed.

Railroad Earnings.

The gross earnings of the Chicago, Milwaukee and St. Paul Railway company, as officially reported for 1876, compare with those of the two preceding years as follows:

	1874.	1875.	1876.
Fourth week of Aug.	$284,600	$180,944	$187,000
Month of August...	3,704,300	630,516	569,482
Jan. 1 to Aug. 31...	5,935,445	5,865,352	5,215,277

—which shows for 1876, when compared with 1875, a gain for the last week of $6,056; for the month a loss of $61,034; and for the eight months a gain of $349,925. But compared with 1874, the losses are $197,000 for the week, $134,818 for the month, and for the eight months $720,168.

The earnings of the Chicago and Alton Railroad Company for the fourth week in August were:

1876	$132,616 13
1875	126,021 38
Increase	$6,594 75

The total earnings for the month of August were:

1876	$494,271 58
1875	411,960 46
Increase	$82,311 12

The earnings from January 1 to September 1 were:

1876	$3,149,643 13
1875	2,912,471 39
Increase	$237,271 74

The gross earnings of the Michigan Central Railroad Company for the fourth week of August were:

1876	$212,106 59
1875	176,867 91
Increase	$35,238 68

For the month of August the earnings were:

1876	$542,772 23
1875	534,000 48
Increase	$8,771 75

The earnings of the Ohio and Mississippi Rail road Company for the month of August were:

1876	$292,897 59
1875	257,770 56
Increase	$35,127 03

The earnings of the St. Louis, Kansas City and Northern Railroad for the week ending August 31, were:

1876	$73,158 83
1875	72,066 19
Increase	$1,092 64

For the month ending August 31, the earnings were:

1876	$255,687 60
1875	248,835 99
Increase	$6,851 61

From January 1 to August 31 the earnings were:

1876	$1,973,357 34
1875	1,634,219 36
Increase	$339,137 98

☞ The Pacific Railroad of Missouri was sold at St. Louis on the 6th inst., under foreclosure of the third mortgage bonds, and purchased by Andrew Pierce, Jr., for $3,000,000. The incumbrance outside of mortgages under which the road was sold, and exclusive of the floating debt, which is small, is $11,000,000.

Railroads of Texas.

Messrs. Forster, Ludlow & Co., in their circular of September 1, 1876, say that the Texas Western Narrow Gauge Railroad has twenty-one miles completed and in running order, and is building rapidly toward the Brazos. The International Railroad is now within 9 miles of Austin, the last station being called Duval. It is a question whether the Capital of the State will be reached in time for this year's cotton business. The Tyler Tap Railroad, Senator Douglass, President, is making satisfactory progress; the Gilmer division has 120 men at work, the Pittsburg division 45. It is expected that the whole line will be graded by the 15th of this month. The Texas and Pacific Railway is now running to Fort Worth, 30 miles West of Dallas, and the gap in the Trans-continental is completed. The San Antonio Railroad is making satisfactory progress beyond Kinsbury; Seguin was reached and rails are laid beyond that city.

Statement of the Public Debt of the United States, September 1, 1876.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, August 31, 1876.

LOT M. MORRILL,
Secretary of the Treasury

☞ On the 6th inst. the Secretary of the Treasury issued another call for $10,000,000 5-20s of 1865 (old), of which $7,000,000 are coupon and $3,000,000 registered bonds, numbered as follows: Coupon, $50, 551 to 600; $100, 851 to 2,500; $500, 3,351 to 9,700; $1,000, 14,551 to 26,000. Registered, $100, 201 to 650; $500, 801 to 1,050; $1,000, 501 to 1,800; $5,000, 1,101 to 1,550; $10,000, 1,151 to 2,100, all numbers inclusive. Interest ceases Dec. 6. This call is on account of an additional subscription by the Syndicate for $10,000,000 of the new 4½ per cents.

☞ The earnings of the Philadelphia and Erie Railroad for July, 1876, were $256,286, the expenses $198,061, and the net earnings $58,225. For July, 1875, the earnings were $322,837, the expenses $202,424, and the net earnings $120,413—showing a decrease in earnings of $66,551, a decrease in expenses of $4,236, and a decrease in net earnings of $62,188.

☞ An exchange newspaper says that "Japan's new postal system is a success, and in nearly every town may be seen the sign in English 'Post Office.'" Every Post Office is furnished with a scale of American manufacture, made by the well known house of Fairbanks.—*N. Y. Evening Post, Aug.* 25.

MARSHAL'S SALES.

Marshal's Sale.

George L. Douglass, trustee, &c., pl'ffs, against Louisville, Cincinnati and Lexington Railroad Company, def'ts, and cases heard therewith—Louisville Chancery Court, No. 27,787.

BY virtue of a judgment rendered in the above-named case and the cases heard therewith, the undersigned will,

ON MONDAY, DECEMBER 4, 1876,

sell at public outcry at the door of the court-house, in the city of Louisville, Ky., about the hour of 11 o'clock, A. M., to the highest bidder, the following described property, viz:

All the rights, properties and franchises of the Louisville, Cincinnati and Lexington Railroad Company, including all the right, title and interest of said company free from the liens, mortgages or claims of any kind of the parties herein except as hereinafter stated in and to its line of railroad from its depot on Brook st., in the city of Louisville, through the counties of Jefferson, Oldham, Henry, Franklin, Woodford, Scott and Fayette to its depot on Water st., in the city of Lexington, and from Lagrange Junction, in Oldham county, through the counties of Oldham, Henry, Carroll, Gallatin, Grant, Boone, Kenton and Campbell, to its junction in the city of Newport with the Newport and Cincinnati Bridge, with all its improvements and appurtenances, right of way, lands adjacent thereto, depots, and the land upon which they are situate, and adjacent thereto, machine shops, round houses, cattle-pens, and the lands on which they are situate and adjacent thereto, turn-outs, side-tracks, switches, engines, passenger cars, baggage cars, freight cars, dirt cars, hand cars and all other rolling stock of every description, machinery, tools, implements, fixtures, furniture, whether in buildings owned by it or leased by it or the receiver, materials and supplies of every description, so as to vest in the purchaser all of the right, title and interest of said Louisville, Cincinnati and Lexington Railroad Company, and to all property owned by it or in which it has any interest on said day of sale except choses in action, and all its rights and franchises free from any lien or claim of any of the parties to this suit except as hereinafter stated.

The purchaser or in the event of his transferring his bid before confirmation of the sale and the transferee thereof being accepted by the court, such transferee shall in any event in addition to the amount bid by him be required to assume the following outstanding debts, and all the engagements and obligations of the mortgage and deed of trust given to secure them, viz: One hundred bonds of one thousand dollars each, executed by the city of Louisville, the payment whereof was assumed by the Louisville and Frankfort Railroad Company, and secured by deed of mortgage dated 20th November, 1854, and recorded in the Jefferson County Court clerk's office, in deed book —, page —. Said bonds mature July 1, 1881, and bear interest at 6 per cent. per annum from July 1, 1876, payable semi-annually on the 1st day of each July and January from January 1, 1877, to July 1, 1881, inclusive.

Twelve bonds of one thousand dollars each, executed by Louisville and Frankfort Railroad Company, and secured by deed of trust from said corporation to James Guthrie, Virgil McKnight and Joshua B. Bowles, dated March 12, 1857, five of which bonds mature July 1, 1877, and seven of which mature July 1, 1878, and all of which bear interest at 6 per cent. per annum, payable semi-annually from July 1, 1876, the first five bearing coupons payable January 1, 1877, and July 1, 1877, and the other seven bearing coupons payable January 1, 1877, July 1, 1877, January 1, 1878, and July 1, 1878.

In addition to the assumption of the above amounts, and the engagements and obligations of the above mortgage and deed of trust, the undersigned will first offer said property, subject to the assumption by the purchaser of the following amounts and of the engagements, obligations, rights, duties and powers of the deeds of trust given to secure them respectively, to-wit: three thousand bonds of one thousand dollars each, dated January 1, 1867, and due January 1, 1897, bearing interest from July 1, 1876, at the rate of seven per cent. per annum, payable semi-annually on the first day of each January and July from January 1, 1877, to January 1, 1897, both inclusive, and same secured by deed of trust from the Louisville and Frankfort and Lexington and Frankfort Railroad Companies to Norvin Green, trustee, dated January 1, 1867, and hereinafter called the Norvin Green trust deed.

Nine hundred and eighty-nine bonds of one thousand dollars, each dated April 1, 1870, and due April 1, 1900, bearing interest from October 1, 1876, at the rate of 8 per cent. per annum, payable semi-annually on the first day of each April and October from April 1, 1877, to April 1, 1900, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to George L. Douglass, trustee, dated April 1, 1870, and hereinafter called the Douglass trust deed.

Three hundred and seventy-four bonds of one thousand dollars, each dated October 1, 1872, and due October 1, 1902, bearing interest from October 1, 1876, at the rate of eight per cent. per annum, payable semi-annually, on the first day of each April and October from April 1, 1877, to October 1, 1902, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to A. D. Hunt, trustee, dated October 7, 1872, hereinafter called the Hunt trust deed.

One million five hundred and eighty-two thousand five hundred dollars in bonds, some of one thousand dollars and some of five hundred dollars, each dated April 1, 1873, and due 1st January, 1903, bearing interest from July 1, 1876, at the rate of seven per cent. per annum, payable semi-annually on the first day of each July and January from January 1, 1877, to January 1, 1903, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to James Lees, trustee, dated April 1, 1873, and hereafter called the Lees trust deed.

When said property is so offered, subject to the assumption by the purchaser of the amounts secured as above by said six mortgages, and his assumption of the engagements, obligations, rights, powers and duties of said six mortgages, if an amount is bid equal to the amount of interest due and unpaid thereon regarding the bonds as not matured, together with unpaid costs of said mortgages, and costs of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bidder. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first five mortgages (excluding the Lees trust deed), and his assumption of the engagements, obligations, rights, powers and duties of said five mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said five mortgages regarding the bonds as not matured, and unpaid costs of the said five mortgages and of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bidder therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first four mortgages (excluding the Lees and Hunt trust deeds), and his assumption of the engagements, obligations, rights, powers and duties of said four mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said four mortgages regarding the bonds as not matured, and unpaid costs of said four mortgages and costs of sale, the undersigned will proceed to sell the property so subject, and accept the highest bidder therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first three mortgages (excluding the Lees, Hunt and Douglass trust deeds), and his assumption of and subjection to the engagements, obligations, rights, powers and duties of said three mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said three mortgages regarding the bonds as not matured, and unpaid costs of said three mortgages and of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bid therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first two mortgages (excluding the Lees, Hunt, Douglass and Green trust deeds), and his assumption of and subjection to the engagements, obligations, rights, power and duties of said two mortgages, and will accept the highest bidder therefor.

The purchaser, or in the event of his transferring his bid before the sale is confirmed, and his transferee being accepted by the court, such transferee will be required to execute a separate obligation to the mortgagee or trustee of each mortgage or deed of trust to which he buys subject, and shall, by such obligation, bind himself to the payment of the debts secured by such mortgage or deed of trust, principal and interest as and when they become due, and to the performance of all the engagements and obligations contained in said mortgage or deed of trust, and shall subject himself and the property purchased by him or future to be acquired by him, as the owner of said railroad, to all the duties, conditions, engagements and obligations of said mortgage or deed of trust, and confer upon said mortgagee or trustee and his *cestui que* trusts all the powers, rights and duties conferred by the original mortgage or deed of trust, and in every way to bind himself and the property then owned and future to be acquired by him as owner of said railroad, and to confer upon said mortgagee or trustee and his *cestui que* trust all the rights and powers as if he, the said purchaser, had been the grantor in said original mortgage or deed of trust, and the maker of said bonds and coupons.

If said property is sold subject to any other mortgages than the ones of the city of Louisville and Guthrie, McKnight and Bowles, it will be sold on a credit of 3, 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36, 39, 42, 45, 48, 51, 54, 57 and 60 months, for equal parts of the purchase money. If sold subject to these mortgages it shall be sold on a credit of 3, 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36, 39, 42, 45, 48, 51, 54, 57, 60, 63, 66, 69, 72, 75, 78, 81, 84, 87, 90, 93 and 96 months, for equal parts of the purchase money.

The purchaser will be required to execute bonds, with good security, bearing interest from date until paid at 6 per cent. per annum, and said bonds will be drawn payable on or before the day of their respective maturities. The bidder accepted by the marshal will be required to at once deposit with said marshal the sum of $20,000 as security for his compliance with the terms of sale, which sum the marshal shall at once pay into court, which may be withdrawn by the said bidder on confirmation of the report of sale. A lien will be retained on the property sold to secure the bonds of the purchaser, and any obligation executed by him for mortgages or deeds of trust assumed by him.

C. C. W. ALFRIEND,
Marshal Louisville Chancery Court.

Grand Southern Railway.

The Grand Southern Narrow Gauge Railway from St. John to Calais direct, to connect with the Shore Line in Maine is being constructed with vigor and energy, 25 miles east and west of St. George, being now about ready for the rails, and it is thought that 50 miles of road bed will be completed this year; with iron at $42 to $45 per ton and everything else in the railroad constructing line correspondingly low, and our people in need of the labor even at low rates it would seem as if with money seeking investment in the large centres at 8 per cent. per annum, our Short Line directors ought to be up and doing.—*Eastport Sentinel.*

☞ Articles of incorporation of the California Street Railway Company was filed with the Secretary of State of California on the 25th ult. Capital stock $500,000, divided into 5,000 shares of $100 each. Location: city and county of San Francisco. Object: To build a street railroad along California street, San Francisco, from its junction with Kearney street to First avenue, and operate the same by stationary engines, endless ropes, etc. Directors: Leland Stanford, David Porter, P. H. Canavan, A. S. Hallidie and Joseph Brittain.

☞ Over 100,000 tons of coal have been shipped from Pictou, N. S., this season, nearly half of which have been shipped by the Halifax Company which works the mines formerly owned by the General Mining Association of London.

☞ The first shipment on the Montreal, Ottawa, and Western (Ca.) Railway was made from Montreal on the 25th ult. It consisted of a large quantity of hides and was destined for St. Jerome.

☞ The town of Chatham, N. B., is connected with the Intercolonial Railway by a short branch, which has been built by a private company.

☞ At the close of 1874 there were in Russia 10,725 miles of railroad, and about 2,400 miles in course of construction.

Internal Commerce and Transportation.

The Secretary of the Treasury has appointed the following gentlemen as experts for the purpose of furnishing information to the Department in regard to internal commerce and transportation: Hamilton A. Hill of Boston, formerly Secretary of the Boston Board of Trade and of the National Board of Trade; Theodore F. Lees, General Agent of the New York Cheap Transportation Association; Geo. W. Porter, Secretary of the Baltimore Board of Trade; Albert Fink of Louisville, Ky., late General Commissioner of the Southern Railway and Steamship Association; Geo. H. Morgan, Secretary of the Merchants' Exchange of St. Louis; Col. J. D. Hayes of Detroit, Mich., largely identified with Western commercial interests; Charles Randolph, Secretary of the Chicago Board of Trade and Secretary of the National Board of Trade; Col. Milo Smith of Clinton, Iowa, formerly civil engineer and railroad manager. The division of internal commerce is under the charge of Mr. Joseph Nimmo, jr., who is now preparing a report to be submitted to Congress in December. The above mentioned appointments are made under a special appropriation for the purpose of collecting and presenting to the country information in regard to internal commerce and transportation.

☞ The last rail of that portion of the Southern Pacific Railroad connecting San Francisco with Los Angeles, was laid at Lang's Station on the 5th inst. The road is now completed to within 100 miles of the Colorado river, and 500 miles from San Francisco. It will in time be extended to Fort Yuma, 250 miles further in the southeastern corner of the State of California. The track is laid with heavy American steel rails, and is more substantially built than the new roads in the West generally are. The road has been built by C. P. Huntington of this city and his California associates.

☞ The Spirit of Arkansas learns from Col. H. B. Dent, of Memphis, Tenn., a director of the St. Louis and Memphis Railway, that this company have commenced in earnest the construction of the road. For the present, he says, they will build 22 miles, beginning at Jonesboro, Craighead county, and complete it to Lindsly's, in Lawrence county, by the 1st of December. It will be a narrow gauge of three feet six inches.

☞ A dispatch dated Victoria (B. C.) August 25th says: "It is probable that the Canadian Pacific Railway will be brought to Bute Inlet. The Governor General emphatically stated that the main line will be vigorously prosecuted. His remarks respecting the abandonment referred only to the short section on the Island of Vancouver."

☞ The route of the Massillon and Coshocton Railroad, now in course of construction, extends from Beach city, a point on the line of the Cleveland, Tuscarawas Valley and Cleveland Railroad, to Coshocton, about 36 miles. From Beach City to Cleveland the distance is 86 miles, making the entire distance from Cleveland to Coshocton 182 miles.

☞ The directors of the Galt and Guelph, (Canada) Railway company have under consideration the proposition of the Great Western Railway company to purchase the road for $10,000.

The Petroleum Pipe Line.

It is stated by parties interested that to-day the work of laying a pipe line will be commenced for the transportation of crude petroleum from the oil fields of Western Pennsylvania to Baltimore, a distance of 225 miles, with Brady's Bend as the Pennsylvania terminus. This pipe laying scheme has the support of parties in Baltimore, who secured a charter from the Maryland Legislature last winter, which charter was incorporated with the Pennsylvania organization. The project has many and powerful opponents in Pennsylvania, including the railroads, Pittsburg refiners, &c., who do not want the refining business transferred to the Atlantic seaboard, which would result if pipe lines were laid to bring crude oil to the seaboard cities, as contemplated. The prosecution of the work will probably be the signal for the opening of legal hostilities, and it is stated the pipe line company has strong backing to wage the contest. With no legal obstacles it is claimed the line could be completed in ninety days.—*Balt. Sun, Sept.* 1.

☞ The engineers surveying the line of the narrow gauge railroad from Fredericksburg to the coal mines west of Harrisonburg, Rockingham county, Va., have reached Harrisonburg. The shops of the company will be located on the lands of the Dora Coal Mine Company.

The Course of Emigration.

The United States, besides receiving and absorbing yearly a large foreign population, contains among her native-born citizens a great migrating force, with whom the roving instinct, the desire for a change, is scarcely less strong than among the nomads of Arabia, though of course taking a less tangible shape, and exhibited in a different manner.

The vast emigration which gave the first impetus to the peopling of the Great West, began with the people of New England, among whom are found a race which seems to be born pioneers. They first journeyed to Western New York and Northern Ohio, then to Michigan, then to Wisconsin and Northern Illinois, then to the Trans-Mississippi region. The wonderful growth of these sections in half a century must be ascribed mainly to them, for the foreign immigration has been but a small proportion of the whole. It is a curious fact, that the pioneers of the Northwest are in very many cases the sons of those who were pioneers in Western New York.

"Westward the Star of Empire takes its way" has proved a truth in its application to the United States. But it seems very probable that the movement of population will henceforth, and indeed has already begun to take a new direction. The soil of the extreme West is no longer inviting, and the limits of civilization are so far from markets that even if the soil were fertile its advantages would be lost to the emigrant. And not only is the soil sterile, but the climate rigorous and forbidding. It is not surprising, therefore, that emigration bears off towards the Southwest, through Missouri, Arkansas, Kansas, and the Indian Territory, into Texas, where a genial climate and a fertile soil offer the most inviting circumstances to those with whom the ownership of a vast area of land is the highest ambition.

The direction which the flow of population has taken is in strong contrast with the persistence with which the older Southern States are avoided. Even the movement which Maryland and Virginia have received is rather like the slow progress of the glacier than the rush of a mighty flood.

The effect upon railroad building cannot fail to be felt at once. A vast region, now almost a wilderness, is to be opened up, and filled with a teeming population. Towns that are now merely scattered hamlets are to become flourishing cities; and railroads must be the principal agency in this work.

To many, however, a more Southern latitude will not be acceptable, and we may expect, as another result of the check that has been given to the Western movement, that the increase of population will be turned back upon the older States, which are capable of much further development. We see in this a promise of greater prosperity to the railroads already built.

United States Coast Lines.

From the Report of the United States Coast Survey we learn that the aggregate extent of our shore line on the Pacific is 12,734 miles, while on the Atlantic it is 11,860 miles, and on the Gulf of Mexico 6,843 miles. California contains 1,136 miles of the coast line on the Pacific, while she has also 272 miles of island shore and 240 miles of tide-water river shore, making altogether 1,648 miles of shore line. Texas has an actual coast line on the gulf of 1,209 miles, while Florida has 1,144 miles on the gulf and 363 miles on the Atlantic, so that both exceed California in this particular. It is the annexation of Alaska that has promoted the Pacific coast to a higher figure than the Atlantic, Alaska having 9,830 miles of coast line.

Relative Value of United States Bonds.

In reply to numerous inquiries from investors, officers of institutions, trustees of estates, and others having money to invest, as to what Government bonds they should buy for investment, or whether they should exchange the Government bonds they now hold for the new 4½ per cent bonds, Messrs. Fisk & Hatch, bankers and dealers in Government securities, No. 5 Nassau st., have issued a circular in which they compare the relative value of the new 4½ per cent bonds with the old Government issues. They say in substance that the rapid decline in the price of most of the Government bonds consequent upon the negotiation of the 4½ per cent bonds, has led many to suppose that in some way the older issues had suddenly lost something of their value as an investment; that the sale of the new bonds necessarily involves the early calling in for redemption, and a consequent depreciation in value, of all the older issues; and that there must be some advantage in selling their old bonds and buying the new. The facts, as stated in the circular, are: The amount of the 4½ per cent bonds authorized by law is $300,000,000. The amount of the 5-20s of 1865, old, (May and Nov.) outstanding, is $150,558,650. The amount of the 5-20s of 1865, new, (Jan. and July) outstanding is $202,663,100. These bonds are called in for redemption only in the order of their issue, and only as the new bonds are sold; and when called in, draw interest for three months after the date at which they are called. From which it will be seen that $150,000,000 of the 4½ per cent bonds must be sold before the old 1865s can all be called in, and before any of the new 1865s can be disturbed; and that the sale of the entire amount of the 4½ per cent bonds authorized will still leave $53,000,000 of the new 1865s outstanding, and all the 5-20s of 1867 and 1868.

The six per cent bonds of 1881 are not payable absolutely in that year, as is generally supposed,

but are redeemable at the option of the Government after June 30, 1881 (except one issue of $18,415,000, under the act of Feb. 8, 1861, which are payable Dec. 31, 1880.) They cannot be called in for redemption before the date above mentioned, and may run several years longer.

The Five per cent bonds of 1881 are also not absolutely payable in 1881, but redeemable at the option of the Government after that date. These bonds and the 10-40s, being five per cent bonds, will not be disturbed until all the six per cent bonds have been redeemed or funded (except, perhaps the currency sixes, which are not redeemable until 1895 to 1899), and as there are now outstanding $984,999,650 in six per cent bonds (exclusive of the currency sixes) it is hardly worth while, in estimating the valve of the five per cent issues for investment, to assume any possibility of their redemption in less than 15 or 20 years, while it is not unlikely that the 10-40s may run to their full maturity in 1904.

As the negotiation of the $500,000,000 of five per cent bonds of 1881 occupied about five years, it is probable that it will be from one to one and a half years before all the old 1865s will be called in, and between one and two years more before all the new 1865s will be wanted, supposing the negotiations of the new loan to be fairly successful. Meanwhile, a revival in the general business interests of the country, increased activity in the money market and other causes, may postpone the results for longer periods. It may therefore be assumed that the old 1865s will draw interest for a period running from three to eighteen months, and the other issues as follows: New 1865s, one and a half to three and a-half years; 1867s and 1868, from five to seven years; sixes of 1881, for a like period; fives of 1881, from 15 to 20 years; ten-forties, from 20 to 28 years. The currency sixes cannot be called in until maturity, as they are payable at fixed periods from 1895 to 1899.

In illustration of the relative value of the different bonds, the following among other comparisons are given: A $1,000 five-twenty bond of 1865, new, sold at present market price (18½) would produce $1,131 25; deduct for present value of accrued interest, say $11 25, at 110, $12 38, and there is left $1,118 87 as amount realized for the principal at market price. A $1,000 four and a-half per cent bond would cost now for the principal, at 100¾, $1,007 50, at 110, $1,108 25, leaving a difference which could be realized by exchanging at present prices of $10 62; difference in favor of holding $1,000 new 1865s over exchanging at present prices, provided they run two years $22 38, or about 2¼ per cent. By the same process of reasoning, the difference in favor of holding $1,000 in five-twenties of 1867 would be $34 38, or nearly 3½ per cent. To render an exchange of five-twenties of 1867 for four-and-a-half per cent bonds at the present time equal in advantage to the difference of interest for five years, the former should now sell (taking into account the accrued interest) at 120, as compared with the latter at 111; or in the case of five-twenty bonds of 1868 or six per cent bonds of 1881, the selling price should now be about 123 as compared with the four-and-a-half per cent bonds at 111. In conclusion they say:

"It has been no part of our purpose to depreciate the value of the new 4½ per cent bonds, but only to indicate the relative value of the other Governments bonds in comparison. We believe that, in the present condition of our national credit, and with its steady growth throughout the financial world, a bond of the United States, bearing 4½ per cent interest, and offered for sale at a little over par in gold, is the most attractive investment now offered to the capital of either this country or Europe, excepting only, for the time being, the other issues of United States bonds, which, through misapprehension, have temporarily declined below their true relative value. We have heretofore opposed the issue of 4½ per cent bonds, but only on the ground that the issue of such a bond was unnecessary if the Government would abandon the policy of short and optional loans, and issue a 4 per cent bond having a sufficient time to run, say 50 years; and that a 4 per cent bond having 50 years to run would be more desirable and attractive to capital than a 4½ per cent bond having the promise of but 15 years of life, and would, in time, be available for the funding of all the outstanding 6 per cent bonds, at an enormous saving to the National Treasury in the interest payments for future years."

Sale of the Ithaca and Athens and Geneva and Ithaca Railroads.

Two railroads in the State of New York, connecting with the Lehigh Valley Railroad by way of the Pennsylvania and New York Canal and Railroad were recently sold at auction, Judge Packer, President of the Lehigh Valley Railroad Company being the purchaser of both for his company. The first was the Ithaca and Athens Railroad, extending from Athens to Ithaca, thirty six miles, the sale being under foreclosure of a second mortgage and subject to the lien of a 7 per cent first mortgage of $600,000 and its three unpaid semi annual coupons. The price at which it was bid off was $60,000. The second road, sold the next day, on the 2d of the month, was the Geneva and Ithaca, forty miles long. This road was sold under a first mortgage, and, without competition, was knocked down upon the single bid of $50,000. The prices at which these respective properties were sold afford little idea of their actual worth, as, for instance, the iron on the Geneva and Ithaca is, of itself, said to be worth a quarter of a million of dollars. The Ithaca and Athens Road has a paid in capital of $980,600 and a funded debt of $606,000. The Geneva and Ithaca has a funded debt of $800,000, the two roads being represented by $2,835,056 of debt and capital, and cost in construction and appurtenances $2,467,282. The Lehigh Valley Railroad Company has held a controlling interest in the two roads named for sometime, and the sales noted were more matters of form than of substance indicating values of the property passing under sale. The sales above noted it is expected will be approved on the 18th instant, and the titles they convey at once thereafter be passed. The unpaid coupons will be paid by the Lehigh Valley Railroad Company, and regularly hereafter as they mature.

☞ Articles of association of the St. Louis and San Francisco Railroad Company have been filed with the Secretary of State of Missouri. The capital stock is $25,000,000. The company is organized to purchase the Atlantic and Pacific Railroad, and construct 37 miles of track between Pacific City and St. Louis, so as to give a continuous line between the termini of the road. The directors for the ensuing year are Andrew Pierce, jr., Joseph Seligman, James D. Fish, J. P. Robinson, W. H. Coffin, James Baker, Samuel Hays, C. B. Fisk, W. F. Buckley, Thos. A. Pierce, C. W. Rogers, and Henry F. Verhuven.

Texas and Pacific Railway.

The earnings of this road for the years ending May 31, 1875 and 1876, were:

	1875.	1876.

Taxes	63,139 96	
General expense account	41,004 94	
		174,475 54
Which will leave a surplus of		$498,267 42

to provide for the interest on the first, and the consolidated mortgage bonds of the company, that under the reorganization is limited to six per cent on $25,000 per mile of road; and for 325 miles, the average length of road operated during the year, this interest will amount to $487,500.

Compared with the previous year, the gross earnings of 1876 show an increase of $381,311 65, with an increase in expenses of $102,078 17, making the increase in net earnings $279,233 48. The gross earnings per mile of road in 1876 were $4,814 23, the working expenses $2,744 25, and the net earnings $2,069 98; in 1875, the earnings per mile of road were $3,695 28, the expenses $2,466 34, and the net earnings $1,228 94—showing an increase in earnings of $1,118 95, in expenses of $227 91, and in net earnings of $841 04. The percentage of operating expenses for the year was 57; last year it was 66.7—a saving of 9.7 per cent. The number of passengers carried one mile was 10,110,024, against 8,458,450 in 1875, showing a gain of 2,651,574. The number of tons of freight hauled one mile was 28,006,762; last year it was 14,217,234—an increase for the year of 13,789,528. The total tonnage moved during the year aggregated 254,288 tons. The cotton shipments aggregate 188,196 bales; in 1875 they were 102,414—showing a gain of 85,782 bales. The President in his report says:

From the foregoing transportation statistics, the shareholders of the company will perceive that both the volume of business, and the gross earnings of the road, have greatly increased during the year; and this increase has been occasioned by the large immigration into the State, and the rapid development of the country in consequence. It will also be noticed that the cost of operation has been considerably reduced, it being nearly ten per cent less than the proportionate cost for the preceding year.

In the statement of mileage earnings there is

included the line between Sherman and Paris, an isolated and disconnected division of 65 miles, the earnings upon which, because of its isolation, were a little less than one-half the earnings of the main line, although the road is located through a rich and populous section of the country. With the completion of the lines to Texarkana and Fort Worth, the current year's business must inevitably show a very large increase of mileage earnings over last year.

Notwithstanding this drawback of 65 miles of disconnected line, your company earned last year, over and above its operating expenses, taxes, insurance, etc., more than the interest upon the whole authorized issue of its first, and consolidated mortgage bonds; and with the increase of business that must follow the completion of the lines referred to, there is good reason to believe, that for the current year, in addition to providing for all of the cumulative interest upon its mortgage debt of $25,000 per mile, there will be a considerable surplus of net revenue, applicable to the payment of the interest on the new registered income and land grant bonds.

REORGANIZATION.

During the past year, the plan for a reorganization of the mortgage debt of your company, that was formally approved and authorized at the last annual meeting of shareholders, has been substantially carried into effect, as will appear from the following statement:

At the commencement of the fiscal year just closed, the indebtedness of the Texas and Pacific Railway Company was as follows:

First Mortgage Construction bonds outstanding, part of an authorized issue of $40,000 per mile, on about 2000 miles of line, extending from the eastern boundary of Texas to the Pacific Coast....	$10,093,000 00	
Land Grant bonds, part of an authorized issue of twenty millions, covering the lands granted by the State of Texas.....	9,252,000 00	
Accrued Interest on First Mortgage Construction bonds, gold.....	837,990 00	
Accrued Interest on Land Grant bonds, currency	1,105,720 00	
Total Mortgage indebtedness, with accretions of interest.....		$21,288,710 00
Debt to State of Texas.....	200,885 90	
Floating debt, principally bills payable	935,257 67	
Total.....		$22,424,853 57

For this large indebtedness, the company had 324 miles of completed road; 120 miles additional of line, very nearly graded, tied and bridged, or with a considerable portion of the bridge timbers on the ground; about $200,000 cost price of work and material in California; a carefully located line from Sherman via Fort Worth to San Diego—about 1550 miles—the location having been made after a thorough exploration of a belt of country nearly 200 miles wide, for the whole distance; and nearly half a million dollars' worth—original cost—of construction and contractors' material and supplies on hand in Texas.

On the fourth of November, 1873, the construction organization that had undertaken to build your road through to the Pacific Ocean, at San Diego, notwithstanding its very large subscribed capital of about $8,250,000—a much larger sum than was ever before, in this country, placed, primarily, in such an enterprise—was obliged by the results of the panic to suspend work.

It was deemed desirable to discontinue the construction of the line under the contract with that company, and that an equitable settlement should be had between the companies for the work and materially already furnished, and that terms for a cancellation of the construction contract between the two corporations should be agreed upon.

A plan acceptable to the stockholders of the Construction Company, and to the Texas and Pacific Railway Company, was finally agreed upon; when a formal adjustment contract, terminating all relations between the two companies, was executed and approved by them, upon the following basis:

1st. The Construction Company to return all of the securities of the Texas and Pacific Railway Company, that had been received under its contract, with the accrued and accruing interest coupons.

2d. The holders of land grant bonds to return all their bonds, with all accrued and accruing interest coupons, and receive in exchange, new income and land bonds of the company, at par. The advantages of this exchange to the old land grant bondholders are obvious, as the old land grants are secured only on Texas lands; while the new income and land bonds have a like security on Texas land—as more than one of the old land grants are held by the trustees of the new mortgage for each income and land bond issued—and in addition, have a mortgage lien on the railway and its income, subordinate only to $25,000 per mile of prior mortgages.

3d. The Construction Company full paid shareholders, to exchange their shares of stock at par, for Texas and Pacific Railway Company shares at par.

4th. The Texas and Pacific Railroad Company to issue a new first mortgage, to secure an issue of new 6 per cent gold bonds, limited to $8,000 per mile on the lines east of Fort Worth, the trustees of the new mortgage to hold the old $40,000 per mile construction bonds until all shall have been returned, and the mortgage satisfied of record.*

5th. The Texas and Pacific Railway Company to issue a new consolidated mortgage, covering its lines east of Fort Worth, to secure an issue of $17,000 per mile of 6 per cent gold bonds; [$8,000 per mile additional can be issued under this mortgage only when, and as the new first mortgage bonds shall be retired.] The two mortgages in no case to exceed $25,000 per mile of completed road.

Of this authorized issue of consolidated mortgage bonds, on 444 miles of road, $6,524,000 have been disposed of during the year, netting the company 80 cents on the dollar, and the proceeds have been applied to the payment of its cash obligations.

6th. The Texas and Pacific Railway Company to issue a new income and land bond, not exceeding $8,908,000 in all, on 524 miles of its lines east of Fort Worth; the mortgage, in addition to its lien upon the lands acquired in constructing the lines east of Fort Worth, also to cover the railway and its appurtenances, subject, however, to prior liens not exceeding $25,000 per mile of first, and consolidated mortgage bonds. These new income and land bonds to be given at par, in exchange for the old land grant bonds with their accretions of interest at par.

Of the bonds authorized under this mortgage, but $3,763,000 had, at the end of the year, been issued by the company, although $5,739,000 of the old land grants had been returned to the trustees; and in no case will the bonds required for exchange with old land grants be used in any other way; nor will the total amount outstanding of both classes of bonds exceed $8,908,000, on the 524 miles of line east of Fort Worth.

7th. The Texas and Pacific Railway Company to issue to certain trustees, to be exchanged for Construction Company shares, an amount of its full paid capital stock, equal to the full paid shares of capital stock of the Construction Company.

This adjustment contemplated using the new consolidated, and the new income and land bonds, to liquidate the indebtedness of the Texas and Pacific Railway, and certain of the indebtedness as scheduled, of the Construction Company; leaving in the treasury of the Railway Company, the first mortgage $8,000 per mile bonds, to be used in completing such unfinished portion of the company's lines east of Fort Worth, as would secure a large increase of business, and greater economy in the operation of the road, and give increased value to the property. This arrangement has been substantially carried out, and will explain the favorable position of your company, in being able to offer for sale, the entire issue of its first mortgage bonds on 333 miles of completed road.

On the thirty-first of May, the end of the fiscal year, your company owned all of its first mortgage bonds, $8,000 per mile on 333 miles of road, $2,664,000; but since then, two millions have been sold, as hereinafter stated.

At the close of the fiscal year, May 31st, the funded and floating debt of the company was:

First Mortgage, and Consolidated Mortgage 6 per cent gold bonds, including $490,000 First Mortgage bonds placed in trust, to secure the return for cancellation of $378,000 of the original $40,000 per mile Construction bonds.....		$8,260,000 00
Income and Land Grant 7 per cent Currency Registered bonds.....		3,763,000 00
Old Land Grant bonds in hands of stockholders of California and Texas Railway Construction Company, under agreement to be returned and exchanged for new Income and Land Grants.....		1,699,000 00
Old Land Grants, pledged as collateral for California and Texas Railway Construction Company obligations, under agreement to be returned when notes are paid.....		1,805,000 00
Old Land Grants held by other parties		509,000 00
Total Funded Debt.....		$15,536,000 00
Debt to State of Texas, to be paid by semi-annual payments of 1 per cent as a sinking fund	$196,888 27	
Unpaid Coupons Land Grant bonds, all but 14 per cent of this amount is under agreement to be funded in the new Income and Land Grant bonds at par	607,355 00	
Fractional Bond Scrip, redeemable in bonds of the company when presented in amounts of $1,000 and its multiple	60,540 87	
Floating indebtedness..	411,582 67	
		1,276,366 81
Total Funded and Floating Debt.		$16,812,866 81

against $22,424,853 57, at the commencement of the year, being a reduction of $5,612,486 76.

In addition to this reduction of Texas and Pacific Railway Company debt proper, the indebtedness of the California and Texas Railway Construction Company has been reduced during the year, under the adjustment contract, from $6,213,349 95 to $1,625,083 43, or $4,588,266 52 in all; the amount of indebtedness liquidated for both companies aggregating $10,100,753 28 for the year.

Of this balance, $1,625,083 43 of Construction Company debt, $989,785 18 is under an agreement to accept in liquidation, Consolidated Mortgage, Texas and Pacific Railway Company Bonds, which are held in reserve for that purpose, but the death

* Of the $10,093,000 of $40,000 per mile bonds, $9,109,000 are now in hands of the trustees, and the balance are held for notes not yet due, and for a trust that will be adjusted within a few months, when these outstanding bonds are also to be delivered to the trustees; and as a resource to meet the obligations that are a lien upon them, $400,000 of the new first mortgage bonds have been placed in trust.

of one of the parties to this agreement, and complications connected with a settlement of his estate have occasioned delay in making the exchange. Proper steps are now being taken to adjust this matter.

It seems proper to state in this connection, that it is due to the forbearance of the creditors of the two companies, that such a large amount of debt —upwards of ten (10) millions of dollars, has been satisfied during the year; and it gives your board great pleasure to add, that there is not a suit pending against either company, arising out of the suspension in 1873.

It is a matter for congratulation that the property of these companies has been so protected from waste; that all of the original property is held intact; that the cumulative interest bearing debt of your company has been so greatly reduced; and that there is an amount of mortgage bonds in the treasury, sufficient at the rates at which they have been sold, to satisfy every dollar, principal and interest, of the indebtedness of both companies, arising out of the construction of your road; including the cost of completing and equipping its one hundred and twenty miles of additional line.

During the past year your company has extended its line from Brookston to Paris, 9 miles, making 333 miles of line in operation at the end of the fiscal year just closed; the average length of road operated during the year, being 325 miles.

The recent sale of two millions of first mortgage bonds, as authorized by your Board on the second of last May has enabled your company, since the close of the fiscal year, to purchase the rails, construction material and equipment, and to make the necessary contracts to secure, before the end of the present week, or within less than one hundred days from the date a sale of the bonds was authorized, the completion of the lines between Paris and Texarkana, and between Eagle Ford and Fort Worth, 111 miles, in all, in time to move the large wheat and cotton crops of the present season.

The construction contracts made with individual bidders for the work, called for the completion of both of these lines by the 17th day of July, and the rails and other material were all purchased, and contracts made for their transportation and delivery in time to be laid previous to that date; and the road would undoubtedly have been so completed, had it not been for the severe storms that swept across the Indian Territory, Southern Kansas and Arkansas the last of June and early in July, the effect of which, was, to carry away three spans of Red River bridge, on the Missouri, Kansas and Texas Road, upon which we relied for the prompt delivery of a large quantity of rails and fastenings. Serious damage was also done to the St. Louis, Iron Mountain and Southern Road, so that its trains were twice delayed for several days each time, and on this road we had also relied for the prompt delivery of a large quantity of material including 3,000 tons of rails.

The disabling of these two roads, upon which we were dependent for the prompt delivery of our construction material—the Missouri, Kansas and Texas from the last of June to the nineteenth of July—was a casualty that we had no reason to anticipate, and could not have been provided against; and the effect has been to delay the completion of the line to Fort Worth until July 19th, when the first engine reached that town; and of the north line until August 12th, on which day an all rail connection will be made through from Texarkana to Sherman. The construction of these lines, will make 444 miles of railway that your company will have in operation by the end of the present week.

In view of the condition of the affairs of the company, it is believed the stockholders should authorize their Board of Directors to undertake the construction of the line from San Diego eastward.

FORFEITURE OF LEGISLATIVE GRANTS.

A good deal of unfriendly interest has been recently manifested by the representatives of parties hostile to your company, and also by certain speculators, and others interested in non taxable and other land certificates, who are desirous of locating their certificates in solid bodies, upon the lands contiguous to the line of your road, that have been reserved under grants to your company by the State of Texas for the benefit of the school fund, as well as upon the alternate sections reserved for the benefit of the railway company; and it has been somewhat persistently claimed that the company's land grant and reservation, granted by the State of Texas, have been forfeited or are subject to forfeiture, because of alleged default on the part of the company, in not performing all of the requirements of the grants.

Your board has had this matter carefully examined by able local counsel, familiar with Texas laws and Texas legislation, and they are able to proffer to you the assurance, that there has been no forfeiture under your Texas grants; nor is there any liability of forfeiture in the near future, unless the company shall fail to construct forty miles of road yearly, or eighty miles each two years from Fort Worth west.

The opinion given is clear and explicit: "That if the Texas and Pacific Railway Company, shall, by March 1st, 1877, build forty miles of the Trans-Continental branch"—it has completed upwards of ninety miles of this line during the past twelve months—"and a like amount of forty miles in each year, until it makes the junction at Fort Worth, there will be no default under the provisions of the act of March 15, 1875."

It is true there was a provision in the act of March, 1875, in the form of a condition subsequent, requiring the company to construct twenty miles of line to Blossom Prairie—which is about eleven miles east of Paris—by November of last year. This piece of road has since been completed, and under the rule of law, laid down by the Supreme Court of the United States, there has certainly been no forfeiture declared up to the present time, and now that the line is completed the question cannot be raised.

The Supreme Court, Justice Swayne delivering the opinion, says: "The real estate of a corporation is a distinct thing from its franchise, but the right to acquire the particular real estate designated in the charter of this company, and here in question, is within that category.

"It might therefore well be doubted, whether this right could be taken from the company, without an appropriate proceeding instituted for that purpose and prosecuted to judgment by the State.

"There is a wide distinction between a condition precedent where no title has vested, and none is to vest, until the condition is performed, and a condition subsequent, operating by way of defeasance. In the former case, equity can give no relief. The failure to perform is an inevitable bar. No right can ever vest. The result is very different where the condition is subsequent; there equity will interfere and relieve against forfeiture, upon the principle of compensation where the principle can be applied, giving damages where damages should be given, and the proper amount can be ascertained."

"Conditions subsequent are not favored in the law. When they are sought to be enforced in an action at law, there must have been a re-entry or something equivalent to it, or the suit must fail. The right to sue at law for the breach is not alienable. The action must be brought by the grantor or some one in privity of blood with him."

In the Wisconsin case of Schulenburg et al. vs. Harriman, where lands had been granted by Congress to the State of Wisconsin, and by the State granted to aid in the construction of the St. Croix River Road, the same question was decided by the same court, Justice Field delivering the opinion in the following language: "And it is settled law that no one can take the advantage of the non performance of a condition subsequent annexed to an estate in fee, but the grantor or his heirs, or the successors of the grantor, if the grant proceed from an artificial person, and if they do not see fit to assert their right to enforce a forfeiture on that ground, the title remains unimpaired in the grantee. The authorities on this point, with hardly an exception, are all one way from the Year Books down. And the same doctrine obtains where the grant upon condition proceeds from the Government; no individual can assail the title it has conveyed on the ground that the grantee has failed to perform the conditions.

"If the grant be a public one it must be asserted by judicial proceeding authorized by law, the equivalent of an inquest of office at common law, finding the fact of forfeiture and adjudging the restoration of the estate on that ground, or there must be some legislative assertion of ownership of the property for breach of the condition, such as an act directing the possession and appropriation of the property, or that it be offered for sale or settlement."

These decisions of the Supreme Court of the United States, would seem to establish the principle, that judicial action must precede a forfeiture, and that the State of Texas alone can raise the question of forfeiture; and that no individual citizen, nor association of citizens, can raise any such question, or acquire any equitable right to plunder the school fund, by using their non-taxable and other certificates, having the privilege of location like head-right certificates—in solid bodies—to cover the even sections of land reserved for educational purposes, and the odd sections granted to this company within its reservation, under the act of May, 1873.

If further evidence is wanted that judicial action must precede a forfeiture under the laws of the State of Texas, it is to be found in section 22, Article IV. of the new Constitution, where the duty and powers of the Attorney General are defined, which says: "He shall especially inquire into the charter rights of all private corporations, and from time to time, in the name of the State, take such action in the courts as may be proper and necessary, to prevent any private corporation from exercising any power or demanding or collecting any species of tax, toll, freight or wharfage not authorized by law. He shall, whenever sufficient cause exists, seek a judicial forfeiture of such properties, unless otherwise expressly directed by law, &c."

After a very careful examination of all the general and special laws bearing upon this subject, by the local counsel employed in the case, an opinion was given, the closing part of which is in the following words: "I believe that it is plain, that if the Texas and Pacific Railway Company shall, by March 1st, 1877, complete forty miles of the Trans-Continental branch, with a like amount of forty miles each year, until it makes the junction at Fort Worth, there will be no default under the provisions of the act of March 15, 1875, and the company will be entitled to the benefits of its provisions.

"In conclusion suffice it to say, from a review of all the legislation on the subject, I am clearly of the opinion, that by failure to comply with the seventh proviso of the act of March 15, 1875, the Texas and Pacific Railway Company has neither forfeited its charter rights, its land grant, its land reservation, nor its right under the ordinance of November 20, 1875, to apply to the legislature for further relief of time, should it be required; and, that if the legislature should see fit to do so, it is fully authorized to grant this company relief in a further extension."

The company does not however require any extension, and none has been asked for, from the State.

CONGRESSIONAL AID.

There is LOW pending in Washington before Congress, a bill to aid in the construction of your road through to the Pacific ocean, in the form of a Government guarantee of interest—not principal—at the rate of five per cent per annum, upon a limited amount, not exceeding an average of $35,000 per mile, of the first mortgage bonds of the company, and less, if the cash cost of the work shall be less.

If this aid shall be granted, it will secure the completion of your line through to the Pacific ocean within four years, at a capitalized cost about

one-third of the capitalized cost of the Union and Central Pacific roads.

There can be no question that your road will earn the interest—$1,750 per mile—on $35,000 per mile of first mortgage five per cent. bonds, the interest upon which, not the principal, it is desired the Government shall guarantee; as 333 miles of line constructed and in operation during the past year, earned an average of a little more than $2,000 per mile net, while the Central and Union Pacific roads, passing through a naturally less productive agricultural and mineral country, averaged $6,316 per mile net, last year, which is the interest upon more than $100,000 cost per mile of road. These figures certainly show, that there can be no loss to the Government, in the proposed guarantee of interest.

The Government action asked for, is urged in the interests of cheap transportation, as the only means by which two thousand miles of trunk line of railway, through a very rich agricultural and mineral country, that will quickly be developed by it, and by lateral lines, on completion of this road, can be forever secured for the use and benefit of the Government and the public, at the lowest possible cash cost of construction, with money obtained at lowest rate of interest. Such line to be forever open to Government and to the people, and to all connecting roads, upon an equality as to its use, at rates that can at all times be fixed and controlled by Congress, limited only to the protection of actual cash capital invested.

The principal opposition to this measure, comes from the Railroad Companies of the Pacific Coast.

It is perhaps not altogether unnatural, that this proposition for securing another trans-continental line of railway at such cheap cost—about one-third the cost of the present monopoly—should be opposed by the combination of Pacific roads, that have, in the past, availed themselves of the bounty of the Government to the extent of $64,623,512 of direct aid in the form of Government bonds issued to aid in their construction; and $23,289,921 additional that has been paid by the Government in the form of interest—not refunded by the companies; besides $3,877,000 yearly that the Government must continue to pay for thirty years, for the benefit of those corporations; all this enormous money subsidy being additional to 30,931,766 acres of land granted under the acts of 1862 and 1864, to these corporations. Such liberal action, however, on the part of the United States, will hardly be held to justify the comparatively few individual owners of these Pacific railroad properties, in so bitterly opposing, in the interest of their monopoly, the construction of another trans-continental road, six hundred miles south of the present Central and Union Pacific line, to connect the waters of the Mississippi river with the Pacific ocean, except on the terms they are asking, viz.: that they shall be permitted to own and control the California end of the line, including terminal facilities on the Pacific coast, which would of course destroy the usefulness of the road, as an independent competing trans-continental line, that should be forever held as an open highway, in the interest of the Government and the public who will so largely use it.

The bill in aid of the Texas and Pacific Railway Company is now before committees of the House and of the Senate, and has been favorably considered, both in committee, and by individual members who have taken the time to investigate the subject; and it will, it is hoped, be favorably reported, and passed by Congress at its next session.

The attention of the stockholders is invited to the following tables and statistics, showing the earnings and expenditures, the character of the business, and in detail the operations of the company during the year just closed.

The number of miles of road in operation at the commencement of the last fiscal year was 324; and at its close, 333—an average of 325 miles, against an average in 1874-'75 of 320.08 miles.

The company have 28 locomotives, 7 first class and 8 second class passenger, 1 directors', 3 passenger and baggage, 7 baggage, mail and express, 203 box, 82 stock, 10 cabooses, 209 flat, 2 wrecking, 1 pile driving and 5 boarding cars.

Mileage of locomotives: passenger trains, 213,993; freight trains, 591,987; work trains, 91,395; switch trains, 65,071; mixed trains, 47,208—total 1,009,654. Miles run to cord of wood, 22.21; to pint of oil, 13.75. Cost of working locomotives, including repairs, fuel, oil and waste, etc., 22 cents per mile run.

Coupon passengers carried, 39,490; do. carried one mile, 5,563,198. Local passengers carried 112,590; do. carried one mile, 4,546,826. Total passengers carried, 152,080; do. carried one mile, 10,112,024. Average miles each passenger was carried: coupon, 140.87; local, 40.37—total 66.47 This shows an increase, compared with the previous year, of 23,045 in the number of passengers carried; 2,651,574 in the number carried one mile; and 8.67 miles in the average distance traveled by each passenger.

Local freight in tons, 180,954; number of tons carried one mile, 19,778,006. Through freight in tons, 73,334; number of tons carried one mile, 8,228 756. Total freight in tons, 254,288; total tons carried one mile, 28,006,762. Average haul of local freight, 109.29 miles; do. through freight, 112.21 miles—total, 110.10 miles. This shows an increase in tons of freight carried of 115,692; in tons carried one mile of 13,789,528; and in average distance each ton was hauled of 7.87 miles.

At the close of the fiscal year, ending May 31, 1876, the following was the showing of

INCOME ACCOUNT.

Balance, May 31, 1875	$504,989 06
Less taxes for 1874	50,582 94
	$454,406 12
Transportation receipts for the year	1,564,624 98
	$2,019,031 10
Operating expenses for the year	891,882 02
Balance to credit of income	$1,127,149 08
Against which there is charged:	
Interest on funded and floating debt	$614,150 37
Legal expenses	35,029 70
General office expenses	41,004 94
Insurance	8,690 07
Premium on gold and exchange	26,610 87
Taxes	63,139 96
Surplus	338,523 17
Total, as above	$1,127,149 08

The general office of the company is at No. 275 South Fourth Street, Philadelphia. The officers are:

President.—THOMAS A. SCOTT.

Vice Presidents.—FRANK S. BOND, JOHN C. BROWN.

Directors—Thomas A. Scott, Pennsylvania; Frank S. Bond, Pennsylvania; John C. Brown, Tennessee; Matthew Baird, Pennsylvania; H. H. Houston, Pennsylvania; R. D. Barclay, Pennsylvania; Marshall O. Roberts, New York; W. M. Harrison, Texas; Henry G. Stebbins, New York; Henry G. Marquand, New York; W. T. Walters, Maryland; Alfred Gaither, Ohio; W. C. Hall, Kentucky; W. S. McManus, Pennsylvania; T. L. Nesmith, California.

Treasurer.—GEORGE D. KRUMBHAAR.

Secretary.—CHAS. E. SATTERLEE.

Transfer Agent.—E. B. HART, 50 Exchange Place, New York.

NEW BOOKS.

THE UNIVERSAL METRIC SYSTEM. By Alfred Colin. New York: D. Appleton & Co.

This little work gives a full description of the French system of measurements. The idea has often been expressed that the metric system should be adopted universally. Its use has been authorized by our National Government, and many scientists use it in preference to the common measures. On these accounts, an exposition like the present will be welcomed by many persons, even if they do not look upon the introduction of the metric system as a thing of the near future. Many weighty reasons urge a conservative course in this regard, chief being the great difficulty of overcoming the settled habits and customs of the people.

Quotation of American Securities.

We are glad to see that the Committee of the Stock Exchange proposes, from the beginning of next year, to adopt a change in the official par of Exchange which has been fixed for dealing in securities expressed in American currency. The present official par is 4s. 6d. per dollar, which is widely different from the real par, and the consequence is that to allow for this difference the current quotations in dollars are much below what they would be if the Exchange at which they were to be converted into Sterling approximated more closely to the real Exchange between the dollar and the pound. It is proposed, accordingly, to substitute 4s. for 4s. 6d., and by this change the difference will be hardly appreciable, so that the current quotations in future will represent somewhat closely the actual proportion of the price of the shares quoted to the price of issue or nominal par. As it is, American securities are at a constant apparent discount, even when they are at or above par, and the quotation is necessarily puzzling. Mr. Richardson, the Secretary of the American Treasury, whose appeal on this subject we noticed lately, will be pleased to see that his object will be so quickly accomplished—that the improved quotation of American securities on the London Stock Exchange will commence simultaneously with the amended quotation of the New York Exchange on London, directly representing the relation of the dollar to the £ Sterling. The persistence of the old official forms of quotation, which are now to be altered, is one of the most curious proofs of the conservatism of trade customs.—*London Economist*, 15th.

☞ On the 12th inst. the Secretary of the Treasury issued another call for $10,000,000 of 5-20s of 1865, May and November, upon which interest will cease on the 12th of December; that is to say, bonds, act of March 3, 1865, dated November 1, 1865, as follows: Coupon bonds, $50, No. 601 to No. 650 both inclusive; $100 No. 2501 to No. 8600, both inclusive; $500, No. 9701 to No. 15,000, both inclusive; $1000 No. 26,001 to No. 35,950, both inclusive. Total coupon, $7,000,000; registered bonds, $1,000, No. 651 to No. 1100, both inclusive; $5000, No. 1051 to No. 1400, both inclusive; $1000, No. 1801 to No. 3700, both inclusive; $5000, No. 1551 to No. 2300, both inclusive; $10,000, No. 2101 to No. 3100, both inclusive; total registered, $8,000,000.

☞ The Columbus and Toledo Railroad has been completed between Columbus and Delaware, Ohio. There is a gap of 17 miles to lay above Marion to make a continuous line of rail between Columbus and Fostoria.

☞ Over seven miles of track have been laid on the Dayton and Southwestern Railway out of Xenia.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterick* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, September 16, 1876.

Financial and Commercial Affairs.

The speculation on the stock exchange, in railroad shares, has been towards higher prices for the past week, except in the "coal stocks" and those having near relations to them. These last have been vigorously assailed by the daily press, many of whose publications concerning them have at best been but a part of the truth. The exhibit of its affairs which has been published by the Central Railroad of New Jersey, is pronounced by these oracles to be "unsatisfactory." The most vigorous assault has been made upon Delaware, Lackawanna and Western, and upon Delaware and Hudson Canal, which have been forced down to prices the lowest in many years. Wednesday's market, however, developed more steadiness. There was less disposition to put out options at prices below cash prices. There was a buying for investment, and a demand for delivery on contracts. The latter remark applies more directly to Central of New Jersey. The bonds of the "coal companies" have shared to some extent the depression in the shares, especially those of the Central of New Jersey. The shares of Western roads closed firm, owing to the prospect of an agreement to adopt more remunerative rates for passengers and freights; and their bonds have been salable at about steady rates.

Government bonds have been less depressed. The effect upon them of the 4½ per cent loan has ceased to be felt, although another call for ten millions of the six per cents to be redeemed, has been made. And from the same cause gold has been firmer, closing on Wednesday at 110. But Exchange has continued to decline, under the free export movement of the crops, and at one

time rates were a good deal unsettled. Later, however, the relative cheapness of bills brought in a good demand, and rates became more regular and steady.

The exports of merchandise show some falling off from last week, but are larger than last year, while the imports continue to exhibit a considerable falling off. Therefore the prospect of any early or important advance in exchange is not good.

The Bank Statement for last week was without important feature, and had no effect. Money continues to be loaned at extremely low rates.

The export demand for breadstuffs and provisions has been active, and prices have slightly advanced. Accounts of the progress of the cotton crop have been less favorable, but the new crop is coming forward very freely, and this exerts a depressing influence upon prices. General trade is but moderate. The excitement of the political campaign begins to be felt in business circles.

There are some indications of a revival of the iron trade of Pennsylvania. Stimulated by the recent decline in coal, holders look forward to the early future with a good deal of confidence. This is very natural, for prices are now but little more than half those current three years ago. Cheap money and low cost of construction will, it is believed, hardly fail to revive the work of building railroads.

A despatch from Washington says "the internal revenue receipts from all sources for the past three months show a decided increase over the corresponding months of last year, and indicates a general revival of business."

On Wednesday Government bonds closed firm at the following quotations: United States currency sixes, 126½@127; do. 1881, registered, 117¼@117⅞; do. coupon, 118⅜@119; do. 1865, registered, 112¾@113; do. coupon, 112¾@113; do. new, registered, 113⅜@113¾; do. coupon, 113⅜@113¾; do. 1867, registered, 116¾@116⅞; do. coupon, 116¾@116⅞; do. 1868, registered, 118½@118¾; do. coupon, 118½@118¾; do. ten-forties, registered, 115⅜@115½; do. coupon, 115¾@116; do., fives, 1881, registered, 115¼@115⅜; do., coupon, 115¼@115⅜.

CHICAGO, MILWAUKEE AND ST. PAUL RAILWAY CO., NEW YORK, Sept. 5, 1876.

NOTICE IS HEREBY GIVEN THAT A DIVIDEND of Three Dollars and Fifty Cents per share has been declared on the preferred stock of the Chicago, Milwaukee and St. Paul Railway Company, payable at the office of the company, No. 68 William st., on the 5th day of October next, and that the transfer-books will be closed on the 20th day of September and reopened on the 10th day of October next.

JULIUS WADSWORTH,
Vice President.

☞ A 100 Page Book, containing desirable information regarding new roofs and instructions as to the best methods of repairing and preserving old shingle or other roofs, together with useful hints on house painting, will be sent *free* of

charge to our readers. Write to the N. Y. Slate Roofing Co., Limited, 8 Cedar St., N. Y., ask for it and *mention this paper.*

Illinois Central Railroad.

During the month of August, 1876, 1,040 acres of land were sold for $7,212. The Cash collected on Land contracts during the same time was $8,676 94. The Traffic on the Main Line in Illinois was $491,651 75, against $469,299 19 in August, 1875. The Traffic of the Iowa Lines, (leased at 35 per cent of gross receipts), was $103,448 53, against $144,147 15 in August, 1875.

☞ The Emma mine was sold at Salt Lake, Utah, on the 9th inst. by the United States Marshal to satisfy a judgment obtained in the Third District Court by the New York Loan and Indemnity Company and T. W. Park against the Emma Silver Mining Company, limited. It was purchased by Charles G. Lincoln for $144,194 24. After the time allowed for redemption has elapsed, work will probably be resumed by T. W. Park, the purchare by Mr. Lincoln being on behalf of that gentleman.

☞ Articles of incorporation of the Prismoidal Railway Patent Company, of the city and county of San Francisco, were filed in the office of the Secretary of State of California on the 22d ult. Object: to sell and dispose of licenses to build, construct, use and operate railways on the one rail railway system. Directors: J. B. Crawford, E. B. Dorsey, Joseph H. Kohn, M. J. McDonald and H. H. Hubbard.

☞ The Atlantic and Pacific Railroad was sold at auction at St. Louis on the 8th inst., and purchased by Wm. F. Buckley at $450,000 for the road and $50,000 for the land grant. It is stated by the St. Louis Globe that the cost of the road to the purchaser, after paying off incumbrances, etc., will be about $8,000,000. The lands belonging to the company, it says, amount to one million of acres.

☞ The Philadelphia, Newtown and New York Railroad is advertised to be sold at public sale by the trustee of the first mortgage, at the Merchants Exchange, in Philadelphia, on the 4th of October next. It is completed and now operated from Philadelphia to Fox Chase, and is partially graded and bridged from there to Newtown, Bucks county.

☞ At a meeting of the directors of the Central Railroad of New Jersey held in this city on the 8th inst., the resignations of Charles A. Sherman and John Leisenring as members of the Board were accepted, and Edward C. Knight and Henry Lewis, of Philadelphia, were elected to fill the vacancies.

☞ The Philadelphia Ledger says that "if the present reduced prices of coal should have the effect of stimulating the iron trade, the coal trade, it will be found, will pass through the current year more prosperously than some have feared as the consequence of the breaking of the coal combination."

☞ Track laying on the Ohio Central Railroad was commenced at Bremen on the 2d inst. The iron is from the Cambria Iron Works of Johnstown, Penn., and is of superior quality.

Atchison, Topeka and Santa Fe Railroad.

The following is the statement of the business of the Atchison, Topeka and Santa Fe Railroad for the seven months ending July 31, 1875 and 1876:

	1876.	1875.
Freight earnings.....	$809,317 13	$488,636 39
Passenger earnings...	388,763 26	162,551 43
Mail earnings.....	22,160 39	21,935 27
Express earnings.....	19,241 25	10,920 00
Miscellaneous earnings	5,171 55	5,084 36
Total earnings...	$1,244,653 58	$689,127 45
Operating expenses...	640,237 86	329,287 02
Net earnings.....	$604,415 72	$359,840 43
Per cent operating expenses to earnings..	51.44	47.78
No. of miles operated, average...	687	508

Central Railroad of New Jersey.

OFFICE OF THE CENTRAL RAILROAD COMPANY OF NEW JERSEY, Sept. 8th, 1876.

To the Stockholders:

The persistent misrepresentations and sensational rumors which have been so busily circulated concerning the condition of this company, attended by a rapid decline in the market price of its stock and securities, call for an official statement of its affairs in all their details, coupled with a definite plan, to enable its stockholders to relieve their property from all possible financial embarrassment. The following statements have, therefore, been prepared.

The following is a statement of the assets of the company, taken from the books, and given in round numbers:

Railroad, 283 miles, single track.....	$13,700,000
New York stations (up town and down town)	370,000
Jersey City station..	1,316,000
Port Johnston coal station,..	873,000
Elizabethport station..	450,000
Station-houses, shops, etc..	815,000

American Dock & Improvement Co...	400,000
Sundry assets..	504,000
Cash..	173,000
	$48,630,000

To represent these assets the ledger shows:

Capital stock..	$20,600,000
Mortgage bonds due 1890...	5,000,000
Convertible bonds..	4,400,000
Consolidated mortgage bonds.....	14,150,000
Newark Branch bonds..	600,000
Lehigh Coal and Navigation Co. loan, due 1897	2,310,000
Railroad Car Trust, of Philadelphia..	263,000
Interest on bonds accrued, not yet due	366,000
Accounts payable..	941,000
	$48,630,000

The bonds issued by the Central Railroad Co., it will be seen, amount to $25,000,000; the bonds of other companies assumed by them amounting to $2,573,000. They also pay the interest on the American Dock and Improvement Co. bonds, $3,000,000. They have also guaranteed the payment of the $15,000,000 Consolidated mortgage loan of the Lehigh and Wilkesbarre Coal Co., $5,000,000 of which bonds are owned by the Central Co.

The annual interest on bonds of the Central Railroad Company is.. ... .$1,750,000	
Interest on bonds assumed..	180,110
Interest on American Dock bonds.....	210,000

In the annual reports the amounts charged to interest account are reduced by the amounts received for interest, and only the balance, after such deductions, is shown.

The following is a statement of the receipts, expenses and net earnings of the company for 1874, 1875, and 8 months of 1876; the last being partly estimated. It will be remembered that 1875 was the year of the great coal strike, which reduced the receipts very materially. The present year had been confidently expected to be a season of great activity, as was stated in the last annual report; instead of which it has been, until recently, one of unprecedented depression in every part of the community.

Receipts:	Year 1874.	Year 1875.	8 Mos. '76.
Passenger.	$1,513,983 30	$1,498,118 70	$1,104,000
Mdse.....	1,594,600 33	1,287,119 68	802,000
Coal	5,363,677 57	4,446,131 76	2,345,000
Miscel....	117,469 62	180,266 59	105,000
	$8,589,630 82	$7,411,636 73	$4,356,000
Operating exp	4,140,601 18	4,128,727 10	2,564,000
Net earnings....	$4,449,029 64	$3,282,909 63	$1,792,000

As compared with the first eight months of 1875, the receipts show an increase of $452,000, the expenses a decrease of $32,000, and the net earnings an increase of $484,000.

The passenger business is the largest the company has ever had. The merchandise freight has felt the general depression, but has been equal to expectation. The coal business has been very dull and depressed.

It is hoped that the business of the last four months of the year will be satisfactory, as the company has retained its full share of the coal trade, and is now selling its coal as fast as it can bring it to tide, though at low prices. When general business resumes its normal condition, there is every reason to believe that the traffic of the company will equal and exceed what it has heretofore been; with the advantage that the economies, forced and made feasible by hard times, will continue to operate in their favor after business has revived, the company having also the full benefit of the expenditures which have been made to increase and facilitate the transaction of its business.

During the past twelve months the Long Branch Railroad has been opened to the public, and there has been a gradual and most gratifying increase in its business. It extends also 17 miles south of Long Branch to Sea Girt, through a fine country which is being rapidly developed. It is evident that this road will take care of itself. It is leased at seven per cent by this company, and the interest paid on the stock held by the public (4,800 shares) is $33,600. There is no mortgage on the road.

The "new line" between Philadelphia and New York, of which this road between Bound Brook and New York is a part, is also in successful operation and growing in public favor.

The High Bridge and Longwood Valley Railroad has been recently built by this company mainly as an ore road, extending from High Bridge through German Valley. All the stock is held by this company. This road is also without morigage.

Many inquiries have been made about the terms of the lease of the Lehigh and Susquehanna Railroad and branches. The contract has been emi-

nently satisfactory to both companies, and is very valuable to this company. The owners of the road receive one third of the gross receipts, while the Central receives the remaining two-thirds for maintaining the road (other than construction) and for furnishing the equipment. The rent therefore varies with the amount of business done. The $2,310,000 bonds assumed are for cars and engines bought of that company.

The Lehigh Canal and Delaware Division Canal are operated at a fixed rate amounting to $382,-168 per annum, and are so operated in order to prevent the complications which before arose. This year, so far, there has been a loss of $117,000 This is not likely to occur in the future.

The South Branch Railroad is a valuable spur running from Somerville to Flemington, leased at six per cent. Annual rental $26,298.

The Newark and New York Railroad is a portion of the Central, and included in its cost. Its business is included in the general return.

The Newark and Elizabeth Branch is also a portion of the Central, and is included as above. The road between Elizabeth and Perth Amboy terminating at the Raritan River Bridge, is also included as above.

The equipment of the road and branches is large and complete, and in excellent condition, It has always been the policy of the company to keep the equipment in advance of the requirements of business. In the busy season of last year the extra coal cars that had been provided fully paid for themselves, by enabling the company to bring rapidly to tide the large amount of coal moved in a few months, and which would have been otherwise lost to the company.

Under the Charter of the American Dock and Improvement Co., the stock of which is entirely owned by the Central, the lands and lands under water south of Jersey City are held. They comprise the lands surrounding the North Basin, between Jersey City and the Station Grounds of the company, and also the lands and lands under water lying south of the Station Grounds and extending to Cavan Point. The total area belonging to the Dock Co., is 1,000 acres, and the water front belonging to the two companies is about two miles and a half in extent. The company has issued bonds to the amount of $3,000,000, guaranteed by the Central, and entitled to the security of any mortgage given on the property. The capital stock is now $3,000,000, as $1,500,000 of advances for improvements have been recently capitalized. There is a balance of $400,000 due the Central on open account. There is no other indebtedness. The amount expended by the Central upon this property, including wharves, bulk heads, filling, &c., will probably amount to $6,-000,000. It is difficult to estimate the value of the property, but it is very great; and it is the only unoccupied water front near Jersey City. Though much of the property may remain unimproved for some time, its value in the future is assured.

All the coal interests of the Central Railroad Co. are united in the Lehigh and Wilkesbarre Coal Co., of which they hold a controlling interest. The coal properties of the Lehigh Coal and Navigation Co. also passed entirely, by purchase or perpetual lease, into the possession of the Wilkesbarre Co., which became thereby one the largest coal owners and producers in the anthracite region.

The lands united as above in the hands of the Lehigh and Wilkesbarre Coal Co., form perhaps the finest body of coal lands under one control in the anthracite region. They have been carefully selected with a view to compactness, and lie together in solid bodies, requiring the least amount of lateral roads and the minimum of transportation to a market. Care has been taken to select first class properties for purchase in preference to lower priced lands with a smaller body of coal to the acre, or of inferior grades. In variety of qualities they are also unrivalled, varying from the free burning anthracite of the Wyoming Valley, to the dense coal of the Summit mines of the Lehigh Co., which has no rival in its advantages for blast furnaces, &c., where intense heat is required.

The properties are well opened and equipped. At the Summit mines of the Lehigh Co., there was a necessity for additional openings and breakers to supply the increasing demand for that coal, which improvements have been completed.

The following is a statement of the coal properties of this Company :

	Coal lands. Acres.	Total area. Acres.
Wilkesbarre lands, owned..	3,875	6,427
Newport and Hanover lands, owned	6,260	7,433
Plymouth lands, owned	1,210	1,410
Wilkesbarre lands, leased..	1,545	1,945
Plymouth lands, leased	1,030	1,030
Honey Brook lands, owned.	3,925	12,000
Lehigh & Greenwood lands, leased	6,925	9,000
Timber lands, owned		8,000
Total	24,770	45,975

There are on these properties 37 slopes and 13 shafts, making 50 openings in all which supply 29 breakers. The present capacity of production is 4,000,000 tons, which can be augmented largely whenever the market demands.

The Lehigh and Wilkesbarre Coal Co. is the main source from which this company derives its supplies of coal, and consequently it is an indispensible auxiliary. Much coal is derived from other sources in ordinary times, but this will always continue the main supply, as it is illustrated by the fact that for the last six months of the last year the railroad company received for freight from the Wilkesbarre Co. $3,600,000.

The Central own two thirds of the stock of this company, besides $5,000,000 of its bonds, and controls its operations, but it is worked as an entirely independent company, with a separate organization, and the Central is only responsible for such liabilities as it assumes.

The property of the company, as stated above, is represented by a cost of	$22,437,028 27
Personal property, boats, barges, live stock, railroad equipment, &c	1,759,503 90
Materials	169,449 79
Bonds and stocks	171,225 00
Coal on hand	1,019,448 03
Bills and accounts receivable	1,686,814 10
Royalties on coal paid in advance..	1,180,060 44
Maintaining mines during strike, extinguishing fire in mine, and other losses	1,253,971 58
Cash	92,618 30
	$29,770,119 41

This is represented by :

Capital Stock issued	$8,700,000 00
Sterling Loan	1,680,000 00
Consolidated Mortgage Loan	9,906,000 00
Bonds and Mortgages	1,034,109 66
Lehigh Coal & Nav. Co. Gold Loan (assumed)	500,000 00
Lehigh Coal and Nav. Co. Conv. Gold Loan (assumed)	781,000 00
Bonds of old companies	564,000 00
Bills and accounts payable	6,605,009 75
	$29,770,119 41

The item of $1,253 970 58 being the losses in business of the L. & W. Coal Co., during the last three years, has in a great degree been occasioned by the necessity the company was under of keeping the miners ready to resume work at the termination of the strike that continued for six months, and also the expenditure of $400,000 in the extinguishment of a fire in the mines.

The Wilkesbarre Co. have wharves, coal pockets, and dumping grounds, at several important places in the East, and from these places their coal is distributed through eastern markets. Some of these are owned in fee, while others are leased. The cost, when owned, is included in the exhibit already made.

The indebtedness of the Wilkesbarre Co., it will be observed, amounts to $6,615,009 75. Deducting from this the bills and accounts receivable, $1,686,814 10, leaves $4,928,195 65. The Central is liable as indorser for about $2,000,000 of this amount, and has also loaned large amounts of its Lehigh and Wilkesbarre bonds, to be used as collateral for other portions of it.

In order to afford relief from this indebtedness the Central Railroad Co. have made a mortgage for $5,000,000, covering their entire property, subject to the lien of the existing mortgages, amounting to $25 000,000, and further to secure the said $5,000,000 have hypothecated $1,500-000 of the stock of the Long Branch Railroad Comapany; $800,000 of the stock of the High Bridge R. R. Co.; $200,000 of the stock of the Longwood Valley R. R. Co.; (on these roads there are no incumbrances, and stock has only been issued to represent the money actually paid in the construction of the roads;) and as further security have hypothecated $3,000,000 of the stock of the American Dock and Improvement Co.; which property, it is estimated, has cost the Central R. R. Co. $6,000,000, and is subject to a lien of $3,000,000; also $6,600,000 of the stock of the Lehigh and Wilkesbarre Coal Co., subject to the liens hereinafter stated; as security that the value of the said stock will not be impaired by the creation of indebtedness or by liens being placed on the property, the stock will be delivered to the trustees named in the mortgage, simultaneously with the mortgage; and as a still further security for the said loan the mortgage covers seven ferry boats, subject to the lien of the first mortgage, which boats are estimated worth in the aggregate $500,000. The bonds representing this loan of $5,000,000 the company propose to use in relief of its present and future requirements.

The company own an exceedingly valuable property, fully equipped, and the stockholders will remember that the career of the company has been an eminently prosperous one; that there has been few years in which regular dividends have not been earned and made, generally at the rate of 10 per cent per annum. A suspension of dividends now must be accepted as one of the contingencies of business.

The stockholders will form their own judgment, before they sacrifice their property, as to the rapidity with which a company will recuperate which suspends ten per cent dividends, adopts a system of rigid economy, omits expenditures for improvements, which it can omit by reason of its admirable condition, and which has a route upon which the business more than doubles every decade.

By order,

JOHN TAYLOR JOHNSTON.
President.

☞ At the annual meeting of the stockholders of the Connecticut and Passumpsic Rivers Railroad, held at Newport, Vt., on the 6th inst., the old Board of Directors was unanimously re-elected. The report shows an increase of nearly seventeen thousand dollars in the net earnings of the road or the past year.

☞ The Boston and Albany road recently took off a set of steel car wheels that had run 523,000 miles—a greater distance than was ever run by any car wheels before in this or any other country.

☞ The treasure shipments from San Francisco in August were $5,309,815 81. Of this amount $4,275,550 61 was to New York by rail. The total amount shipped this year is $32,112,090 03.

☞ Ground was broken at Billerica, Mass., on the 6th inst. for a narrow gauge railway between that town and Bedford.

Specie and bullion.....	3,966,661	1,871,127
Total exports.....	$24,221,010	$26,665,688
Do. exclusive of specie.	20,254,349	24,594,561

The exports from New York to foreign ports for eight months from January 1, were:

	1875.	1876.
Domestic produce.....	$160,586,206	$167,096,684
Foreign free goods.....	1,501,796	2,277,864
Do. dutiable	4,130,384	4,451,903
Specie and bullion.....	60,290,300	38,701,247
Total exports	$226,508,686	$212,527,698
Do. exclusive of specie.	166,218,386	173,826,451

The Coal Trade.

The coal tonnage for the week ending the 2d instant, as reported by all the companies, amounted to 285,501 tons, against 590,276 tons in corresponding week last year, a decrease of 304,775 tons. The total amount of anthracite mined for the year is 10,685,145 tons, against 12,327,467 for same period last year, a decrease of 1,642,292 tons. The quantity of bituminous coal sent to market for the week was 79,940 tons, against 81,578 tons for corresponding week last year, a decrease of 1,638 tons. The whole bituminous tonnage from the beginning of the coal year is 2,343 479 tons, against 2,454,542 tons in corresponding time last year, a decrease of 111,063 tons. The total tonnage of all kinds of coal for the week is 365,-441 tons, against 671,854 to corresponding date last year, a decrease of 306,413 tons, and the total tonnage for the coal year is 13,028,654 tons, against 14,782,009 tons to same date last year, a decrease of 1,553,355 tons. The quantity of coal and coke carried over the Pennsylvania Railroad during the last week was 94,805 tons, of which 79,575 tons were coal and 15,230 tons coke. The total carried this year is 2,914,830 tons, of which 2,314,182 were coal and 490,705 coke. This total embraces all the coal carried over the road, east and west. The total of coal received from the Lehigh Valley Railroad at Perth Amboy for the week ending on the 2d instant was 8,918 tons, the amount shipped thence amounting to 9,734 tons, leaving 67,166 tons on hand.—*Phila. Ledger, Sept.* 11.

The exports of produce from this port for the week ending Sept. 13th were $4,876,524, against $3,563,349 for the corresponding week in 1875 and $4,594,631 in 1874. The total exports of produce from the port since January 1, this year, were $185,544,953, against $176,722,155 for the corresponding period in 1875 and $208 326,021 in 1874.

☞ Work on the Trenton branch of the Delaware and Bound Brook Railroad is progressing rapidly. Workmen are engaged in grading between Willow and Warren sts., Trenton, the Common Council having granted permission to the company to lay their tracks at grade over those streets.

☞ At a meeting of the grantees of the Peterboro' and Hillsboro' Railroad, held at Hillsboro', N. H., on the 4th inst., Onslow Stearns, James A. Rumrell, Charles Hayward, John C. Campbell, Amos Whittemore, Jonas Livingstone, and Morris Christie were chosen Directors.

☞ Articles of incorporation of the Iowa Southern and Missouri Northern Railroad were filed at Davenport, Iowa, on the 29th of August. The incorporators are: R. R. Cable of Rock Island, and E. E. Cook and others of Davenport.

MACHINERY.

ALLIS, BULLARD & CO., LIMITED, RAILWAY SUPPLIES, MACHINERY AND METALS, 14 Dey Street, New York, have in store a large and carefully selected stock of machinists' tools and other machinery which we are prepared to sell low for cash. Parties desiring good machinery that has been carefully used will find it to their advantage, to call on us. Tools and machinery bought.

BOGARDUS' PATENT UNIVERSAL ECCENTRIC MILLS—For grinding Bones, Ores, Sand, Old Crucibles, Fire Clay, Guanos, Oil Cake, Feed, Corn, Corn and Cob, Tobacco, Snuff, Sugar, Salts, Roots, Spices, Coffee, Cocoanut, Flaxseed, Asbestos, Mica, etc., and whatever cannot be ground by other mills Also for Paints, Printers' Inks, Paste Blacking, etc. JOHN W. THOMSON, successor to JAMES BOGARDUS, corner of White and Elm sts., New York. 6m24*

Railroads in the State of New York.

The building of railroads in the United States during the past twenty years has made such rapid progress that the little which has been done within that period in the limits of the great State of New York becomes conspicuous by contrast. Its vast and growing population, its wide and productive territory, its flourishing commerce and manufactures, have not received the aid which the vigorous and intelligent prosecution of a system of lateral railroads would afford. To be sure, the New York Central Railroad has doubled its tracks. That in itself is a great achievement, and causes that road to take rank among the most important in the whole world. But the chief advantage of all this has enured to the people of the West. The people of the State of New York, and their vast concerns, have derived but little benefit from it, and that incidentally. The Albany and Susquehanna Railroad, which has been constructed in the past few years, is also a work of much importance; but its principal influence is in the development of the coal interests of Pennsylvania. As in the case of the quadruple tracks of the New York Central Railroad, the advantage to the people of the State in which it lies is merely incidental; and more than this, it is very probable that but for the aid given this enterprise by the Delaware and Hudson Canal Company, its construction could not have been hoped for.

This is a very unsatisfactory aspect of affairs; and it is not relieved by the remembrance of the ill-fortune which overtook the Midland Railroad, as well as the roads which were projected for the purpose of connecting the City of New York with its more immediate neighborhood. These adversities threaten to impose a serious check upon local railroad building in this State, which will require effort to overcome.

It is not a little remarkable that Western New York, a section of the State which is deficient in many of the elements of great wealth—large cities, extensive commerce and flourishing manufactures, being almost wholly an agricultural region—is much better provided with means of transportation than the Eastern and Northern sections of the State; for besides a more complete system of railroads, it has the advantage of a great number of small lakes, as well as lateral canals. That part of the State west of the Hudson River for one hundred and fifty miles or more, is almost as destitute of means of communicating with the outer world, as it was forty years ago. What a marked contrast this affords with many—and indeed most—of the Western States! And what better time for inaugurating an effort to supply the deficiency? A railroad can now be built at half the cost of five years ago. We cannot expect to hold our position among the great States of the Union unless something be done; and in the interest of local development, which is now the chief need of the whole country, we call attention to the matter. The vast region to which we have referred was taxed to build public improvements, whose most conspicuous effect has been to divert population and wealth from it; and if it now receive aid, it will be nothing more than the return of what had already been freely given.

Advance in the Price of Petroleum.

A complete revolution in business affairs appears to have taken place within a very recent period in the oil producing territory of Western Pennsylvania. Instead of the depression, inactivity and failures which have been the order of the day for several years past, evidences of thrift, enterprise and prosperity are apparent on every hand. We have intelligence from the oil region that during the month of August the price of crude oil nearly doubled and some of the most fabulous fortunes were made in a single day. One day there occurred an appreciation of about seventy-five cents per barrel, and one individual operator realized a profit of some $800,000. The advance in the market and the consequent better feeling which prevails are primarily attributable to the greatly increased demand for consumption, together with not enough increase in the production to offset it. During the month of August there were completed in the whole oil district 268 wells, 41 of which were dry and worthless. The aggregate daily production of these was 3,366 barrels, or an average of about 12 barrels for each well completed. During the same month last year only 66 wells were completed, but the aggregate daily production of these was 1,445 barrels, or an average of about 22 barrels per well. Thus it will be seen that the wells completed this year are only about one-half as large producers as those of 1875. A large percentage of the 268 wells completed are located in the immediate vicinity of other wells, and will diminish their production accordingly.

During August there were 72 wells completed in Butler county, with an aggregate daily yield of 743 barrels; 77 in Clarion county, with a daily yield of 1,318 barrels; 37 in Venango, producing 367 barrels daily; 32 in Warren, producing 276 barrels, and 50 in McKean, with an aggregate daily production of 652 barrels. On the 1st day of September there were drilling in the entire oil region 361 wells, with rigs up in readiness to commence 383 others. Probably 243 of these will be completed during the present month, and it is safe to predict that their average production will not be above ten barrels each.

The daily production of the entire region at

present is 26,500 barrels—an increase of fully 1,300 as compared with July. This is a small increase to be derived from the enormous host of new wells. As exhibiting the increased demand for this illuminant it may be stated that the total shipments from the region of crude oil, or its equivalent in refined, during August, 1875, were 891,921 barrels, and in the corresponding month this year 1,174,209, showing an increase this year of 282,288 barrels. This shows that during August, this year, 37,878 barrels were daily taken from the region. Deducting from this the daily production, 26,500, we find 11,378 barrels have daily been taken from the reserve stock on hand. The total amount of stock in the region is 3,164,384 barrels. Were the shipments and production to continue the same it would require only about 280 days to remove every barrel of stock from the region. The growing consumption will require a huge amount during the rest of the year, and five-dollar oil now seems much nearer than did three dollar a little over a month ago. The present price is $3 90 at the wells, the market having advanced nearly $2 during the month. The price this time last year was 95 cents. Producers exhibit characteristic energy in prosecuting developments to the utmost, but even this can hardly prevent the upward march in price of the grand illuminant of the nineteenth century.

Western Union Telegraph Company.

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, September 18, 1876.

In the report presented by the committee at the last quarterly meeting of the board, held June 7, 1876, the net profits for the quarter ending June 30th (May business being partially and June wholly estimated) were stated at $860,488 57.

The official returns for the quarter (ending June 30th) showed the profits to be $871,330 96, or $10,842 39 in excess of the estimate.

The following revised statement, based upon complete returns, will show the condition of the company at the close of the quarter ended June 30, 1876:

Surplus April 1, 1876, as per last quarterly report		$102,402 82
Net profits, quarter ending June 30, 1876, inclusive of dividend on International Ocean Co.'s stock		871,330 96
		$973,733 78
From which appropriating:		
For dividend of 1½ per cent, paid July 15, 1876	$506,920 50	
For one quarter's interest on bonded debt, payable Sept. 1, and Nov. 1, 1876	116,576 90	
For one quarter's proportion of sinking fund, payable Feb. 1, April 1 and May 1, 1877	20,000 00	
		643,497 40
Leaves a balance of		$330,236 38
From which there has been paid:		
For Southern and Atlantic Telegraph Co.'s stock	$177,104 50	
For construction, purchase of sundry stock, patents, etc., January 1 to June 30	145,068 37	
		322,172 87
Deducting which, leaves a surplus July 1, 1876, of		$8,063 51

Official returns of the receipts, expenses and profits for the six months ended June 30th, compare with the corresponding period of last year as follows:

	Jan. to June, 1875.	Jan. to June, 1876.
Receipts	$4,621,662 82	$4,834,897 12
Expenses	3,141,546 69	3,174,775 41
Profits	$1,480,116 13	$1,660,121 71

The net profits for the current quarter ending September 30th instant, based upon official returns for July, nearly complete returns for August, and estimating the business for September, will be about		$796 592 65
Add surplus July 1st as above		8,063 51
Makes a total of		$804,656 16
From which deducting and setting aside:		
One quarter's interest on bonded debt	$115,000 00	
One quarter's proportion of Sinking funds	20,000 00	
	$135,000 00	
Less portion of the Sinking fund for the Currency bonds of 1900 set aside previously, now returned to the company by the Union Trust Co., trustees, because the holders of drawn bonds have not presented them for redemption	28,000 00	
		107,000 00
Leaves		$697,656 16
A dividend of 1¼ per cent on the capital stock outstanding requires	$506,835 00	
Additional Southern and Atlantic stock purchased during the quarter and agreed to be purchased	32,277 00	
		539,112 00
Deducting which will leave a surplus of		$158,544 16

In view of the preceding statements the committee have adopted the following:

Resolved, That a dividend of one and one half per cent from the net earnings of the three months ending September 30th be, and is hereby declared payable on the 16th day of October next, to stockholders of record at the close of business, on the 20th day of September, instant.

Resolved, That for the purpose of the annual meeting of stockholders, to be held on Wednesday, the 11th day of October next, and of the dividend hereinbefore declared, the stock books of the company be closed at three o'clock on the afternoon of the 20th September, instant, and be reopened on the morning of the 17th of October next.

Whereas, the Union Trust Company, trustees of the Sinking funds provided for the redemption of certain bonds of this company, have, pursuant to the terms of the Deed of Trust, returned to the treasurer of the company the sum of $28,000, remaining from the monies heretofore paid over to said Union Trust Company for account of the Sinking fund, said sum of $28,000 representing the par value of bonds which have been drawn for redemption, the holders of which have neglected and declined to surrender them, therefore,

Resolved: That the said sum of $28,000 be used for the purchase of the company's currency bonds of 1900, and that such bonds so purchased be canceled.

Respectfully submitted,
WILLIAM ORTON, President.

Northern Railway of Canada.

At the regular half yearly meeting of the Canadian shareholders of the Northern Railway Company, held at Toronto on the 16th ult., the directors presented their report for the half-year ending June 30, 1876, from which we learn that the gross traffic receipts from all sources amounted to $388,679 90 (£79,865 14s. 7d sterling), as against $354,994 12 (£72,943 19s. 11d. sterling), for the corresponding period of 1875, showing an increase of $33,685 78 (£6,821 14s. 8d. sterling,) or at the rate of 0.10 per cent.

The working expenses of the half year amounted to $232,349 82 (£47,743 2s. 3d. sterling), as against $234,272 25 (£48,138 2s. 8d. sterling), in 1875; being a decrease of $1,923 43 (£395 0s. 9d. sterling), and showing a rate of working expenses to income of 59.77 per cent. in 1876, against 65. 99 per cent. in 1875, or a decrease of 6.22 per cent. in favor of 1876.

The net revenue for the half-year (being the sum of the gross earnings less the aggregate working expenses) amounted to $156,330 08 (£32,122 12s. 4d. sterling), which, with the balance brought forward from 1875 ($1,100 30) gives $157,430 38 (£32,348 14s. 1d. sterling) to be carried to "Net Revenue Account, No. 2;" as against $127,876 06 (£26,275 18s. 0d. sterling) in the corresponding account of 1875, being an increase over 1875 of $29,554 32 (£6,072 16s. 1d. sterling), or at the rate of 8.12 per cent. in favor of 1876.

The interest upon all classes of the company's debentures, whether "Northern" or "Northern Extensions," has been duly paid. The sum of $21,973 64 (£4,515 2s. 7d. sterling) has been expended on new works, buildings, and equipments, etc., and after providing by profit and loss account for depreciation of stores, etc., the sum of $12,109 67 (£2,488 5s. 9d. sterling) has been carried forward to the credit of the next half year. The President in his report says:

So substantial an increase in the gross earnings would seem to indicate that even in a period of depression, and with all the disadvantages of a broken and isolated gauge, the traffic of this railway may be upheld and extended; and it is peculiarly satisfactory to find that this advance of income has not been confined to any one branch of the business, but has occurred in every separate class of local traffic, whether passenger, freight, storage, or other item of receipts. The growth of traffic on the Extension lines recently amalgamated has been greatly promoted by the opening of the final division to Gravenhurst, and shows that the working of the additional fourteen miles has been followed by an advance of earnings at the rate of 89.22 per cent. in comparison with the corresponding period of 1875, when this last was still incomplete. The value of these extensions to the parent line is further shown by the record that during the six months now reported, they have contributed traffic to the main line to the aggregate amount of $45,251 04.

The works necessary to the completion of the Gravenhurst division, which were suspended by the approach of last winter, have since been executed, only a very small amount of ballasting remaining to be finished during the current month. The wharves and station buildings at the Muskoka terminus have been completed, and the system is now in efficient and sole connection with the great Lake District of that Territory.

At the last general annual meeting of the company, held at Toronto on the 22d March, 1876, and made "special" for the purpose of giving effect to certain provisions of the company's Acts, the proprietors gave authority for the issue of "six per

cent. preference stock," to an ultimate amount of £400,000 sterling, at such times and in such sums as to the directors may seem fit. The ruling objects of that issue are (1) the raising of the necessary funds for liquidating the lien of the Dominion at a commuted rate of £100,000 sterling. (2) For providing the balance of capital necessary for acquiring the Extension lines under the Deed of Amalgamation, and (3) to meet the expenses of changing the gauge of the whole system. By the Act 38 Vic., Cap. 23, the period within which it was competent to the company to extinguish the lien was limited to the 1st July, 1876; and the directors would have complied with that provision, but that the time seemed to be inopportune for placing any issue of stock upon the English market on sufficiently favorable terms. They preferred, therefore, to appeal to the Government for an extension of the time, and thereupon an Act was passed at the last session of the Dominion Legislature, under which the privilege has been accorded to the company of making the necessary payment at any time before the 1st November next ensuing. Your directors have, however, to report the recent appointment, by the Government of the Dominion, of a commission to inquire into the expenditure of the company as affecting the value of the Government Lien. Your directors recommend that no obstruction be placed in the way of the commission, yet express their regret that anything that might even temporarily disturb the financial credit of the company, at home or abroad, should have occurred, especially at a moment when the company, acting under legislative provision, was already engaged in measures for the liquidation of the lien. The directors are of opinion that early and final steps should be taken for availing of that privilege with punctuality, and for relieving the undertaking of the incubus of a mortgage by which its freedom and development are greatly hindered, and they think that it would be unfortunate, and detrimental to all the interests connected with the undertaking, if any obstacle should interfere to prevent the removal of the lien by payment within the prescribed date. The credit of the railway, after eighteen years of unchecked progress, is now well established, and its resources are recognized as sufficient to meet the demand of the situation, and to secure on reasonable terms the capital required for the purposes contemplated; but it will be for the proprietors of the company to say whether these purposes are so clearly consistent with their interests, and with those of the communities we serve, as to command the unanimous action necessary to success.

From the London Spectator.

The New American Funding Loan.

The chief financial event of the present week has been the publication of the prospectus of the new American funding loan. At an issue-price fractionally over par this form of security will, beyond any doubt, find much favor with the British investing public, who are already largely interested in the Government bonds of the United States. But the new funding loan has more than a money market importance. It bears testimony to a remarkable advance in the financial policy of the Union, and with the maintenance of that policy the highest political interests are bound up. Only ten years ago the opinion of the shrewdest European financiers was that the United States, when the excitement of the war had spent itself, and the pressure of taxation only was felt, would be impatient under an unaccustomed burden, and would incline to rid themselves of it, or at least to lighten it at the expense of others on the first available opportunity. Never was there a miscalculation of motives more unjust, and at the same time more consistent with ordinary experience. The truth is that the European financier wholly misapprehended the view of the national debt that was taken by the mass of the American people. The American view was simply this—we almost quote the works in which an eminent American citizen once expressed his individual conviction:

"We are as impatient of this debt as your European peoples are of taxation. From our childhood we have been taught to believe that a heavy national debt is an oppression, a monarchical, a European institution, and we cannot bear to contemplate it as a permanent imposition upon American society. It is contrary to our political ideal, and we intend to pay it off, however hard the task may be. We feel it as a private gentleman feels a crushing mortgage on his estate."

In this spirit the Americans and their Government faced the difficulty of the debt ten years ago. Its magnitude and the rapidity with which it had been piled up might have appalled the most stout-hearted of financiers. In 1860, when the national balance-sheet was made up, the whole of the Federal liabilities were stated to be about £12,950,000; two years later, after fifteen months of war, the debt had been multiplied more than eight-fold, and stood at $514,000,000, or £103,000,000. The average annual addition to the debt during each of the four years following was close upon £120,000,000; and in 1866 the total burden was not less than $2,783,425,879, or nearly £580,000,000 sterling. The greater part of this immense debt bore interest at 6 per cent, and its actual pressure was therefore considerably heavier than that of our own indebtedness, though the nominal capital was about one-fourth less.

The Americans, however, were not going to submit, as we have said, to such a permanent imposition upon their national energies. During the first three years succeeding 1866, when the policy of paying off the six per cent bonds was initiated, the average yearly diminution of the burden was over £26,800,000, and in July, 1869, the aggregate debt was a little under £500,000,000. In the following six years the rate of reduction slackened, the average amount paid off yearly being from £5,000,000 to £6,000,000. Toward the close of last year the debt was computed to be something over four hundred and fifty million pounds, showing a gross reduction since 1866 of about one hundred and forty millions sterling, or £14,000,000 a year. And this reduction is seen to be a much more considerable effort than at first appears, when we look at the section of the debt with which only it was concerned. Of the whole of the American debt, as it is generally stated, the note-issues and other secondary obligations make up about one-quarter in nominal amount, and upon these neither the policy of repayment nor that of refunding has worked. The debt, of which the interest is payable in coin, is the mass at which the Washington Treasury has unflinchingly and doggedly quarried away, and with the most notable results. After 1869 the debt bearing interest was £520,000,000, and now about £335,000,000, of which over £180,000,000 are six per cents, and the rest five per cents. At the close of the war almost the whole of the interest-bearing debt consisted of six per cents, and it was not until 1870, when the character of the American Government for honesty had been established by its large repayments and its exactitude in meeting current obligations, that refunding began to be thought of as a practicable measure.

At that time, however, it seemed certain that the securities of the United States could be placed upon the European markets at or above par, and that, by a judicious financial policy, these bonds might be substituted, within a reasonable time, for such of the five-twenties as would not be paid off. Legislative power was given to the Treasury to issue £100,000,000 of five per cent bonds, payable at the pleasure of the United States Government after 1881; £60,000,000 of four and a half per cent bonds, payable after 1886, and £140,000,000 of four per cent bonds, payable after 1901. The first issue under this legislation is well known in all the European money-markets as the American funded loan, and its five per cent bonds have lately attained a very high price. Some ten months ago the Secretary of the Treasury disposed of the last portion of the authorized five per cent issue, calling in an equivalent amount of six per cent five-twenty bonds. The five per cent loans now established themselves as one of the soundest of investments, and the Washington Treasury Department was lately advised by the highest financial authorities in the United States that the issue of four and a half per cents might be profitably undertaken in the present state of the money market. Accordingly, arrangements were made with a "syndicate" of financial firms for placing the new loan in Europe, and subscriptions have been invited at 103½, the price at which the five per cent bonds were currently quoted in Europe less than a year ago. There is little doubt that the whole of this issue of bonds will be speedily taken up, and will replace about one third of the unredeemed five twenties. The credit of the Union will then be near the point at which the remainder of the "five-twenties" will be refunded in four per cent bonds. This is a magnificent result of persistence in a fixed purpose, for American finance has been wretchedly unscientific, and its only quality which deserved, as it has won, success, was the dogged perseverance with which people and Treasury alike insisted that a national debt should not be a permanent institution.

West Wisconsin Railroad.

The annual meeting of the stockholders of the West Wisconsin Railroad Company, held at Hudson, Wis., on the 6th inst., resulted in the reorganization of the company upon the following basis: Interest on first mortgage bonds up to July 1, 1876, is to be funded; the second mortgage bond to be canceled, and the floating debt to be paid in preferred stock. On this basis first mortgage bondholders surrendered the management of the road to the company. The following directors and officers were elected: H. H. Porter, J. H. Howe, P. Sawyer, W. H. Ferry, David Dows, R. P. Flower, H. Thompson, N. W. Kittson, J. Comstock, M. Hughitt, J. C. Spooner, E. W. Winter, Geo. Caplin, Henry Seibert and T. Dreire. President, H. H. Porter; Vice President, J. H. Howe; Treasurer, R. P. Flower; Secretary, H. H. Weakley.

Naugatuck Railroad.

We are pleased to learn from E. F. Bishop, Esq., President of the Naugatuck Railroad Company, that the entire bonded indebtedness of the company has been called in, paid off and duly canceled. The entire capital account now stands at 19,184 shares of stock of $100 each, or $1,918,400, issued; and 816 shares, or $81,600, unissued and remaining in the Treasury of the company—making in all stock of 20,000 shares, or $2,000,000. There is also cash on hand in the Treasury more than sufficient to meet all the obligations of the company now existing.

☞ A certificate of incorporation of the Cincinnati, Ohio River and Virginia Railroad Company, capital stock $1,000,000, was filed with the Secretary of State of Ohio on the 12th inst. by Joseph Kinney and others. The road is to run from Cincinnati to a point in Lawrence county, opposite Huntington, West Virginia, passing through the counties of Hamilton, Clermont, Brown, Adams, Scioto and Lawrence, in Ohio.

☞ The stock books of the Harrisburg and Potomac Railroad Company, which was incorporated a few weeks ago to enable it to connect with the Western Maryland Railroad near Smithsburg, will be opened for subscriptions at Hagerstown, Md., on the 9th of October next.

From the Baltimore Sun.

Baltimore and Ohio Railroad.

At a meeting of the board of directors of the Baltimore and Ohio Company, held at Camden Station, on the 13th instant, President Garrett stated that notwithstanding the extremely low rates at which a portion of the business of the company had been done the revenue for the month of August shows $1,259,143 13, against the revenue for the same month of the preceding year of $1,216,121 70, being an increase of $13,021 43. Whilst a portion of this business has been done at unremunerative rates, it has been deemed, under the general policy of the company, judicious to maintain the business of Baltimore in the competition that has been forced upon it, and thus to continue the employment of our people as fully as practicable. The company has effected all proper economies as was deemed for the interest of all so that it will have the satisfaction, he judged, from a careful examination of the accounts up to this time, of not only making the regular semi-annual dividend of five per cent., but of adding a large sum to the surplus fund at the close of the fiscal year.

These results are exceedingly interesting and important at this time, when this company is so much the object of sympathy on the part of parties in New York, who feel that it is being practically ruined by the competition brought about by the New York Central Railroad Company. It is remarkable in this, which is known as a "great railroad war," that up to this period not one word of correspondence or intercourse on the subject has taken place between the New York Central and the Baltimore and Ohio authorities. The New York Central Company decided to make very low rates, the theory being, as stated by the New York Press, that that company determined that the charges for freight, &c., shall be the same between New York and the Western centres of trade as between Baltimore and those cities, regardless of the great differences in the respective distances. Does it not seem that water can be as easily made to run up hill, by natural law, as that the laws of trade and of all experience can be thus ignored? If this is the proper principle for freight it must, of course, be equally correct with passengers Thus, if the rate for passengers from Cincinnati to New York should be $15, and the Baltimore and Ohio company should undertake to charge the same rate to Baltimore, what would be the consequence in a comparison with the New York Central road? The city of Cincinnati being three hundred miles further from New York by that route than from Baltimore by the Baltimore and Ohio road, every passenger for Baltimore would buy a New York ticket, and when he reached Baltimore he would sell his right to travel from Baltimore to New York for about the price of a ticket between Baltimore and New York—say for $5 or $6—and thus, instead of breaking up the business of Baltimore this premium would really be given to the traveler to stop at Baltimore and make his purchases there and shipments thence.

If that system is to prevail in the rates of transportation of freight, what will be its practical working? The New York Central and Hudson River Company states that it has a road with less grades and less curves, and that it has 222 miles of its 442 miles between New York and Buffalo with four tracks; but it overlooks the fact that on the Baltimore and Ohio line for three hundred miles coal literally crops out immediately on our roads, and thus this company has in the comparative economy of fuel alone a difference which more than compensates for the difference in grades and curves and the limited portion of extra tracks. The Baltimore and Ohio Company has also double tracks and third and fourth tracks where needed for facilitating its business, and terminal facilities and arrangements for shipping grain and every description of traffic much more economical and much superior to those of the New York Central Company. Unless, therefore, that company can carry freight between Albany and Buffalo for nothing for the 300 miles between these cities, is not its alleged position simply absurd? Statements have repeatedly appeared in a portion of the New York press in regard to the comparative gain of New York in the corn trade by the competition thus brought about. It is important to examine these results as affecting Baltimore. For the crop year ended 31st August the particulars are published of the shipment from Baltimore of 570 cargoes by steamships and sailing vessels to all parts of the world to which corn is exported from the United States, carrying an aggregate of 17,329,950 bushels, and the trade statistics of New York show that during the same period the whole of the corn shipped from New York was but 13,352,413 bushels. This is certainly marvelous, in view of the alleged New York enthusiasm about this so called "war."

It is claimed there has been a large gain in shipments to New York by the New York Central railroad, but what does this practically mean? Has the New York Central road thus aided the commerce of New York? Is its action not really an attack upon the trade of New York? Has it not, through its policy, lessened the aggregate commerce of New York? Is not its attack, when the case is analyzed, really upon the New York and Erie canal and not upon the Baltimore and Ohio and other roads? Has it not reduced its rates to such a point that the Baltimore and Ohio and Pennsylvania Companies are now not merely competing for that which was formerly railroad traffic, but for that which was canal traffic, and is not the result that Baltimore has received not only as much corn as New York has received by the New York Central road, but more than the New York and Erie canal and the New York Central railroad combined have brought to the city of New York?

It may be further observed that the New York Central Company has worked at extremely low and unremunerative rates to Boston as well as to New York. The statistics of the corn trade show, during the crop year, the export from Boston of 3,107,881 bushels, so that the export from these two cities, New York and Boston, whose trade has thus been fostered by the New York Central, aggregates 16,460,294 bushels, whilst that of Baltimore, having been 17,329,950, shows an excess of 869,656 bushels beyond the combined quantities of the shipments of corn from New York and Boston. Is not this startling when compared with the delusive statements which have appeared in New York? Has not the strength given by the economies of shipment and the geographical advantages of the city of Baltimore, and the strength of the Baltimore and Ohio railroad been strongly demonstrated by the state of things which they did not originate, and which they do not wish continued, of charging unremunerative rates for the transportation of corn from the West to the seaboard?

The fact is Baltimore has an impregnable position. It is 200 miles south of New York, and its lines, on its own parallel, reach into this corn growing region, and this corn must get to the parallel of New York before the New York Central road can obtain it for transportation. Our lines being thus located, have naturally attracted this corn, and thus our trade has been built up upon a system which injures other interests, but which can neither crush nor damage the business of Baltimore. This company has spared no pains to meet the present attitude of competing lines, by careful attention to every economy of detail and judicious management, and by protecting and promoting the trade of Baltimore. It has also continued the employment of as large forces as practicable. As the Baltimore and Ohio Company has invested thirty-four millions of its net earnings in its branch and connecting lines, and has maintained this as a surplus fund, not represented either by stocks or bonds, it is enabled readily, under even such competition, to pay its usual half-yearly dividends of five per cent. on its capital stock of $13,000,000, which is so small as to appear almost insignificant when compared with the grand and enormous figures of the New York Central and other great lines.

The conservative system so long pursued by this company, reversing and sharply contrasting with that of many other lines which have made large stock dividends, give it an exceptional strength to meet all emergencies that may arise. The strange feature in regard to the present reckless low rates is that the Baltimore and Ohio and other great lines are having pressed upon them much more grain and other traffic than they can promptly transport. It is unfortunate for the country, and especially for those connecting roads, that all the Eastern as well as the Western connections of the New York Central road, and of all the trunk lines, are made to suffer severe losses by the unremunerative rates which have been forced upon them by the New York Central and Hudson River railroads.

Whilst the Baltimore and Ohio Company will doubtless continue to pursue the course it has adopted in protecting its trade and interests, it recognizes that the entire railway system of the United States and the business of the whole country will be benefited when the weaker as well as the stronger roads will have it in their power to establish tariffs just to the public, reasonable, and which will afford proper net earnings to pay the interest on the immense capital invested in these necessary and most important works.

After the remarks of President Garrett the board expressed its entire satisfaction with the policy pursued and the results obtained, and unanimously adopted a resolution of approval, with instructions to maintain the policy heretofore acted upon.

The First Grand Link of the Canadian Pacific Railway.

The Canadian Pacific Railway, when built, will be found to consist of a series of important links, each with a certain completeness in itself. The most important of these, designed immediately to connect the waters of Lake Superior with those of Lake Winnepeg, is, to a large extent, now under contract. This link will commence at Thunder Bay, in the east, and terminate at a point in Manitoba, on the Red River, in the west. Its length will be four hundred and thirteen miles. Two hundred and twenty-seven miles of it are under contract, part at one end and part at the other. It is calculated that by the 1st of June next year the portion connecting Thunder Bay on Lake Superior with the Lake of a Thousand Lakes will be ready for operation. This latter lake is on the height of land separating the waters which flow eastward from those which run westward, and from it there is a long stretch of navigation by lake and river toward Manitoba. If this calculation prove correct, access to the Prairie Province across Canadian territory from the east will be easy next summer, and a considerable flow of immigration may be expected along the improved route. Thereafter the settlement and development of the North West will probably go on at a rapid rate, and the fertile belt will speedily become the home of hundreds of thousands of energetic settlers.

It is as gratifying as it is surprising that the tract of country lying between Lakes Superior and Winnepeg should be turning out so much more valuable in every way than was thought possible by well informed people a few years ago. At that time this region lying far north between the great lakes the one which sent its surplus waster to the ocean *via* the St. Lawrence, and the other poured its floods into the seat in Hudson's Bay, was generally regarded as a howling, desolate, irreclaimable, worthless wilderness, through which a railway could be built only at a cost that might well seem fabulously large. How different the real facts. There is in this tract, it is true, much soilless rock, wide barrens and swamps, a considerable extent of thin soil swept of its forests by fire, and countless lakes, large and little. But it also contains a considerable quantity of excellent land, lying along a route that ensures for its cultivated products a certain and remunerative

sale. Its rocks are wonderfully rich in minerals, and here and there within its boundaries are found valuable forests—the products of which will be in great demand along the banks of the Assiniboine and the Saskatchewan and some of its tributaries.

And then, there has actually been traced across it a railway route, much of which is comparatively easy, and none of which offers anything that can be considered, in an engineering point of view, an insuperable or even a very serious difficulty.

Also, it has now become apparent that this Thunder Bay-Red River link will be in some respects the most important of the whole line. During the season of navigation it will connect two great lake and river systems. From and to Thunder Bay steamers of large size will ply in ever increasing numbers; and, practically, that Bay will become an Ocean port, far as it lies from the salt sea. On the other hand, the Western end of this railway link, resting on the East Bank of the Red River, will be the starting point of a system of inland navigation by river and lake of possibly even thousands of miles in extent. Along those rivers and around those lakes lie millions upon millions of fertile acres, which will some day be clothed with the most bountiful harvests; and the surplus products of those lands will be borne eastward over the railway link referred to. Men now living well on in years may live long enough to witness wonderful developments in connection with that stretch of railway from one vast lake system to another.—*St. John News.*

From the Pittsburg (Penn.) Gazette.

A Rarely Beautiful Display.

Upon entering the Exposition Hall through the main doorway the stand which will perhaps first arrest attention, is that of Messrs. Paine, Ablett, & Co. It is located in the main isle, about one hundred feet from the entrance and directly in front of the large fountain. The firm have fitted up their space with rare taste, and they well merit the ecomiums universally passed upon their display. Upon a low platform which is enclosed by a rope railing and neatly carpeted, are ranged four barrels of oil representing some of the best brands which they manufacture. Resting on these barrels and forming a base floor, is a large, heavy French plate glass mirror; above resting on glass supports with intervening spaces of about a foot each, are two shelves of plain heavy glass. Upon the shelves and the mirror arranged in artistic order are specimens, in cut glass bottles, of over forty varieties of animal, vegetable and mineral oils, each being ticketed to show the visitor the brand. The display, especially when illuminated at night, is exceedingly brilliant, the reflection from the mirror below and the different colored oils, forming a picture of kaleidoscopic beauty.

Messrs. Paine, Ablett & Co. exhibit examples of all their manufactures, but that which will attract special attention are first the No. 1 Wool oil which is known in almost every state from Maine to California. This oil is used in more mills than any other wool oil in the country, and the demand is so great that the firm are now enlarging their works at Smith's Ferry, to enable them to keep pace with their orders. They have a branch store in Boston to supply the New England trade.

The second specialty is the Cylinder Diadem oil which is used on all the cylinders in the exposition. This is the oil for which the firm was awarded the silver medal last year. The firm also furnished for all the other machinery in the building their Crown Engine Oil—no other being in use. Their White Light Olena can also be seen among the specimens, and they are burning at night their Mineral Lard oil—a specialty with them which will stand a fire test of °300 and yet give as bright a light as any other oil. This oil is especially adapted for use on steamboats and in factories where safety and a brilliant light are desired. The collection also embraces some curiosities, such as a sample of Smith's Ferry oil, fifteen years old—probably the most venerable sample of oil in the country; also specimens of California crude and refined oils. In addition to the olaginous display the firm also exhibit their popular and much sought after brands of Paraffine wax and candles, which are sold in all parts of the country and are noted for their purity and strength.

Messrs. Paine, Ablett & Co. are among our leading oil manufactures, and enjoy a very large trade. Their manufactures are all No. 1, and they always treat patrons fairly, giving the best for the money and guaranteeing every article to be exactly as represented. Their office and warehouse is at Nos. 23 and 25 Seventh street, Pittsburgh, and those who need anything in their line will find their headquarters the best place at which to deal.

Imports and Exports of the United States.

The following is a comparative statement of the imports and exports of the United States for the fiscal years ending June 30, 1875 and 1876:

	1875.	1876.
IMPORTS.		
Total dutiable	$386,725,509	$320,379,277
Total free of duty	167,180,614	156,298,594
Total imports	$553,906,153	$476,677,871
Entered for immediate consumption	$393,871,697	$338,987,753
Entered for warehouse	152,562,872	128,567,978
Entered for immediate transportation to interior ports without appraisement	7,971,584	9,122,140
Brought in cars and other land vehicles	13,083,859	12,148,675
Brought in Am. vessels	157,872,716	143,389,696
Brought in foreign vessels	382,949,568	321,139,500
DOMESTIC EXPORTS.		
Shipped in cars and other land vehicles	$4,642,392	$4,390,825
Shipped in Am. vessels	145,063,449	160,582,954
Shipped in foreign vessels	493 388,926	480,002,627
Grand totals	$643,094,767	$644,956,406
Total amount of mdse. (mixed values)	$559,237,638	$594,917,715
Total amount of specie and bullion	83,857,129	50,038,691
Gold value of merchandise	499,284,100	525,582,247
FOREIGN EXPORTS.		
Total dutiable	$10,204,121	$10,776,215
Total free of duty	12,229,503	10,493,820
Total	$22,433,624	$21,270,035
From warehouse	$9,678,095	$10,211,633
Not from warehouse	12,755,529	11,058,402
Shipped in cars and other land vehicles	2,661,984	1,933,662
Shipped in American vessels	11,821,617	7,123,513
Shipped in foreign vessels	8,450,023	12,212,860

The total value of goods remaining in warehouse June 30, 1875, was $56,707,002; do. June 30, 1876, $48,128,605.

☞ The stockholders of the Pittsburg, Cincinnati and St. Louis Railway Company have ratified the contract providing among other things for extending a certain degree of aid to the Ohio Central Railway company. The contract provides for the use of portions of the track of roads now controlled by the Pittsburg, Cincinnati and St. Louis road, in the completion of the Ohio Central and for the mutual benefit of both roads in the end as to outlets for freights, etc.

Stimulus of Trade by the Exposition.

An increase of business, actual and prospective, consequent upon the display of articles at the Centennial Exposition is the subject of a letter of the Philadelphia correspondent of the Boston Journal. The writer says:

Philadelphia journals constantly give instances of improvement in trade here, due to the "great show," and their editors think that permanent relations such as have never existed before will be established between this and foreign countries before the close of November. The principal American exhibitors in Machinery Hall certainly have no occasion to be discontended with their sojourn here. A well known New England firm of Scale Manufacturers has secured a very large additional trade with South America, and is creating important relations with Australia as the result of the superb exhibit which they sent to Philadelphia. This same firm was represented at Vienna, and say that the channels of trade which are the outgrowth of their exhibit there are increasing daily. A prominent manufacturer of Locomotives in Dunkirk, N. Y., who is an exhibitor here, announces that he has received numerous orders from foreign countries since the Exhibition opened. Some of the Sewing Machine companies have had their business increased as much as one half by receiving foreign orders since the 10th of May. In the Hydraulic Department the exhibitors are also happy, because orders come to them from Europe, South America, and even Africa, for Pumps. Our Steam Fire Engines are also much in demand among foreign nations, and so are the Drilling Machines, which are such a magnificent feature of the display in Machinery Hall. With regard to Agricultural Implements I cannot speak so positively, but I believe that there have been several large foreign shipments, which may be ascribed directly to the Exhibition's influence.

Finances of Philadelphia.

The Annual Message of the Mayor was presented to the City Councils on the 18th inst. From this we learn that the receipts for the past year, including balance on hand, amounted to $15,774,325 33, and the expenditures were $13,446,451 73, leaving a balance of $2,327,873 60. The addition to the funded debt during the year was $253,559 30, making a total of $55,625,691 70; the floating debt is $8,691,432 47; guaranteed debt $5,399,400—making a total of $69,715,524 17. The available assets, consisting of investments in the sinking fund, cash on hand, and outstanding taxes, amount to $20,032,050 22, leaving indebtedness in excess of available assets of $49,684,473 95. The property owned by the city is estimated at $60,268,240 19, showing an excess over total debt of $10,583,766 24. The basis of taxation of city property for 1876 is $595,413,878, an increase of $20,129,410 over the assessments of 1875.

Direct Route to Fort Yuma.

It is now rumored that Colonel Thomas A. Scott intends to have a survey made, and establish, if possible, a direct route from San Diego to Fort Yuma. A former survey was through San Gorgonio Pass. But the Southern Pacific Railroad having been built through that pass, we suppose Colonel Scott does not relish the idea of running a road some 150 miles alongside of it. Of course, if it is practicable, there is every reason in favor of the Texas Pacific's seeking the shortest route to San Diego.—*Santa Monica (Cal.) Outlook.*

☞ The grading of the Oakland and Banta Railroad is progressing moderately, having passed the line of Alameda county, in which Oakland is situated, into Contra Costa county, in the direction of Banta, in San Joaquin County.

American Railroad Journal.

Saturday, September 23, 1876.

Financial and Commercial Affairs.

The speculation in railway securities on the Stock Exchange has been active but feverish; and a very unsettled feeling has prevailed respecting values, whether present or prospective. The coal stocks have been the object of assault from new quarters. The Delaware and Hudson Canal Company has published a statement of its affairs, which, so far from satisfying its assailants, is made authority for the assertion that the last dividend, and perhaps the one preceding it, were paid out of surplus, and not out of earnings. The same is asserted to be true of Delaware, Lackawanna and Western, and the passing of the next quarterly dividend is declared to be necessary. There was a considerable decline in these securities on Monday; but a steadier tone subsequently developed. The coal sale on Wednesday went off at steadier prices; and it was reported that the Central Railroad of New Jersey had secured the needed temporary financial aid. There has consequently been a very decided advance in the bonds of that company. The New York Central Railroad shares have also been the object of a sharp assault based on the precarious state of the Commodore's health, and the active competition and low rates of freight, and the price for the first time in many years fell below par. The Western Roads, though fluctuating, have varied but little; and, indeed, except Lake Shore and Michigan Southern, were comparatively quiet. The movement of crops opens rather slowly, but no doubt is entertained that it will be large in the aggregate. The close was almost uniformly buoyant, and especially so for Lake Shore and

Michigan Southern, Delaware, Lackawanna and Western, Central of New Jersey, New York Central, Michigan Central and Western Union Telegraph, in which a large business was done.

The bank statement for last week exhibited an increase of the reserve, and there is no increase in the rates for money. Foreign exchange has ruled steadier. The speculative prices at which many articles of export are held, the scarcity of ocean freight room and advancing rates of freight, have co-operated with the depression in exchange, to limit the amount of bills making, while the revival of trade has somewhat increased the demand for remittance.

Gold has been without important feature, and closes at 110⅛@110¼. Government bonds have ruled firm, although there have been considerable withdrawals from deposit with the U. S. Treasury Department of five and six per cents, the new 4½ per cents being put in their place.

Cotton has continued to decline, under free receipts at the ports, and rather better reports from the crop. A check has been given to the advance in flour and wheat, and the speculations in pork and lard have experienced a sharp reaction. Wool has continued active. The advance in petroleum is fairly supported, but without activity. There has been a large export movement in ingot copper at higher prices.

The exports of produce from this port for the week ending September 19th were $5,422,471, against $4,628,232 for the corresponding period in 1875 and $4,354,724 in 1874. The total exports of produce from this port since January 1, this year, were $190,967,424, against $181,842,887 for the corresponding period in 1875, and $212,680,745 in 1874.

The Delaware, Lackawanna and Western Railroad Company will sell by auction 100,000 tons of coal on Wednesday next, and the Delaware and Hudson Canal Company a like amount on the following day.

The Ohio and Mississippi Railroad Company announce that they will pay the coupons of the Sinking Fund and Second Mortgage bonds due on the 1st of October.

The Chicago, Rock Island and Pacific Railroad Company, at their meeting on Tuesday, resolved to call in for redemption, on the 1st of January next, $125,000 of their mortgage sinking fund bonds. Eight hundred thousand dollars of said bonds have been heretofore redeemed by the sinking fund, making a total, with this call, of $925,000 paid from the proceeds of land sales and interest on investment of the sinking fund.

In another column will be found an advertisement announcing that the American Mining Board will commence business on the 2d of October in the rooms recently occupied by Duncan, Sherman & Co., corner of Nassau and Pine streets.

On Wednesday Government bonds closed steady at the following quotations: United States currency sixes, 126¾@127; do. 1881, registered, 117¼@117⅜; do. coupon, 118½@118¾; do. 1865, registered, 112¾@113; do. coupon, 112⅞@113; do. new, registered, 113⅝@113⅞; do. coupon, 113⅝@113¾; do. 1867, registered, 116½@116¾; do. coupon, 116½@116¾; do. 1868, registered, 118½@119; do. coupon, 118½@119; do. ten-forties, registered, 114⅞@115⅛; do. coupon, 115⅝@115⅞; do., fives, 1881, registered, 115@115¼; do., coupon, 115@115¼; do. four and one-half, 111⅛@111¼.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

THE AMERICAN MINING BOARD will hold its first session for the calling of stocks on MONDAY, Oct. 2, at 11 o'clock. The list will embrace the more prominent San Francisco shares as well as the securities of all duly approved mining, petroleum, manufacturing, and quarrying companies. Applications for membership or for placing securities on the regular list may be made at the temporary offices in the Drexel Building.

Candidates for membership whose nominations shall be made prior to October first will, when duly elected, come in as proprietary members. Nominations received after that date will be for operating memberships only. WILLIAM WARD, President.

Railroad in Montana.

A railroad meeting was held at Benton, Montana, on the 14th inst., at which a number of resolutions were read and adopted. These set out that, as the people of Lewis and Clarke county propose to build a road from Helena to the head of navigation on the Missouri river, and as the lack of cheap and quick transportation for ores from the mineral region of Montana to the Eastern markets is the chief bar to the rapid and successful development of the mineral and agricultural resources of the Territory; and as the Benton people, in common with all parties interested, are desirous of adopting the best and most feasible plan to quicken and cheapen the transit of freights to and from the Territory; therefore a cheap line should be built from Helena to Fort Benton, and to that end the people pledge their influence and support.

Fort Benton is at the head of navigation on the Missouri river. The distance between Helena and Fort Benton is about 140 miles; and the estimated cost of constructing the road about $1,500,000. The Helena papers propose that the various counties on the line contribute a bonus of $700,000.

☞ A party of foreign capitalists with the officers of the Covington, Columbus and Black Hills Railroad went over the first 30 miles of the completed track to Ponca, Nebraska, on the 15th inst. The road is 3½ foot gauge, was projected and built to the present terminus since the 1st of March this year, and is the first link of the projected route by the Black Hills and National Park to Portland, Oregon. Arrangements have been made to complete 150 miles this year and reach the Black Hills in 1877.

☞ A dispatch dated Los Angeles, September 11th, says that Col. J. W. Crawford, Superintendent of the Los Angeles and Independence Railroad, will immediately take the field to make a reconnoissance of the most direct route for a road from San Diego to Fort Yuma.

☞ The Baltimore Stock Exchange, in the Rialto building, southeast corner of Second and Holliday streets, was formally opened for daily business on the 18th inst.

Atlantic, Mississippi and Ohio R. R.

In the United States Circuit Court at Richmond, Va., on the 18th inst., an order was entered instructing the Receivers of the Atlantic, Mississippi and Ohio Railroad to exercise their best judgment in relation to redeeming certain securities of the company, hypothecated as collaterals for loans advanced to the company prior to the appointment of Receivers, whenever they shall consider it to be for the interest of their trust, and not redeem in any case when they shall consider it not to be for the interest of their trust so to do; provided, however, that in the exercise of the authority conferred upon them, the Receivers shall not increase the debt or debts in question, or change the character thereof. The Receivers were also authorized in their discretion, in lieu of actually redeeming and taking up bonds so pledged, to arrange from time to time for the extension or continuance of the loans for which the same stand pledged, either with the parties to whom the bonds are now pledged or with any other party or parties.

The Cotton Crop.

The official report of the cotton crop of the United States for the year ending August 31, 1876, as telegraphed from New Orleans under date September 19th, is as follows: total crop 4,632,318 bales; receipts at shipping ports, 4,195,671; exports to Great Britain, 2,019,799; exports to France, 456,874; exports to Continent, 684,046; exports to channel ports, 71,534; overland movement direct to mills, 305,327; Southern consumption 133,637, including taken from ports, 2322; stock at delivery ports at the close of the year, 114,671; Sea Island crop, included in above, 14,530.

☞ A meeting of the Massachusetts directors of the Rhode Island and Massachusetts Railroad Company was held at Franklin on the 11th. The Rhode Island corporation, it is understood, have leased their portion of the road to contractors. The Massachusetts directors, at the meeting above stated, voted that an assessment of 10 per cent. of the subscriptions to the capital stock of their part of the road be made, payable on the 15th inst. This action is the preliminary step toward obtaining a charter, in accordance with the law of the State.

☞ The iron for the extension of the branch of the Green Bay and Minnesota Railroad, from Onalaska to La Crosse has all been landed at Green Bay. It is expected the track will be laid before the end of the month. Operations are being vigorously pushed.

☞ Tracklaying on the Columbus and Toledo Railroad is going on above Fostoria. The track where finished is being ballasted and put into shape for the running of trains. The grading along the whole line is about finished and ready for the rails.

☞ The Columbia and Port Deposit Railroad is now completed from Columbia to the mouth of Fishing creek, two miles above Peachbottom and half a mile below Fite's eddy.

The American Mining Board, by order of the Executive Committee, will hold its first session for the call of stocks on Monday, Oct. 2, at 11 a. m.

North Wisconsin Railroad.

We understand that a project is on foot to form a company to construct a railroad from the present terminus of the North Wisconsin Railroad to Rice Lake, in this county, by the nearest practicable route. The people of this section have come to the conclusion that nothing will be done by the present management of the North Wisconsin Railroad toward building any more of the road. The road is, certainly, of but little value as it now stands, but if it could by any means be built to Rice Lake, it would add largely to the value of property in this county, and would, no doubt, soon be a paying investment. If $50,000 or $60,000 could in any way be raised by our citizens, outside parties stand ready to furnish the balance of the funds necessary to build the road to this place.—*Barron County (Wis.) Chronotype.*

☞ At a meeting of the American Mining Board held in this city on the 18th inst, the Executive Committee was empowered to remove all restrictions as to the classes of stocks in which the board shall deal, and to reorganize the board under the Limited Liability act, passed in 1875. The board has leased for the purposes of their Exchange the premises recently occupied by Duncan Sherman & Co., on the corner of Nassau and Pine streets. The number of members is now upward of 240, and they represent many of the large and wealthy firms of New York, Philadelphia, Baltimore, Virginia City and San Francisco. It is expected that the first call of stocks will be made on the 2d of October.

☞ A prismoidal railroad has been commenced in Sonoma County, Cal., to extend from Embarcadero to Sonoma City. Two miles are about completed. It is in contemplation to extend it from Sonoma to Santa Rosa, a further distance, counting the meanderings of the valleys through the mountains, of about 22 miles. No heavy grades will be encountered, nor will a single tunnel be required.

☞ The Western Union Telegraph Company has purchased the stock of the American Telegraph Company, which has about 500 miles of line in Michigan and Indiana, and heretofore one of the connecting lines of the Atlantic and Pacific Company.

☞ Alex. Makie has been chosen secretary of the Santa Cruz and Felton Railroad Company. The earnings of the road for August were $10,000. The road is but seven miles in length. The tunnel under the upper plaza will be completed about the 5th of October.

☞ The Delaware and Hudson Canal Company have completed their road from Chazy to Rouse's Point, and regular trains commenced running on the 18th inst. This shortens the time between New York and Montreal one hour.

☞ The citizens of San Bernardino are desirous of securing a branch of the Southern Pacific Railroad to Colton, and are willing to offer the company liberal terms for the connection.

☞ The Provincial Government have directed their Engineer to examine the work on the Grand Southern Railway, some twenty-eight miles of which are ready for the sleepers.

☞ The track-layers on the Ohio Central Railway have reached a point three miles north of Bremen. The work is being pushed vigorously.

Texas and Pacific Railway.

We gave last week an abstract of the report of this company for the fiscal year ending May 31, 1876. The following extract from the same report relates to the Land Department of the road:

Your company had earned up to the 31st of May, under its grants from the State of Texas, twenty certificates of 640 acres each per mile, on 291.3 miles of road, including the extension from Brookston to Paris, or 5,826 certificates in all, aggregating 3,728,640 acres of land. It had also acquired, from other sources, 286 certificates for 183,040 acres of land, making a total of 6,112 certificates, aggregating 3,911,680 acres earned to date.

Of these earned certificates, 4 792 have been already withdrawn from the State land office, and the remaining 1,320 will be issued at any time, upon proper application and payment of the usual fee of four dollars each.

DISPOSITION OF CERTIFICATES.

4,478 certificates have been applied to lands surveyed,
314 certificates are on hand unlocated,

making 4,792 certificates for 3,066,380 acres received from the State,
leaving 1,320 certificates for 844,800 acres due from the State.

Total, 6,112 certificates for 3,911,680 acres owned by the company.

One thousand of these certificates have been assigned to the Fidelity Insurance Trust and Safe Deposit Company, Philadelphia, in trust, pending a final adjustment with the Receiver and the Trustees of the Memphis and El Paso Railway Company bondholders, under an agreement heretofore authorized; and 848 patents, for 542,917.37 acres of land covered by these certificates within the 16 mile Memphis and El Paso reservation, have been issued by the State in the name of that company.

The expenditures of the Land Department up to the 31st of May have been as follows:

	For the year.	Total since organization.
Cost of surveying and locating	$24,762 29	$113,056 55
Cost of certificates, patents, office fees and other expenditures at, and incidental to the State Land Office	9,614 32	25,505 26
General expenses, including salaries, clerk hire, stationery, cost of preparing maps, etc	8,134 41	27,845 78
Total expenditures	$42,511 02	$166,407 59

At the commencement of the fiscal year, all of the unappropriated lands east of the Colorado river and within the limits of the reservation of the company had been surveyed, the Colorado river being about 202 miles west from Fort Worth.

During the past year, our surveys have been extended from the Colorado river to the Pecos, a distance of 230 miles additional, or to a point 432 miles west from Fort Worth; and by these surveys your company has been able to acquire title to all the unappropriated lands, of a desirable quality, within the land reservations of the company east of the Pecos river.

The quantity of land already located between the Colorado and Pecos rivers is 1,900 sections, or 1,216,000 acres, and this will be increased by the selection of scattered tracts of desirable lands, to say 2,500 sections, or 1,600,000 acres in all; the necessary surveys having been made to enable the company to acquire title to all of the 2,500 sections mentioned.

This work of location and survey has been done by organized parties in the employ of the company, instead of by contract, as heretofore, and has cost something less than nine dollars per section, which is less than one-half the price paid by the company for similar work, not nearly so well done, under contract.

These 2,500 sections are a class of lands that will become saleable for agricultural purposes, whenever railroads are extended into that section of the country; and they are as desirable now, as any of the unappropriated public domain of the State; as they have all been selected, either on account of availability for agricultural purposes, or for timber or wood.

COAL.

Valuable deposits of coal exist, and have been used for blacksmith purposes as well as for fuel, on or near the line of your road in Parker county; one vein that has been considerably worked, shows to be about four feet thick, and has proved to be genuine coal of good quality, that does not slack on exposure to the weather, and is free from sulphur. Another vein of about the same thickness and believed to be of as good quality, is on Rock creek, near the west line of Parker county; and many outcroppings of coal are found along the Brazos river, particularly on the Clear Fork of the Brazos, and extend generally all the way from Weatherford to Fort Belknap; several that are near Fort Belknap, having been worked for a considerable time, to supply the garrison and for neighborhood purposes. Indications of coal have also been found as far west as Hubbard's creek, in Shackelford county; but in no case have these veins been opened and worked sufficiently to enable any one to form a correct opinion as to the quality and quantity of the coal. Enough is known to prove conclusively that the extension of your road from sixty to eighty miles west from Fort Worth, will open up a very large coal traffic, to all points in the prairie country, on the line of your road, and on its connecting lines.

By the recent completion of your lower line to Fort Worth, and the upper line between Paris and Texarkana, there have been earned certificates for about a million and a-half acres additional of land, all of which we hope to have located and surveyed during the current year; and this will give the company about 5,400,000 acres of land in all, less, say 600,000 acres held in reserve under the agreements, for exchange with Memphis and El Paso bonds.

It has not been thought advisable to bring your lands into market, until all shall have been surveyed and located, and until a selection has been made of the lands to be reserved within the 16 mile Memphis and El Paso reservation, under the agreements for their exchange for bonds. This location and selection will it is believed, soon be effected, so that your lands can be brought into the market for sale; meanwhile there is a large immigration going into the State and locating along your projected line in advance of its construction, that will soon take up all the valuable unoccupied State lands, leaving those your company has located in the vicinity of its 432 miles of line to the Pecos river, to be taken up as your road is pushed westward.

It is proper to state that the larger part of the available lands of the company lie west of the one hundredth meridian, only about 258,000 acres east of that point, can at the present time be offered for sale.

Cotton Manufacture in the South.

The Atlantic (Ga.) Constitution publishes a statement of the cotton manufacturing industry of the southern states in 1875 which shows a gratifying gain in the number of spindles. The number of mills in the Southern States, exclusive of Maryland, is shown to be 181; number of spindles, 481,821; bales of cotton used, 145,079. Georgia takes the lead with 47 mills and 131,340 spindles. In 1869, the total number of spindles in Southern mills was 225,068; and, in 1870, they had increased to 262,221. In 1875, as the above figures show, the number of spindles had advanced to 481,821, having nearly doubled in five years. Ground has just been broken for a third mill by the Eagle and Phoenix Manufacturing Company, at Augusta, which when completed, will be the largest in the South, and will set Georgia forward to the eighth place in the number of spindles now occupied by New Jersey. The Constitution felicitates itself that these figures show conclusively that cotton manufacturing in the South is on a firm and enduring basis.

The Coal Trade.

The coal tonnage for the week ending the 9th instant, as reported by all the companies, amounted to 397,777 tons, against 583,668 tons in corresponding week last year, a decrease of 185,891 tons. The total amount of anthracite mined for the year is 11,082,947 tons, against 12,911,215 for same period last year, a decrease of 1,828,268 tons. The quantity of bituminous coal sent to market for the week was 81,396 tons, against 77,637 tons for corresponding week last year, a decrease of 3,759 tons. The whole bituminous tonnage from the beginning of the coal year is 2,424,874 tons, against 2,532,181 tons in corresponding time last year, a decrease of 107,307 tons. The total tonnage of all kinds of coal for the week is 479,173 tons, against 661,305 to corresponding date last year, a decrease of 182,132 tons, and the total tonnage for the coal year is 13,507,721 tons, against 15,443,896 tons to same date last year, a decrease of 1,935,675 tons. The quantity of coal and coke carried over the Pennsylvania Railroad during the last three days in August was 50,477 tons, of which 42,279 tons were coal and 8198 tons coke. The total carried this year is 2,965,807 tons, of which 2,356,461 were coal and 498,903 coke. This total embraces all the coal carried over the road, east and west. The total of coal received from the Lehigh Valley Railroad at Perth Amboy for the week ending on the 9th instant was 17,686 tons, the amount shipped thence amounting to 11,131 tons, leaving 73,745 tons on hand.—*Phila. Ledger, Sept.* 18.

☞ The Portland, Dallas and Salt Lake Railroad Company has been re-incorporated under the name of the Portland, Salt Lake and South Pass Railroad Company, with W. W. Chapman as president. At a meeting of the incorporators, held at Portland, Oregon, on the 9th inst., it was ordered that books be opened at suitable places for subscriptions to the capital stock of the company, of $20,000,000, in shares of $100 each; that the capital stock be apportioned, as far as practicably consistent with early organization, one-half west of the Cascade mountains and the other half east of them; and that there be apportioned to each of the counties of Wasco, Umatilla, Grant, Union and Baker an equal amount of stock, and that books be opened in those counties as early as practicable.

☞ A trial trip with the purpose of burning coal dirt in locomotives has been made by the Philadelphia and Reading railroad with the most satisfactory results. The quantity carried is larger, the fire hotter, the work of the firemen lighter, the steam more regular, and the speed nearly twice as fast as schedule time. This will utilize millions of dollars worth of fuel heretofore considered valueless.

☞ The Sacramento Record-Union notices the arrival at that place of three narrow gauge locomotives, one being for the Santa Cruz Railroad Company and the others for the San Luis Obispo and Santa Maria Valley Railroad Company. They were all from the Baldwin Works, Philadelphia.

☞ From testimonials received by the Lobdell Car Wheel Company, of Wilmington, Delaware its wheels are shown to have run, without cessation of service, fourteen years; while on the Erie Road they have been running over twenty years without removal. In Machinery Hall (E 65) are two wheels, concerning which it is stated that they have run under an engine on the Camden and Atlantic Railroad, 56,668 miles, without turning off; and that they will be used again when the Exhibition closes.

☞ It is definitely stated that Sanderson, Bros. & Co., large manufacturers of steel in Sheffield, Eng., have completed negotiations for the establishment of a branch steel manufactory in Syracuse, N. Y. They have purchased the old "Sweet Works," which are now being enlarged and fitted for the new business. Apparatus, methods and labor will be imported from England.

☞ The Montclair and Greenwood Lake Railroad Company has decided to rebuild the Passaic River Bridge of stone and iron, at a cost of $20,000, to correspond with the new draw. The work will be done at once.

☞ The total coal tonnage of the Columbus and Hocking Valley Railroad for the month of August was 57,708 tons, or 1,442,700 bushels. The gross earnings for the month from all sources was $67,977 37.

☞ Two of the ten Bessemer Steel Works in the United States are located in Chicago, and these made 85,000 tons of the 291,000 tons of Bessemer Steel rails manufactured in the country last year.

☞ Mr. J. J. Rutherford, of Columbus, Ohio, has been awarded the contract for laying the iron the whole length of the Cincinnati and Portsmouth railroad.

☞ The Pennsylvania Steel Company at Baldwin, has a contract for 1,000 tons of rails for the Atlantic, Mississippi and Ohio Railroad.

How to Revive Railroad Building.

Some time since we undertook to demonstrate that Railroad building in the United States had taken a wrong direction, that it had been pushed too far beyond the confines of civilization, and that it was taking the pioneer so far away from his markets as to practically neutralize to him the advantage of cheap lands. These evils, which involved the neglect of a proper development of the resources of the older States, were the result of the system of projecting and building railroads on grants of land obtained from Congress. To utilize these grants it was necessary to build railroads through and adjacent to the lands granted or conveyed; and it was often the case that the railroad, instead of following, preceded population—with the usual misfortune of pioneers, bankruptcy, and every other discouragement. In the meantime, the older States were neglected. Lacking something to give the first impetus, or to form a basis of credit, and discouraged by previous misfortunes and bad management, railroad building in the Eastern and Middle States, so far as related to the development of any general system was concerned, came almost to a standstill. Isolated works were prosecuted with varied success, but this fact does not affect the accuracy of the preceding statement. The consequence was that population diminished in old settled communities. A blight seemed to have rested upon sections whose resources had never been fairly tested.

It is time to change all this. If the Federal Government may aid railroads through land grants, it may do so by more direct means. If it may appropriate lands to their aid, it may appropriate the proceeds of the sales of lands to the same purpose. The public lands of the United States belong to all the States. The manner in which they have been disposed of has worked injury instead of benefit to very many of them. It has offered a premium to the farmers of Western New York, Ohio, Michigan, and many other States, to desert their homes and lands, and seek the Far West. Were Congress to constitute a fund for the aid and prosecution of works of internal improvement in and between the States, from the proceeds of public lands, it would do but an act of simple justice to the older States. Four or five millions a year so employed would enable works to the value of ten times that amount to be annually prosecuted; and it requires no second thought to impress one with an idea of how much that would do to revive manufactures and restore the trade and commerce of the whole country. A million or so yearly might be pledged to the Southern Pacific Railroad; another moderate amount to the Chesapeake and Ohio. The construction of railroads between the great States of the South might be promoted directly, or by the endorsement of bonds to an amount that would involve a moderate yearly interest. The need of the development of the railroad systems of the older States is so pressing, that it requires but a slight impetus at the start, such as could easily be given by the Federal Government from the proceeds of the public lands, to insure its early beginning and active prosecution.

Shall this be done? We are aware that this measure, although bearing on its face evidence of its justice and propriety, must needs be strongly urged, in season and out of season, to secure its adoption. In the heat of a Presidential campaign it is not likely to receive candid and thoughtful consideration. Still, "solitary and alone, we set the ball in motion." We demand for the several States, and for our whole people, the inauguration of a compact and well-digested system for the aid and prosecution of internal improvements between and in the States; a system not depending upon the fitful temper of Congress, but the solemn pledge and devotion of that portion of the public revenue which is derived from the sale of public lands or from some other certain source. The adoption of such a policy would insure the building in the next ten years, among older communities which need them, of railroads to the value of five hundred millions of dollars. Shall we have them? is the question which our statesmen and publicists must answer.

Railway Accidents in Gt. Britain.

Capt. Tyler, in his report on the accidents which have occurred on the railways of the United Kingdom during the year 1875, says that the total number of persons recorded at the Board of Trade as having been killed on all the railways during the year was 1,290, and the number of injured was 5,775. Of these, 134 persons killed, and 1,806 persons injured, were passengers. Of the remainder, 765 killed, and 3,618 injured, were officers or servants of the railway companies or of contractors; and 391 killed and 331 injured, were trespassers, or suicides, or others who met with accidents at level crossings or from miscellaneous causes. Of the passengers, 17 were killed and 1,212 were injured, and from causes beyond their own control. The total number of passenger journeys has not yet been precisely ascertained, but may be estimated with sufficient accuracy at 507,000,000, or about 29,000,000 more than in the previous year. Calculating on this estimate, the proportions of passengers killed and injured in 1875 from all causes were in round numbers 1 in 3,783,600 killed and 1 in 280,800 injured. In 1874, the proportions were 1 in 2,274,881 killed, and 1 in 242,302 injured. The proportions of passengers killed and injured from causes beyond

their own control were in 1875 1 in 29,823,500 killed and 1 in 418,300 injured. In 1874 the proportions were 1 in 5,556,284 killed and 1 in 296,243 injured. The average proportions of the preceding four years, 1870 to 1873 inclusive, were 1 in 11,196,570 killed and 1 in 338,423 injured. Thus the proportions of passengers killed and injured from causes beyond their own control during 1875 show a very considerable decrease, not only when compared with those of the year 1874 but also when compared with those of the four years prior to 1874. The officers and servants of railway companies, according to Lord Aberdeen's Return presented to Parliament in the autumn of 1874, amounted at the end of 1873 to 274,535. Assuming them to amount now to 280,000, there have during the past year in proportion to the total numbers employed, been killed from all causes about 1 in 366, and killed or injured 1 in 64.

Municipal Donations of Aid to Railroads.

DECISION OF THE U. S. SUPREME COURT.

No. 48. The Town of Concord, plaintiff in error, vs. The Portsmouth Savings Bank—In error to the Circuit Court for the Northern District of Illinois—The bonds to which the coupons in suit were attached purport to have been made under legislative authority given to the town officers by the act of March 7, 1867. Their recitals make direct reference to that act by its title, which is set forth at length, with an averment that they were issued under and by virtue of it. The primary question, therefore, is whether that statute did in reality give to the Supervisor and Clerk of the town power to execute and deliver town bonds on the 9th day of October, 1871 (when the bonds were in fact issued), as an appropriation or donation to a railroad company. The first and second sections are the only ones to which reference need be made.

By the first it was enacted that certain incorporated towns and cities and towns acting under the Township Organization law (among which it is conceded the town of Concord was one), should be and were severally authorize to appropriate such sum of money as they might deem proper, to the Chicago, Danville and Vincennes Railroad Company, to aid in the construction of the road of said company; to be paid to the company as soon as the track of said road should have been located and constructed through said city, town, or township respectively. To this was attached the following proviso:—"Provided, however, that the proposition to appropriate moneys to said company shall be first submitted to a vote of the legal voters of said respective townships, towns or cities, at a regular annual or special meeting, by giving at least ten days' notice thereof; and a vote shall be taken thereon by ballet at the usual place of election, and if the majority of votes cast shall be in favor of the appropriation, then the same shall be made; otherwise not."

The second section empowered and required the authorities of said municipalities to lay and collect a tax and make such provisions as might be necessary for the prompt payment of the appropriation under the provisions of the law. The authority given to the town of Concord by this statute was not to subscribe to the stock of the railroad company, but to make an appropriation or donation in aid of the construction of the road, and even that donation was not permitted to be made until after the completion of the location and construction of the road through the town.

It has been strenuously insisted during the argument that the act conferred no power upon the town to make an appropriation or donation by the issuing of bonds or certificates of indebtedness. It is said other provision was made for the donation; provision by the levy and collection of a tax. We do not care, however, to discuss this matter, for in the view which we have of the case it is quite immaterial. A popular election having been held, and a majority of votes cast at the election having been in favor of the appropriation, it may be conceded that payment of the appropriation could lawfully have been made in town bonds instead of money if the donation itself was authorized.

The real question is whether the authority to make the donation existed when it was made. The act of the Legislature of 1867 may have been authority for a donation at any time prior to July 2, 1870, and no authority at all afterward. And such we think it was. The popular vote in favor of an appropriation was on the 20th of November, 1869, but it was not of itself an appropriation or donation, and the town was not authorized to make it until the railroad was located and constructed through the town. Before that time, and before any attempt at a donation or appropriation was made, the authority to make it was withdrawn. If no effect be attributed to the rescinding vote of June 30, 1870, the new constitution of the State, which came into operation on the 2nd of July, 1870, annulled, we think, the power of municipalities to make donations to railroad companies. Under the new constitution subscriptions can be made to the capital stock of railroad companies under certain circumstances, but no donations can be made. After the date of this article, there having been at that time no donation, none could be made. There was no contract to be impaired before the donation, although there had been a vote in favor of it, for there was no consideration for the promise implied by the vote, the road not having as yet been located through the town. Reversed.

Mr. Justice Strong delivered the opinion.

Connecticut & Passumpsic Rivers Railroad.

The earnings of this road for the years ending June 30, 1875 and 1876, were as follows:

	1875.	1876.
From passengers	$271,682 57	$254,824 87

		139,715 80
Total, as in Balance Sheet		$116,778 27

Compared with the previous year the gross earnings show a decrease of $69,199 78; with a decrease in the expenses of operating the road of $86,044 74—which gives an increase in net earnings over last year of $16,844 96. The President in his report says:

The general depression in business, and particularly in the lumber trade, has affected our road more than in any previous year. The road is now being operated upon a basis of the strictest economy consistent with safety and efficiency, and, with a moderate revival in business, will be able to show better net results. The equipment of the road is more than sufficient for our present business, and remains the same as last year, with the exception that one post office, baggage and smoking car has been built at our shops, and one of our passenger cars has been changed and fitted up as a parlor car, at an expense for both of about $3,500. The entire rolling stock has been kept in good repair, and is in better condition than a year ago.

The road bed and track have been kept in good repair, and are now in better condition than at any former period; 754 tons of new rails have been laid; 6,395 rails have been taken up, mended and relaid in track, and 62,754 new sleepers have been put in during the year. The freshet of May last caused considerable damage to the road bed, and interrupted business about four days, but did not prove so expensive or serious as was at first supposed. It has all been repaired in the most substantial manner, with the exception of filling a short piece of tressel work at Passumpsic, which can be done at any convenient time, at an expense of a few hundred dollars, by the ordinary force employed on the road. The stations and buildings belonging to the corporation, and all the platforms, have been kept in good repair. The upper story of the Memphremagog House, at Newport, has been plastered and finished for occupancy. Great care has been taken to see that all the bridges on the Passumpsic, Massawippi and South Eastern roads were kept in a safe condition and in good repair, and we believe that they have been much improved within the year. The station at Barnet was burned last winter, but was fully covered by insurance, and we have suffered no loss by fire during the year. That station has been replaced by a building not quite as large as the old one, but large enough for all requirements at that place. The road has been run with great success as regards accidents, none having occurred whereby any passenger has been injured, and the damage to freight trains has been very trifling.

By referring to the statement of the year's business, it will be seen that the net earnings, after paying the operating expenses and the interest on all the indebtedness of the corporation, were $111,388 75. The stock issued by the Passumpsic Railroad is $2,175,700; that issued by the Massawippi Valley on which we agree to pay the same dividend as on the Passumpsic stock, is $400,000; making in all $2,575,700 subject to dividends. A dividend of four cent. on this would amount to $103,028 leaving a surplus of $8,360 75. The Directors thought it unwise to pay this out in dividends while the company was owing a floating debt. It has been used in the extinguishment of that debt. There now remains, beyond the quick assets now on hand applicable to that purpose, $32,970 14, to be provided for to pay off the balance of the floating debt. This, we think can be furnished from earnings within the next six months, so that, on the first of January next, we hope the corporation will stand with no liabilities except the mortgage bonds due in 1893 of $1,500,000, and the guarantee on the Massawippi bonds, $400,000, due in 1889, and that thereafter the net earnings of the roads will be applicable for dividends on the stock.

The lease of the South Eastern Railway to the Passumpsic road, in which the Boston, Concord and Montreal Railroad is jointly interested, expired on the 15th of last March. This lease has not been renewed, but has been practically continued, and the road is now operated on the same basis as it was last year. Owing to the delay in completing the road from Sutton Junction to Sorel, on the St. Lawrence River, this lease has not proved so profitable as we had hoped. Al-

though Colonel Foster has not been able to finish this road as soon as he expected, we think that, under the distrust which has attached to all railway enterprises during the last year, he is deserving of the highest credit for the energy and perseverance with which he has pushed the matter, having laid about seventy miles of track since last October. There now remains only about twenty miles to be constructed to complete the entire line. This forms a part of the South Eastern road, and is covered by our lease. When completed we shall be able to run our cars direct to the St. Lawrence River at Sorel, which will open up to us a large bark and hay country having heretofore had no outlet by rail, as well as the pine lumber district of Ottawa and Michigan; all of which lumber now passes directly by Sorel, up the Richelieu River into Lake Champlain. We shall then feel warranted in looking for a large increase of business to the line of road, and a more favorable result from the lease. We are assured by Colonel Foster, who has just returned from England, that he had obtained the means to put in the remaining twenty miles of road, and he is confident of having it completed before winter.

The equipment of the road consists of: 27 engines; 14 passenger, 5 baggage, 2 baggage and smoking, 2 mail, 660 freight; 2 boarding-house, 5 snow ploughs, 2 gougers, 20 gravel, 3 crane, 28 push, 42 hand and 32 wood cars.

The number of miles run by engines during the year was 383,553. Number of tons carried, 127,888; do. carried one mile, 6,805,104. Passengers carried, 172,938; do. carried one mile, 5,170,847.

MEMORANDUM.

Amount of bonds payable in 1893, not issued		$688,500 00
Amount of bonds in sinking fund applicable to the payment of 6 per cent. bonds, due Dec. 1, 1876		152,500 00
		$841,000 00
Amount of 6 per cent. bonds payable Dec. 1, 1876	$270,500 00	
Amount of 7 per cent notes payable Dec. 1, 1876	407,500 00	
Amount of 7 per cent. notes payable July 1, 1881	130,000 00	
		808,000 00
		$33,000 00
Amount of floating debt is		$130,000 00
Applicable thereto—		
Bonds as above	$33,000 00	
Cash in hands of Treasurer,	6,743 86	
Cash in hands of Cashier	21,000 00	
Bills receivable and balances due from other roads	26,698 80	
Money advanced on wood not delivered	9,587 28	
		97,029 86
Balance		$32,970 14

This will leave the indebtedness of the road as follows:

Bonds due in 1893	$1,500,000 00
Bonds of the Massawippi Valley R. R., due in 1889	400,000 00
	$1,900,000 00

Assets applicable thereto—

Missisquoi and Clyde Rivers R. R. 7 per cent bonds	$350,000 00
Notes of South Eastern Railway, secured by rolling stock and other collateral	221,131 17
Materials and wood on hand	117,291 01
Notes for Lyndon lands sold	8,222 70
Mount Washington Railway stock	13,600 00
	$710,244 88

President.—EMMONS RAYMOND Cambridge, Mass.

Vice President—T. P. REDFIELD, Montpelier, Vt.

Directors.—Emmons Raymond, T. P. Redfield, Gardner C. Brown, Amos BARNES, John E. Lyon, Warren K. Blodgett, Alden Speare, Lucius Robinson, Stephen Foster.

Treasurer.—N. P. LOVERING, Boston, Mass.

Secretary.—ELIJAH CLEVELAND, Coventry, Vt.

Sup't.—H. E. FOLSOM, Lyndonville, Vt.

Memphis and Charleston Railroad.

The earnings of this road for the years ending June 30, 1875 and 1876, were as follows:

	1875.	1876.
From freight	$523,396 68	$514,160 42
" passengers	444,879 94	420,090 52
" express matter	11,903 97	14,855 04
" mail	53,364 08	45,696 20
" rents	29,782 14	38,564 73
Total earnings	$1,063,326 81	$1,033,366 91
Expenses, viz:		
Conducting transp	$224,706 20	$183,588 80
Motive power	198,423 28	172,361 40
Maintenance of cars	75,998 19	60,553 82
Maintenance of way	286,702 35	221,979 77
Total operating exp	$785,830 02	$638,483 29
General expenses, including taxes	78,991 03	47,821 01
Construction & equipment	15,011 46	25,832 19
Total expenses	$879,832 51	$712,136 49
Net earnings	$183,494 30	$321,230 42

Compared with the fiscal year ending June 30, 1875, the gross earnings of 1876 show a decrease of $29,959 90, with a decrease in expenses of $167,697 02, making the increase in net earnings $137,736 12.

The superintendent in his report, prepared for presentation at the annual meeting of the company to be held at Memphis on the 12th of October, says:

The motive power and car department has been fully kept and is in condition to meet any demands upon it. The track, roadbed, bridges and trestles have been much improved, and are now in good condition. During the year 19.7 new fish-bar rail has been put in track, and 100,600 new cross-ties. The company has also expended $23,000 on the Washington street, Memphis, extension.

St. Louis, Council Bluffs and Omaha R. R.

The case of Henry E. Eaken against the St. Louis, Kansas City and Northern Railroad, to recover interest upon coupons attached to $937,000 of bonds issued by the St. Louis, Council Bluffs and Omaha Railroad Company, was decided on the 21st inst., by Judge Dillon in the United Circuit Court at St. Louis. The latter company leased their road to the former for a rental equal to the interest on these bonds, and said interest was to be paid as the rental of the road. This lease was made with the consent of the stockholders of the St. Louis, Council Bluffs and Omaha road, but the stockholders of the St. Louis, Kansas City and Northern road never took any formal action in it until March, 1875, when they voted it null, although the company had made three semi-annual payments of interest on the bonds without any objection from any of the stockholders. Judge Dillon decided that notwithstanding the informality of the lease, as the latter company had operated the road of the former and made three payments of interest on coupons, the lease is valid, and judgment was entered for the plaintiff.

Manchester and Keene Railroad.

The line of this road, as located, is described as extending eastwardly from Keene, surmounting the northern prongs of Mount Monadnock, traversing a sparsely settled region, and reaching Greenfield, on the west slope of Wilton Mountain, at the terminus of the Peterboro' branch of the Lowell and Nashua Railroad. It is said that the towns on the line have voted gratuities amounting to two hundred thousand dollars, more or less, payable on the completion of the work. But as a million of dollars, probably, will be required for the enterprise, its main resource must be from the sale of its bonds to contractors and others. About midway of the proposed road is the manufacturing village of Harrisville, the owners of which are the parties chiefly interested in the undertaking. The road if built will, no doubt, divert some business from the Cheshire and Fitchburg line; but its grades and curves will probably prove too severe to give rise to any serious competition.

☞ The earnings of the Philadelphia and Erie Railroad for August, 1876, were $267,833 83, the expenses $187,135 37, and the net earnings $80,698 46. In August, 1875, the earnings were $333,529 00, the expenses $218,346 00, and the net earnings $115,082 00—showing a decrease in earnings of $65,595 17, in expenses of $31,210 63, and in net earnings of $34,383 54.

☞ Grading on the Portland, Salt Lake and South Pass (late Portland, Dallas and Salt Lake) Railroad was commenced at Corinne, Utah, on the 25th inst. The work will be pushed ahead as rapidly as possible. Surveys are being made with satisfactory results, and Malad Valley will be reached this week.

☞ The completion of the Vermont division of the Portland and Ogdensburg Railroad through to Swanton is progressing rapidly. Track laying has begun beyond Johnson, and at Sheldon iron is arriving rapidly. Swanton is expected to be reached in about two months.

New York Central and Hudson River R. R.

The following analysis of the progress and business of the New York Central and Hudson River Railroad Company is from the New York *Tribune*:

Before proceeding to an examination of the accounts of the consolidated company, a brief review of the financial history of the separate roads for a few years prior to the consolidation (which occurred on Oct. 1, 1869), will be instructive to many readers of the present day. By the separate reports of the companies (the New York Central and Hudson River), made to the State Engineer, for the year ended Sept. 30, 1865, their combined capitals and debts then were $53,544,533, against the present consolidated stock and debt of $129,431,997—an increase in ten years of $75,887,464, or 141.6 per cent. The combined length of roadways then owned by them was 699.88 miles, against 740.17 miles now owned by the consolidated company; and of second, third, fourth, and side tracks, 550 miles in 1865, against 1,302 78 miles at present. The total length of roadways operated (including leased lines) was 804 34 miles in 1865, against 1,000.20 miles in 1875—an increase of 195.86 miles in the length of road operated, of which additional mileage 155.57 miles are leased. The 804 miles of 1865 earned $18,427,904 gross, with operating expenses of $14,738,522, leaving as the net earnings, $3,689,382. The 1,000 miles of 1875 earned $29,027,216 gross, with reported operating expenses of $17,262,107, leaving as net earnings $11,765,109, an increase in gross earning of 56 per cent, against an increase in operating expenses of only 17 per cent—a very encouraging feature, particularly when it is remembered that the length of roadway to be maintained had been increased 24 per cent, and that the rates for transportation on a large proportion of the business of 1875 were not much, if any, over half of what they were in 1865. At various times prior to the consolidation, the capital stock of the Hudson River Company was increased by the payment of stock dividends, the most noticeable of which, however, was in 1867, when the stock was raised from $7,000,000 to $14,000,000, by an issue to stockholders of $7,000,000, on the payment of 50 per cent of the par value. The sum of $3,500,000 thus realized by the company was for the purchase of the land and the building of the St. John's Park Depot. In 1868 the New York Central Company paid a dividend of 80 per cent in certificates that were equal to the stock in every respect except the power to vote. This issue amounted to the handsome sum of $23,000,000. But the creation of this small bit of property, by the stroke of a pen, was not sufficient, and when the consolidation occurred, Oct. 1, 1869, another plum of 27 per cent was given to the stockholders of the N. Y. Central, making 107 per cent in all; while the stockholders of the Hudson River received 85 per cent in like certificates upon their stock. The total of these three "certificate inflations," which later were made convertible into stock, are represented in the first table hereafter by "consolidation certificates," $44,428,330. When the Central Company paid its first dividend (80 per cent) it had a real available surplus of over $4,000,000; but this nearly all disappeared from its reports before the consolidation. This brings us to the first report made by the consolidated company, which was for the year, Oct. 1, 1869, to September 30, 1870, and forms the starting point for all the succeeding comparisons. All the subjoined statements are from the published official reports of the State Engineer of New York State.

The capitals and debts compare as follows:

	For years ending Sept. 30. 1870.	1875.
Capital stock	$45,000,000	$89,232,930
Consolidated certificates	44,428,330	195,400
Funded debt	13,681,807	40,003,667
Total capital	$103,110,137	$129,431,997
Changes—debt increased		26,321,860

This increase has occurred as follows: in 1871, $1,549,912; 1872, $1,264,301; 1873, $11,229,513; 1874, $10,759,209, and in 1875, $1,518,925, and makes the annual outgo for interest $1,842,500 greater hereafter than in 1870.

The length of roadway and tracks owned by the company at the respective dates was as follows:

	1870.	1875.
Number of miles of road	740.17	740.17
Number of miles of second, third, fourth, and side tracks	672.10	1,302.78
Total miles of tracks owned	1,412.27	2,042.95

The length of roadway remains unchanged, while the length of single tracks has increased 630.68, or 44.6 per cent.

The cost of these additional miles of track should be marked by the difference in the amounts of the following accounts, which were reported as follows:

	1870.	1875.	Per Ct. increase.
Graduation & masonry	$13,133,561	$19,345 935	48.2
Bridges	1,291,381	2,498,404	99.7
Superstructure, including iron	13,822,025	28,564,425	108.3
Land, land damages & fences	5,892,758	11,682,930	98.4
Total	$34,140,725	$62,091,694	81.8
Cost p. m. of road	$46,136	$83,907	86 2
Cost per mile of single track	24,178	30,392	25.7

The foregoing accounts are only applicable to the roadway and tracks; those for depots, shops, etc, will appear hereafter.

Therefore 630.68 miles of additional single track are reported to have cost the sum of $27,950,969, or $44,296 per mile, being within $1,800 of the cost per mile of the entire superstructure, including track of 1870. In other words, the addition of 44.6 per cent of track to an old and completed road of 700 miles has added 81 per cent to the total cost, without an additional depot or building of any kind. This increased cost, like the augmented debt, has been scattered along each of the five years from 1870 to 1875, but the larger proportion has occurred since the commencement of the work upon two extra tracks from Albany to Rochester, 222.19 miles.

It is certain that the construction of this additional track has been accomplished with extraordinary extravagance, or that the various accounts in the foregoing tables have been largely swelled by items that properly should have been charged to "maintenance of road-bed, etc.," and "operating expenses," thus making the net earnings pleasant figures to contemplate. Which? is a question it is very desirable to solve. But, in either case, the company has been saddled with a large debt, the proceeds of which have been used to pay for the extraordinary cost, if real, or to pay dividends that were not fully earned.

The remaining "construction" accounts were reported as follows:

	1870.	1875.
Passenger and freight stations, buildings and fixtures, engine and car-houses, machine shops, machinery and fixtures	$7,875,479	$11,032,457
Engineering and agencies	2,884,057	2,999,473
Rochester and Lake Ontario Railroad	150,000	150,000
Buffalo and Niagara Falls Railroad	658,922	658,922
Lewiston Railroad	400,000	400,000
Saratoga & Hudson River Railroad	2,000,000	2,000,000
Add sums from previous table	34,140,725	62,091,694
Total construction	$48,109,183	$79,332,546
Cost per mile of road with no equipment	65,011	107,206

The only change to be noted in the last table is the increase of $3,156,978 for depots, etc., being 40.1 per cent greater in 1875 than in 1870. This item undoubtedly includes the expenditures made for elevators, etc., in this city, on the North River front, because, except for it, it would be difficult to find an increase of 10 per cent in the properties mentioned.

The equipment of the road and cost of the same at the respective dates were reported as follows:

	1870. No.	1870. Amount.	1875. No.	1875. Amount.
Locomotives	408	$4,320,865	566	$5,660,903
Passenger cars	577	1,399,691	780	1,793,343
Freight cars	9,026	5,914,666	14,597	9,547,702
Horses, harnesses & stable equipment		21,278		21,278
Total cost of equipment		$11,656,500		$17,023,226
Increase, 46½ per cent				5,866,726
Add increase in cost of construction				81,223,363
Total increased cost of road and equipment				$36,590,089

—or 61 per cent of the entire cost ($59,765,684) as reported for 1870.

Toronto, Grey and Bruce Railway.

From the report of the directors of this company, presented at the annual meeting of the shareholders held in Toronto on the 18th inst., we learn that the gross traffic earnings for the year ending June 30, 1876, amounted to $372,336 49, while the total revenue expenditure for the same period was $233,428 04, or 62.9 per cent of the earnings, leaving a surplus to be carried to net revenue account of $138,908 45. For the year ending June 30, 1875, the earnings were $331,628 48, the expenses $258,104 27, and the net earnings $73,524 21—showing an increase in earnings of $40,708 01, a decrease in expenses of $24 676 23, and an increase in net earnings of $65,384 24. The net earnings for 1876 ($138,908 45) were sufficient not only to pay all the interest on the bonded debt, but also to reduce the balance standing against revenue account of the previous year from $24,246 97 to $12,742. The report says:

In January, 1874, legislation was obtained authorizing the Company to issue $2,250,000 of bonds, the proceeds to be applied toward the consolidation of the bonded and floating debts and the general purposes of the Company. The intention of the Board was to place new bonds to the above amount bearing 6 per cent. interest on the market, and with the proceeds to extinguish the existing 7 and 8 per cent. bonds as they matured, and pay off the floating debts. Owing, however, to the unfavorable condition, at the time, of the money market, the directors were unable to take advantage of the powers granted to them by the Legislature as above set forth. In November, 1875, bonds to the amount of $260,000 matured in Canada, but in consequence of the failure in carrying out the above arrangements, the directors were compelled to let payment go by default. The holders of the overdue bonds held a meeting in Toronto, and a resolution was passed agreeing to take no action in regard to the non-payment of the bonds until the English Bondholders had been heard from. The President and Solicitor of the Company thereupon proceeded to England, and a meeting of the English Bondholders was called and held on 16th February, 1876, at the City Terminus Hotel, Cannon street, London. At that meeting, which was largely attended, the President fully explained the position of the Company, and the steps which the Board thought it advisable to take in the interests of all concerned. A resolution was adopted at that meeting agreeing:—First, That the Act of Parliament of 1874 be acted upon so far as to create bonds to the amount of $2,000,000 only. Second, That the

bonds held by the present bondholders be exchanged for those of the new issue, bearing 6 per cent. interest, thus consolidating the various issues into one loan, and absorbing $1,600,000. Third, That the existing bondholders make such exchange, taking the new bonds at a discount, and receive a new bond of £100 stg., and a share of $100 in the share capital of the Company (in payment of the discount) in exchange for each old bond of £100 or $500 surrendered. Fourth, That the balance of the new bonds, amounting to $400,000, be applied to the payment of liens on rolling stock, repayment of special advances, and in liquidation of unsecured liabilities, the balance remaining unpaid of the unsecured floating liabilities to be settled by the issue of the ordinary shares of the company. Fifth, That the total share capital of the company be limited to $1,000,000, unless increased by a vote of the shareholders.

Having returned to Canada, the President reported to the Canadian bondholders the views of the English holders as above set forth, and most of the large bondholders here having assented to the arrangement, and a large majority of the shareholders having given their concurrence in writing, the Board at once issued new bonds, payable five years from January, 1876, bearing 6 per cent. interest, to the amount of $2,000,000, and in accordance with the Act of Parliament proceeded first to exchange existing 7 and 8 per cent. bonds for those of the new issue. This was done simultaneously in England and Canada, shares in the capital stock being issued, together with the new bonds, in accordance with the terms of the resolution. Having exchanged and obtained possession of 96 per cent. of the old bonds, the directors then proceeded to extinguish the secured and unsecured liabilities of the company with the remainder of the bonds and stock available. This they have now accomplished to a considerable extent, and the matter is progressing with as much dispatch as is practicable, so that in the course of a few weeks the Board hopes to have the remaining amounts outstanding liquidated and the floating debt extinguished. The President before leaving England made application to the London Stock Exchange to have the new 6 per cent. bonds entered on the official list, and the Board is pleased to be able to report that the Committee granted the request. The line being now entirely completed, and two years having elapsed since the opening of the final sections, the directors take pleasure in drawing attention to the rapid development of the resources of the country which has followed the construction of the railway.

Northern Canada Railway.

The semi-annual exhibit of this railway is a bright spot amidst the general gloom of financial depression. There is an increase in the receipts and in the net revenue, while there is a decrease in the working expenses. The several classes of local business, including passenger, freight and storage, have all shared the increase. The traffic receipts were $388,697 90, against $354,994 12 in the corresponding half of 1875; while the working expenses were $232,394 82, against $234,275 25. The ratio of working expenses to income was reduced from 65.99 to 59.77. The net revenue $165,380 08, against $157,430 38, an increase of $29,554 33, or more than eight per cent. The extension lines have, in the first place, "earned a net revenue considerably in excess of the interest liability of their debenture debt, and are now contributing an appreciable balance of profit to the company's operations." Though the Lake Superior traffic has fallen off, the connection has been kept up, in view of the future. The road is one which serves a large and important section of country, and penetrates, by one of its extensions, to a new and rapidly developing region not long ago quite beyond the pale of civilization. It has undoubtedly done much to promote the settlement and improvement of a very large section of country to the north of Toronto, and it has contributed largely to the development of the lumber and timber manufactuers of the same region. It is in debt to the government—that is to the people of Canada—for a considerable amount, which gives the whole country an interest in it beyond that which we all must take in our great lines of communication. Negotiations have been going on for years respecting this government debt, and, as our readers are probably aware, the amount was some time ago commuted to a single and final payment of £100,000 sterling. This payment was originally intended to be made by the 1st of July, 1876, but a subsequent act was passed extending the time to the 1st of November. If not made by that time the whole claim of the government revives. This compromise was made after full consideration of all the circumstances, and is doubtless a good one for the government as well as for the road itself.—*Monetary Times.*

Tunnels on the Southern Pacific Railroad.

A correspondent of the Sacramento Record-Union who was present at the formal opening of the Southern Pacific Railroad on the 6th inst. publishes the following description of the tunnels encountered upon the line between Caliente and Los Angelos. He says:

In ascending the Tehachepi Pass, within 19 miles are 17 tunnels, viz:

Tunnel No. 1 is 245 feet; No. 2 is 233.2; No. 3 is 707.7; No. 4 is 257; No. 5 is 1,156.8; No. 6 is 303.7; No. 7 is 532.7; No. 8 is 490; No. 9 is 426.2; No. 10 is 306 6; No. 11 is 158.8; No. 12 is 756.3; No. 13 is 513.8; No. 14 is 512.7; No. 15 is 360.7; No. 16 is 262.5; No. 17 is 250.9—making a total of 7,683.9 feet. Nearly all these tunnels are heavily timbered with staunch 7x14 inch redwood timber. At the bottom they are 14 feet in the clear, or 16½ feet in the excavation. They are 22 feet in hight, and the shoulders at the springing of the arch are 19 feet 4 inches. In the Soledad there are two more tunnels, Nos. 18 and 19—the first being 264 feet long, and latter 332 feet.

The longest tunnel on the coast is the San Fernando, 6,966¼ feet in length. This triumph of engineering skill was commenced March 27, 1875. The headings met headings July 14, 1876, and the timbering was completed August 9, 1876. It is built on a grade of 37 feet to the mile, and is perfectly straight, so that one can see through it. Tunnel No. 9 is at the famous loop of Tehachepi Pass. This loop completely encircles a mound, and by so doing gains a difference in elevation of 77 feet and 4.6 inches. In emerging from Tunnel No. 9 the train winds around a mound and passes directly over the tunnel at right angles, having made a curvature of 300 feet and 5 2 inches. The length of the loop is 3,794 feet. It is a veritable corkscrew, and is claimed to be a novel and original achievement in engineering. The total length of the tunnels between Caliente and Los Angeles, as given above, is 15,246.4 feet. Taken as a whole the difficulties of engineering in ascending the Tehachepi canyon surpass everything encountered in an equal distance on any portion of the Sierra Nevada.

Texas Railroad Extensions.

The Galveston News says that the progress of railroad building has been much more rapid in Texas during the past five years than in any other State and then adds:

The Central Railroad Company is arranging to stretch the Waco branch toward Weatherford. The Texas and Pacific are making preparations to move in the same direction. The Sunset route will soon be to San Antonio. Engineers are making ready to locate the new road from Waco to Palestine. Sherman and Denison are moving in the matter of a connection with the International and Great Northern at Minneola. Jefferson is pushing the East Side Railroad towards its contemplated connections. Work on the Gulf, Colorado and Santa Fe road is progressing favorably. The narrow gauge down the island, those of the same description from Houston, and the Tyler Tap are in a fair way for rapid construction.

Steam Motors on Street Railways.

The cars of the Citizens' Street Railway Company will be drawn by steam motors in place of the horses, it is probable, in a few weeks. Mr. Hagerty, the president of the company, will receive to-day from Philadelphia for an experimental trial a steam motor from the works of Messrs. Baldwin, and if after sixty days' trial the experiment is satisfactory similar motors to the number of about thirty would be placed on the line and all the horses withdrawn. They resemble the passenger cars in appearance, but are smaller, the works being entirely concealed. They will draw one, or if necessary, two passenger cars at an average rate of eight miles an hour, reducing the horse time of transit one-fourth. The motors are noiseless and smoke consuming. They can be started and stopped in less time than the horse cars. Being detached from the passenger cars they will not increase the heat in summer, while in winter by means of pipe the passenger car can be heated comfortably by steam. Anthracite coal supplies the fuel for the new motor.

The motors cost about $3,000 each, but it is stated will be less expensive after the first purchase than horses. One driver will run the motor, and he stands in it at front window, where he can see the street. Any ordinary person can easily learn to manage the motor. The first trial trip will be made to-morrow or Friday, the motor drawing a car over the entire route. Mr. Hagerty states that this will be the first application of this motor to street cars in this country. They are in use in Paris. In Philadelphia the street cars are drawn by steam in the passenger cars and not separate motors.—*Balt. Sun, Sept.* 20.

Railroad Across the Continent of Europe.

The railroad across the Eastern Continent which the geographers recommend, would take Nijnii Novgorod, in Russia, as its western terminus, and running along the Volga and across Astrachan enter Asia at Ekaterinburg, which lies east of the Ural mountains; then proceed in the direction of Truemen and Gmsk on the Irtish river, which it will cross; then to Tomsk, the principal centre of commerce in western Siberia, and to Irkutsk, at Lake Baikal; from whence it will pass to the frontier of China. The only serious difficulties to be encountered are in the mountains on the Chinese frontier, and these are inferior to those overcome by American engineers in the Rocky Mountains and the Sierra Nevada.

Canadian Pacific Railway.

The Winnipeg papers notice frequent arrivals of steel rails via Duluth, the Northern Pacific Railway, and the Red river, for that portion of the Canadian Pacific, 115 miles, between Winnipeg and Rat Portage, near Lake of the Woods. The Canadians have already graded the branch from Winnepeg to Pembina in expectation of the early construction of the St. Paul and Pacific to that point, but becoming tired of waiting, are pushing that part of the Canadian Pacific between Manitoba and Thunder Bay on Lake Superior, 406 miles, to an early completion, about 300 men being engaged on the Western division. This road will be a serious detriment to the interests of St. Paul, which, with proper energy, might have held the traffic of this region for several years. On the Thunder Bay end the locomotives are already running, some 25 miles of road having been completed, and probably the 60 miles between that point and Lac des Mille Lacs will be constructed before the end of the season.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

Statistical figures occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterick* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, September 30, 1876.

Financial and Commercial Affairs.

There has been no improvement in the tone of the speculation or in the course of prices of railroad securities during the past week. Even the improvement in a certain class of bonds—among which the Central of New Jersey are the most conspicuous—has received a check, a part of the late advance was lost, and the feeling of distrust in what have been known as "investment securities" has spread to those which have heretofore stood firm. The assault upon the New York Central has continued, in the face of a vigorous and manly card from Mr. Wm. H. Vanderbilt, the Vice President of the Company. The trouble with this card was, that it was unusual—it betokened alarm—it was quite different from the Commodore's manner of dealing with the Bears at the beginning of his connection with the road. The Lake Shore and Michigan Southern, and the Chicago, Milwaukee and St. Paul stocks have also yielded under the severe pressure of sellers. The attack on Tuesday upon Delaware, Lackawanna and Western was most vigorous and well sustained, and in spite of the efforts of friends and the better aspect of its affairs, it was sold down two points. Under a rumor that the quarterly dividend had been passed, 52,000 shares were sold. The other coal stocks were comparatively quiet, until towards the close on Wednesday, when the street was startled by advices from Philadelphia of a decline in the shares of the Philadelphia and Reading Railroad Company from 44 to 32½—a fall of 11½ per share, or 28 per cent. In explanation of this decline, it was asserted that a recent large buyer was out of town

or was unable to receive the stock. This disaster had apparently little effect, as it merely put that road on a par with other coal roads. New York Central and the Western shares were steadier on Wednesday, but there was some further decline in the bonds of Western railroads. The coal sale on Wednesday went off at rather better prices.

The bank statement for last week was chiefly remarkable for its exhibit of the loss of specie on deposit, to the amount of 3½ million dollars. Wall street authorities ascribe this to an effort to support not only the premium on gold, but the rate at which it may be loaned from day to day. The other effect has been to slightly diminish the bank reserve—and it is to be noted, also, that the surplus is now all specie, and therefore not available as currency; whereas one year ago, the surplus, although four millions smaller than now, was half composed of legal tenders.

Foreign Exchange has been dull and depressed. Advices from Europe are more peaceful, and advices from London report the purchase of gold in that market for shipment to the United States; and under these advices and the depression in Exchange gold has declined, and closed at 109⅞. Large exports also contribute to the depression in gold and Exchange. The total for the week ending September 26th was $5,550,475, against $4,100,294 for the corresponding period in 1875 and $5,278,759 in 1874. The total exports of produce from this port since January 1, this year, were $196,517,899, against $185,503,505 for the corresponding period in 1875, and $217,902,471 in 1874.

Government bonds have felt the effect of the withdrawal of considerable amounts of fives and sixes from the Treasury Department, where they had been deposited as security for circulating notes, and the substitution of 4½ per cents in their place. By this means, the national banks are able to provide an equal amount of security, with a somewhat smaller investment. The amount deposited to 22d inst. for the purpose of securing circulation is $5,518 800, of which $1,403,550 have been exchanged for six per cents, $3,427,000 for 5 per cents, and $688,250 deposited for additional circulation.

General trade continues good. The movement of the crops is quite free, and prices of nearly all leading staples are, although comparatively low, very well supported. We see it stated that railroads are delivering more cotton than usual at New Orleans, to the disadvantage of the River steamboats—and the prevalence of yellow fever in the South Atlantic seaports is causing increased quantities of cotton to be sent overland to the Northern markets. The railways connecting St. Louis with the extreme Southwest are deriving a large revenue from the fall crop in the Northern portion of the trans Mississippi cotton growing region.

On Wednesday Government bonds closed steady at the following quotations: United States currency sixes, 126¼@126½; do. 1881, registered, 117⅛@117⅜; do. coupon, 118⅛@118⅜; do. 1865, registered, 113@113¼; do. coupon, 113@113¼; do. new, registered, 113¼@113½; do. coupon, 113¼@113½; do. 1867, registered, 116¼@116⅜; do. coupon, 116¼@116½; do. 1868, registered, 118⅛@118⅜; do. coupon, 118⅛@118½; do. ten-forties, registered, 114⅛@114⅞; do. coupon, 115⅛@115¾; do, fives, 1881, registered, 114¾@114⅞; do., coupon, 114¾@114⅞; do. four and one-half, 111¼@111⅜.

FISK & HATCH,

Bankers,

No. 5 NASSAU ST., NEW YORK.

We give particular attention to DIRECT DEALINGS IN GOVERNMENT BONDS AT CURRENT MARKET RATES, and are prepared, at all times, to buy or sell in large or small amounts, to suit all classes of investors. Orders by mail or telegraph will receive careful attention.

We shall be pleased to furnish information in reference to all matters connected with investments in Govment Bonds.

We also buy and sell GOLD and GOLD COUPONS, COLLECT DIVIDENDS and TOWN, COUNTY and STATE COUPONS, &c., and buy and sell, ON COMMISSION, all MARKETABLE STOCKS and BONDS.

In our BANKING DEPARTMENT we receive deposits and remittances subject to draft, and allow interest, to be credited monthly, on balances averaging, for the month, from $1,000 to $5,000, at the rate of three per cent. per annum, and on balances averaging over $5,000, at the rate of four per cent.

FISK & HATCH.

Northern Pacific Railroad.

At a meeting of the stockholders of the Northern Pacific Railroad Company, held in this city on the 27th inst., the following gentlemen were elected directors for the ensuing year: Charles B. Wright, Frederick Billings, Johnston Livingston, Charlemagne Tower, Benjamin F. Cheney, George Stark, Joseph Dilworth, J. Frailey Smith, George W. Cass, Richard L. Ashurst, Alexander Mitchell, John M. Denison and Alfred E. Tilton. Votes were cast on stock representing $17,000,000.

At a meeting of the directors held subsequently, the following officers were chosen: President, Charles B. Wright; Vice President, George Stark; Secretary, Samuel Wilkeson; Treasurer, Geo. E. Beebe; General Counselor, George Gray.

A resolution was adopted instructing the Board of Directors to consider the expediency of authorizing the exchange of the lands of the Company on the Pacific coast for the preferred stock of the Company.

The Treasurer's report showed the receipts for the year to be $219,013 55; disbursements, $208,360 03, and balance, $10,653 52. The gross earnings for the year were $789,745 51; the operating expenses, $449,719 27; and the net earnings, $290,026 24. The net earnings for September, 1876, were $29,000; and car hire to July 31st, 1876, $5010 88; making the total net earnings of the road, $324,037 12.

☞ The Painesville and Southington Railroad Co., capital stock $450,000, by Francis W. Kellogg, filed a certificate of incorporation with the Secretary of State of Ohio on the 21st inst.

Redemption of 5-20 Bonds.

On the 21st inst., the Secretary of the Treasury made his fourth call of $10,000,000, for redemption, of 5-20 bonds of 1865, May and November, upon which interest will cease on the 21st of December next. They are as follows:

Coupon bonds—$50, No. 651 to 718, both inclusive; $100, No. 8,601 to 12,400, both inclusive; $500, No. 15,001 to 19,000, both inclusive; $1000, No. 35,951 to 46,850, both inclusive. Total coupon bonds, $7,000,000.

Registered bonds—$50, No. 1 to 50, both inclusive; $100, No. 1,101 to 1,650, both inclusive; $500, No. 1,401 to 1,810, both inclusive; $1,000, No. 3,701 to 5,750, both inclusive; $5,000, No. 2,301 to 2,900, both inclusive; $10,000, No. 3,101 to 3,950, both inclusive. Total registered, $3,000,000. Aggregate, $10,000,000.

It is expected at Washington that another call will be made before the 1st of October; and that the whole of the $300,000,000 new 4½ per cents will probably be placed before the 1st of March, and a corresponding sum of 5-20s of 1865 of both issues canceled.

☞ A statement has been published from Hon. John S. Duncombe, attorney for the Illinois Central Railroad, showing the effect of the Iowa law for the regulation of rates on the Iowa division of that road. Mr. Duncombe says that for the first four months, compared with the four months previous to the adoption of the law in 1875, there is a loss to the road of $114,000 by reason of these low charges. At the same rate the loss for the year will not be far from $350,000. He says: "How long the company can stand this has become a very serious question to the management."

☞ A dispatch from Chicago, of date September 22, says that through the medium of the Messrs. Seligman, of New York and Frankfort, the Rockford, Rock Island and St. Louis Railroad has been sold by the Frankfort Commissioners to the three Iowa pool lines of railroad, for $1,570,000, gold, payable in New York. The purchasing roads are the Chicago and Northwestern, the Chicago, Rock Island and Pacific and the Chicago, Burlington and Quincy. The road will be transferred about October 1.

☞ The Ohio State Journal says that the first 45 miles of the Columbus and Toledo Railroad, from Columbus to Marion, will be opened for business about the 15th of October. Tracklaying north of Marion is being pushed toward Upper Sandusky, there being about 15 miles to lay between those points. The track between Upper Sandusky and Fostoria is being ballasted with gravel from the latter place. From Fostoria the tracklayers have proceeded northward about 6 miles and are now within 29 miles of Toledo.

☞ The shareholders of the Galt and Guelph Railway Company have accepted the offer of the Great Western Railway Company of Canada to pay $10,000 for the acquisition of the property and franchises of the company—the money received therefor to be appropriated in such manner as the directors of the former company may elect.

☞ The directors of the Portsmouth and Dover Railroad Company have voted to issue $100,000 of new stock, the preference of taking the same being given to the present stockholders, virtually meaning the two cities.

Eureka and Palisade Railroad.

At the annual meeting of the stockholders of the Eureka and Palisade Railroad Company, held at Palisade, Nevada, on the 16th inst. the following directors were elected: D. O. Mills, Wm. Sharon, Isaac L. Requa, John A. Shaw, P. Everts and Edgar Mills. At a subsequent meeting Edgar Mills was elected President and P. Everts General Superintendent for the ensuing year. After the election the party went by special train to Eureka. The run of 90 miles was made in 2 hours and 20 minutes, or nearly 38½ miles per hour. This for a narrow gauge railroad is considered a most extraordinary speed and proves conclusively that the track and equipments are in the most perfect order.

Steel Rails.

S. K. Johnson, Esq., Superintendent of the Georgia Railroad Company, in his report for the year ending April 1, 1876, says:

In these days, when the rates of transportation of freight are continually going down, it is very important for managers of railroads to economise in all departments, and I think it advisable to compare the wear of steel rails with the iron which is being used at this time on Southern roads. It is claimed that steel rails will last over twenty years, whilst the iron used on Southern roads does not exceed an average over five years.

Steel rails only cost about twenty dollars per ton more than iron, and, with this slight increase in the price, are certainly much the cheapest in the end. We have purchased five hundred tons of steel rails, which will be laid down at an early day between Belair and Augusta.

☞ Judge Dillon in the United States Circuit Court at St. Louis on the 25th inst. rendered a decision in the suit of St. Louis county against the Missouri Pacific Railroad Company to determine whether the county has a lien on the railroad for $700,000 loaned to the company in 1865. The court, while not giving a final decision, held that the county's claim is secured; that it constitutes a lien or equitable charge.

☞ Articles of incorporation of the Oregon Pacific Railroad Company have been filed by H. Thielson and others. Capital stock $10,000,000. The route is: from Portland, through the counties of Multnoma, Clackamas, Wasco, Umatilla, Union and Baker, in Oregon, through Idaho, to the Union Pacific Railroad at or near Ogden in Utah.

☞ The Stevens point Journal says it is the intention of the West Wisconsin Railroad Company to suspend work on the main line as soon as Flambeau is reached. Thirteen miles of track are to be laid on the other end, and this will leave a gap of only eight miles to be completed next spring.

☞ The officers of the Boston Stock and Exchange Board, recently elected, are: President, Murray R. Ballou; Vice President, Henry E. Cobb; Secretary, F. A. Davis; Treasurer, Chas. D. Head; Standing Committee, Geo. W. Long, Robert F. Clark, E. Rollins Morse.

☞ The Virginia and Truckee Railroad is a broad gauge road, operating about 34 trains a day, extending southward from the Central Pacific Railroad at Reno, reaches Carson in about 31 miles, and ends at Virginia City, about 50 miles from the starting point.

Lehigh Coal and Navigation Co.

A correspondent of the Philadelphia Ledger writes as follows under date September 22, 1876:

Having a small interest in the stock of the Lehigh Coal and Navigation Company, I have made some examination of its late reports and of the leases of the Central Railroad company of New Jersey, and the information so obtained may be of value to some of your readers. According to the balance sheet of January 1st, 1876, the capital stock amounted to:

Capital stock		$10,248,550
Indebtedness	$16,138,066	
Deduct the amount assumed by the Central Railroad of New Jersey and Lehigh and Wilkesbarre Coal Company	3,604,000	
		$12,534,006
Total stock and debt		$22,782,556

At a revaluation made in 1871, the assets were estimated at $26,019,934, which would make the stock worth over par. The test of value, however, is the amount of the net earnings. This was made up in 1875 as follows:

Revenue from railroads	$1,059,548
Revenue from Nesquehoning tunnel tolls	8,702
Revenue from canal	200,000
Revenue from coal lands	500,000
Net profits on real estate sold	9 889
Miscellaneous receipts	60,935
Total	$1,849,085

The rent from the railroad is one-third of the gross earnings, and as the road is laid with steel rails the cost of maintenance is light and the operating expenses should not exceed sixty per cent. Those of the Lehigh Valley Railroad for 1875 were less than fifty four per cent. The rental in 1873 was $1,174,081 and in 1874 was $1,-128,433. The rent from the canal is a fixed sum and not excessive. The rent from the coal lands is not to be less than $500,000 a year, but if the royalty, calculated at twenty-one per cent. on the price of coal at Mauch Chunk, is less, the difference is carried forward as a credit on future payments, but in 1877, a minimum of 900,000 tons must be paid for, and in 1878, and thereafter, one million tons must be paid for. In 1875 the rental of $500,000 was $274,374 in excess of the royalty, but the profit on operating the railroad should have been nearly as much, while incidental advantages of getting the tonnage must more than make up the apparent loss on the rental. Should a receiver, therefore, be appointed for the Central Railroad Company of New Jersey of which there seems now to be no likelihood, it would be his duty as an officer of the court to protect his trust by continuing to make the payments stipulated in these leases, and there is no probability of any considerable falling off in the rentals, whatever may be the depression in the coal trade, and the general expenses and interest account have been greatly reduced since 1873. A bargain may very well be profitable to both sides, and "good bargains" usually are so, and while these leases were judiciously made on the part of the managers of the Lehigh Company they are still more essential to the interests of the Central Railroad Company, not merely because the business so secured is indispensable, but because it is necessary to have a line of communication to the coal lands of the New Jersey Company in the Wyoming region. No disaster, therefore, that may befall that corporation can more than temporarily affect the Lehigh Company, and in case the leases could be cancelled it might now be desirable to have it done. The Morris and Essex, the Belvidere Delaware, and the Easton and Amboy are all at hand to carry the coal to tidewater, and whereas these leases were negotiated at a time when the Lehigh Company was more or less embarrassed, a fact which reflects the greater credit on the officers by whom they were negotiated, at the date of its last annual report it had no floating debt and possessed unincumbered real estate worth $700,000 and personal property equal to $350,000. It should be able therefore, if necessary, to resume the management of its own property and to earn a revenue equal so that payable under its leases.

Description of the New 4 1-2 Per Cent Bonds.

The denomination of the new 4½ per cent bonds are: coupon, $50, 100, $500 and $1,000; registered: $50, $100, $500, $1,000, $5,000 and $10,000. Those for $50 bear the vignette of Oliver Walcott; those for $100 the vignette of Thomas Jefferson; those for $500 that of De Witt Clinton; those for $1,000, that of Alex. Hamilton; those for $5000 that of John Q. Adams, and those for $10,000 that of General George H. Thomas. All the bonds are printed on the special fibre paper; the coupon ones are somewhat larger than the old 5-20 or 10-40 bonds, as they have sixty coupons attached to them, instead of forty, like the old ones. There are two streaks of the blue fibre extending lengthwise of the bond, a portion of it covering each one, as separated from the bond will show the distinctive character of the paper upon which it is printed.

Upon the face of the bonds is a fine engraving of the Capitol building, on the right of which is the amount of the bond, executed in geometrical lathe work, surrounded by the words "principal and interest payable in coin of the Treasury of the United States," and upon the left the portrait above referred to. Over the engraving of the Capitol are the words "interest 4½ per cent. funded loan of 1891." Then follows below the words "The United States of America are indebted unto the bearer in the sum of $1000," the words "United States of America" being in large letters, and each letter thereof bears the same words very finely engraved, but brought out clearly with a magnifying glass. Then follows what is known as the story of the bond, which reads: "This bond is issued in accordance with the provisions of an act of Congress entitled an act to authorize the funding of the National debt, approved July 14th, 1870, amended by an act approved January 20, 1876, and is redeemable at the pleasure of the United States after the first day of September, A. D., 1891, in coin of the standard value of the United States, on said July 14, 1870, with interest in such coin from the day of the date hereof, at the rate of 4½ per centum per annum, payable quarterly on the 1st day of December, March, June and September in each year. The principal and interest are exempt from the payment of all taxes or the duties of the United States, as well as from taxation in any form by or under State, municipal or other local authority." Dated Washington, September 1st, 1876, and signed by the Register of the Treasury.

The border of the bond is composed of a series of scroll and generated lathe work artistically intertwined, so as to render counterfeiting difficulty if not impossible. The coupons, which are payable quarterly, bear a similar portrait to that on the bond; those payable upon the first and third quarters having such portraits upon the right, and those payable upon the second and fourth quarters having the portrait upon the left. The coupons also have a border of scroll work with the value of such coupon. Embraced in the scroll within the border are the usual words. "The United States will pay, &c.," and the date of maturity of the coupon. Each bond bears the large red seal and number on its face, and a corresponding number is upon each coupon attached.

Duxbury and Cohasset Railroad.

A letter to the Boston Journal from Middleboro', Mass., says a meeting was held in that place on the 20th inst. of the citizens of Duxbury, Kingston, Plympton, Plymouth, Middleboro', Lakeville, Wareham and New Bedford, interested in the extension of the Duxbury and Cohasset Railroad from Middleboro' to New Bedford, and then adds:

Hon. Stephen M. Allen of Duxbury was chosen Chairman and J. C. Sullivan of Middleboro' Secretary. Mr. Allen accepted the position with an address giving facts concerning the Duxbury and Cohasset Railroad and the situation of the people in relation to the road. They did not wish to sell, but to change their relationship, and if possible extend the road either to Middleboro' or through Pylmouth and Carver to New Bedford.

Col. George T. Stearns spoke at length of the road from Middleboro' to New Bedford, the situation of the people in relation to the existing roads, and stated that they desired to relieve themselves, but would not dare to act until they were certain that the enterprise of a new road would be successful. He also elaborated upon the prospects of developing an ice business from the ponds in Lakeville, and advocated a narrow gauge road either to Middleboro' or to connect, ten miles this side of Boston, with some main line.

C. G. Davis of Plymouth thought that a railroad to Middleboro' would be of great benefit, but could not see where the funds would be supplied from.

J. W. Pratt of Titicut appeared as an advocate of an air line from New Bedford, either to Titicut or Bridgewater.

H. B. McLaughlin corroborated the statements that had been made in favor of an extension of the Duxbury Railroad to Middleboro'.

Wm. Pekins of Plympton also spoke in favor of the same.

Mr. Beauhais, contractor on the Billerica and Bedford narrow gauge road, explained the general advantage of a narrow gauge road.

The meeting was one of general discussion, and was entered into by J. F. Wood, Noah C. Perkins, J. C. Sullivan, F. M. Vaughn and others of Middleboro', and S. N. Gifford of Duxbury. It was voted that a Committee of thirteen, with power to fill the vacancies or increase their number, be appointed to take into consideration the various plans this day discussed for the purpose of securing additional railroad facilities in Plymouth and Bristol counties, to decide upon some plan as shall be deemed best adapted to attain the desired end, and report at a subsequent meeting, to be called by them, to take such public action as they shall judge best.

The committee is as follows:

Duxbury—S. M. Allen and S. N. Gifford; Plymouth—C. G. Davis; New Bedford—Geo. T. Stearns and Samuel C. Hart; Middleboro'—J. C. Sullivan, Horatio Barron and Horatio Leonard; North Middleboro'—Jared W. Pratt; Plmypton—Wm. Perkins and H. B. McLaughlin; Lakeville; —Isaac Sampson and Sprague Stetson.

It was voted that this meeting hereby indorse the plan proposed of securing increased railroad facilities by the construction of a road from New Bedford and the extension of the Duxbury and Cohasset Railroad to Middleboro', and we pledge our united efforts to secure the consummation of the same. It was voted that the towns be requested to call a railroad meeting to take action on the subject.

☞ The Ohio State Journal says that the only work on the Ohio and Michigan Railroad in Ohio, has been to locate a mortgage line in nine different counties. This mortgage is for $15,000,000.

Wilkesbarre Coal.....100	3,400,000	M. & N.	Nov '69 4

The Coal Trade.

The coal tonnage for the week ending the 16th instant, as reported by all the companies, amounted to 467,048 tons, against 556,713 tons in corresponding week last year, a decrease of 89,665 tons. The total amount of anthracite mined for the year is 11,363,653 tons, against 13,467,921 for same period last year, a decrease of 2,104,868 tons. The quantity of bituminous coal sent to market for the week was 78,126 tons, against 93,875 tons for corresponding week last year, a decrease of 15,749 tons. The whole bituminous tonnage from the beginning of the coal year is 2,554 580 tons, against 2,616,054 tons in corresponding time last year, a decrease of 71,524 tons. The total tonnage of all kinds of coal for the week is 545,-174 tons, against 660,588 to corresponding date last year, a decrease of 105,414 tons, and the total tonnage for the coal year is 13,907,583 tons, against 16,083,975 tons to same date last year, a decrease of 2,176,392 tons. The quantity of coal and coke carried over the Pennsylvania Railroad during the last week was 91,889 tons, of which 77,438 tons were coal and 13,951 tons coke. The total carried this year is 3,056,698 tons, of which 2,433,809 were coal and 512,854 coke. This total embraces all the coal carried over the road, east and west. The total of coal received from the Lehigh Valley Railroad at Perth Amboy for the week ending on the 16th instant was 19,852 tons, the amount shipped thence amounting to 17,455 tons, leaving 76,127 tons on hand.—*Phila. Ledger, Sept.* 25.

Negotiations for the Construction of the Nicaragua Ship Canal.

The Nicaraguan route for the inter-oceanic ship canal between the Atlantic and Pacific oceans having been determined upon as most feasible, the arrival of Don Amelio Girard, the accredited minister from Nicaragua to this country, is anticipated with some interest by those who have devoted much time and attention to this work. Upon his return to Washington negotiations will be entered into between our government and that of Nicaragua, looking to the construction of the canal, and treatise will be proposed to the principal foreign powers, upon the general basis of the Clayton-Bulwer treaty of 1850, guaranteeing the neutrality of the canal, etc. That treaty is regarded as being liberal in its provisions, and only requires amplification to insure the construction of this great work in the interest of all powers. Prominent officials of the government who have been closely connected with the surveys for such ship canal, express the opinion that an undertaking of such magnitude could not be constructed by a private company of individuals, no matter how wealthy and well known, from the fact that many years must elapse before dividends could be declared, and it would require a capital of nearly $100,000,000 to complete it. The estimated cost is $65,722,137, but several practical engineers who have examined the route, express the opinion that the many obstacles to be encountered will increase it to nearly the first-named sum. At least five years' hard work will be required to complete the canal, and should it be constructed under the control of leading governments it is believed the work would not be delayed for want of funds to prosecute it. The total length of the canal by the Nicaraguan route will be about 61¾ miles. To this is to be added 63 miles slack water navigation by way of the San Juan river, and 56 miles across Lake Nicaragua, making the total distance from ocean to ocean by lake slack water navigation and canal about 180¾ miles. The proposed canal will have ten locks in the western division, including five locks at the Pacific coast, to admit ships at any stage of tide, each lock having a lift of about ten feet. In the eastern division, between Greytown and the mouth of the San Carlos river, seven locks will be required. From the mouth of the San Carlos river to Lake Nicaragua navigation in the San Juan river is entirely practicable with the three short sections of canal, each having one lock.

☞ The directors of the Gold and Stock Telegraph Company, elected on the 26th inst., are: William Orton, William K. Thorn, George Walker, Augustus Schell, Tracey R. Edson, James H. Banker, Norvin Green, Henry R. Pierson, George B. Prescott, William M. Bliss. The election of president and other executive officers will take place on Friday next.

☞ W. A. Burroughs, Esq., of Bridgeport, Conn., has been elected Treasurer of the New York, New Haven and Hartford Railroad Company, in place of John T. Shelton, deceased. Mr. Burroughs was assistant treasurer at the time of Mr. Shelton's death. He is thoroughly competent to fill the position.

MACHINERY.

FOR SALE—100 HORSE LOCOMOTIVE BOILER; 15 horse Wood & Mann; 10 horse Ames Portable Engines; 12, 20, 30, 50, 60 and 100 horse Stationary Engines; two Blake's Crushers, 15×9; two Steam Hammers, complete set Forge Tools, for car axles and heavy forgings. GEO. M. CLAPP, 206 Broadway. 4t39

How to Revive Railroad Building.—No. 2.

The JOURNAL persists in the declaration that a revival in railroad building, as a means of developing the resources of the country, is an indispensable preliminary to the restoration of commercial prosperity throughout the land. On every side we see the evidence of this truth. We are told that in the single State of New Hampshire there are two thousand deserted farms. Now this State is one of the "original thirteen." It was one of the earliest settled, and had reached a good degree of prosperity when a large portion of the great States of New York and Pennsylvania were yet in the hands of savages—a howling wilderness—and the Far West was an unknown land. There are no natural causes sufficient to explain the decay of New Hampshire. Her position, though well to the northward, is yet on a parallel with some of the most prosperous parts of Michigan, Wisconsin and Minnesota; and, under the genial influence of the Gulf Stream, her climate is milder, her valleys are unsurpassed in fertility, and manufactures have been developed within her borders to a very liberal extent. Why, then, has she ceased to prosper? Why are her farms deserted? her villages delapidated? her cities slow of growth? Because, without natural means of inter-communication, her railroad system has not been developed, and a large portion of her people are, practically speaking, farther removed from the commercial centres, and from all that makes civilization attractive, than if living in the more remote of the Western States. This should not be. It need not be much longer, if a reasonable, just and enlightened policy in relation to the work of prosecuting internal improvements be adopted by the Government at Washington. New Hampshire, as one of the original thirteen States, has a direct and positive interest in and title to the public lands acquired by the General Government. She has seen these public lands appropriated in a manner calculated not only to check her natural growth, but to divert from her the population which she had. Therefore the cry goes up, that two thousand of her farms are deserted. And the inquiry is pressed, how shall she be rehabitiated? Now, her share as a small State in the proceeds of the sales of the public lands would be but a comparatively small sum; but in the course of ten years it would be a considerable aggregate; and every dollar so voted would be the basis of ten dollars in credit; and the two resources would give such an impetus to the building of lateral and local railroads in the "old Granite State" that she would enter upon a new era of prosperity—her mountain streams teem with manufactures, her valleys blossom with verdure, and all her natural elements of greatness receive their full development. To promote these desirable ends—not only in New Hampshire but in all the older States—requires but the direction of the public mind and the law-making powers to some practicable means; and we hope to receive the aid of the press generally in the work.

☞ A dispatch from St. Louis says that the United States Circuit Court has confirmed the recent sales of the Missouri Pacific and Atlantic and Pacific Railroads which it is understood cuts off all claims of stockholders.

Meaning of the Term "Articles in Bulk."

The following Circular, defining the meaning of the term "Articles in Bulk," and designating Railroad and Bar Iron, under certain conditions, as entitled to the privilege of immediate transportation to an interior port without appraisement, has been issued by the Secretary of the Treasury:

TREASURY DEPARTMENT,
WASHINGTON, D. C., Sept. 25, 1876.

TO COLLECTORS OF CUSTOMS AND OTHERS:—

Questions having arisen at some of the principal ports relative to the meaning of the term "articles in bulk," as used in the twenty-ninth section of the act of July 14, 1870, and in section 2,990 of the Revised Statutes, relative to the entry of dutiable merchandise for immediate transportation to an interior port without appraisement, the following general rules are prescribed for the information and guidance of officers of the Customs:—

First—The commercial significance of the term "in bulk"—viz, that it has reference to such articles as are usually packed or stowed in the importing vessel in a loose state as contradistinguished from "package goods" or those enclosed in boxes, barrels, bundles and the like—is, in view of the intent of the act referred to deemed by the department as necessarily qualified by the condition annexed to the privilege by the terms of the act itself—viz. that such an examination of the merchandise may be made as will satisfy the Customs officers that the same corresponds with the manifest and invoice.

Second—While, therefore, the department holds generally that only such merchandise as is either enclosed in boxes, barrels or other outside covering, or wrappers duly marked and numbered, or put up in separate and distinct bundles or packages also duly marked and numbered in such a manner as to admit of satisfactory identification, is entitled to the privileges of the act, it, nevertheless, reserves the right to designate from time to time such particular articles commonly shipped in bulk as may, under suitable conditions, be deemed fairly within the scope and intent of the act.

Third—In accordance with the views above expressed the department hereby designates railroad and bar iron, when the number of rails and bars is duly specified in the consular invoice and found on examination to be correct, as entitled to the privilege of immediate transportation as aforesaid; provided, however, that there shall not be any noticeable disparity in the size and weight of the respective rails or bars.

L. M. MORRILL, Secretary.

Centennial Awards to Exhibitors of Railway Appliances.

The following is a list of the exhibitors of railway appliances in group XVIII, to whom awards were made by the Centennial authorities on the evening of the 27th ult.:

1. Brooks Locomotive Works, Dunkirk, N. Y., Locomotive and Tender.
2. Porter, Bell & Co., Pittsburgh, Penn., Locomotive Engine.
3. Burnham, Parry, Williams & Co., Philadelphia, Penn., Locomotives.
4. Dickson Manufacturing Company, Scranton, Penn., Passenger and Mine Engines.
5. Philadelphia and Reading Railroad Company, Reading, Penn., Locomotives.
6. Rogers Locomotive and Machine Works, Paterson, N. J., Wood-burning Locomotives.
7. Danforth Locomotive and Machine Co., Paterson, N. J., Locomotive and Plantation Engine.
8. New York Central Railroad Company, New York, Postal Car.
9. Pennsylvania Railroad Company, Altoona, Penn., United States Postal Car.
10. Creamer & Co., New York City, Car Fittings, Trimmings, etc.
11. Baker, Smith & Co., New York, Railway Car Heater.
12. Post & Co., Cincinnati, Ohio, Car Fittings, Trimmings, etc.
13. Pullman Palace Car Company, Chicago, Illinois, Hotel, Parlor and Sleeping Car.
14. Jackson and Sharp Company, Wilmington, Del., Passenger, Boudoir and Library Cars.
15. Wason Manufacturing Company, Springfield, Mass., Passenger Car.
16. Westinghouse Air Brake Company, Pittsburgh, Penn., Westinghouse Automatic Air Brake.
17. Union Car Spring Company, Conn., Car Springs.
18. Hamilton Steeled Wheel Company, Philadelphia, Penn., Chilled Car Wheels.
19. Davenport, Fairbain & Co., Erie, Penn., Chilled Cast Iron Wheels.
20. Nichols, Pickering & Co., Philadelphia, Penn., Steel Springs.
21. McKee & Fuller, Catasauqua, Penn., Railroad and Mine Car Wheels.
22. Washburn Car Wheel Company, Hartford, Conn., Steel Tired Car Wheels.
23. Cayuta Wheel and Foundry Company, Waverly, N. Y., Chilled Wheels.
25. Barnum, Richardson & Co., Salisbury, Conn., Cast Chilled Car Wheels.
26. Baltimore Car Wheel Company, Baltimore, Md., Chilled Cast Iron Wheels and Tires.
27. Culmer Spring Company, Pittsburgh, Penn., Spiral Springs.
28. A. French & Co., Pittsburgh, Penn., Railway Elliptic Springs.
29. N. & A. Middleton & Co., Philadelphia, Penn., Godley's Improved Spiral Springs.
30. Ramapo Wheel and Foundry Company, Ramapo, N. Y., Chilled Cast Iron Wheels.
31. American Paper Car Wheel Company, Hudson, N. Y., Wheels of Compressed Paper.
32 A. Whitney & Sons, Philadelphia, Penn., Chilled Cast Iron Wheels.
33. Samuel Louis Harrison, San Francisco, Cal., Railroad Axle-independent Wheels.
34. Pennsylvania Steel Company, Philadelphia, Penn., Railway Switches.
35. Wm. Wharton, Jr., Philadelphia, Penn., Bessemer Steel Grooved Railway Curves, etc.
36. Wharton Railway Switch Co., Philadelphia, Penn., Safety Switch with Unbroken Track.
37. Pennsylvania Railroad Company, Altoona, Penn., Railroad Track.
38. John Stephenson Company, New York, Street Tramway Cars.
39. J. M Jones & Co., West Troy, N. Y., Street Car for Two Horses.
40. J. G. Brill & Co., Philadelphia, Penn., Street Cars for Horses.
41. S. G. Reed, Boston, Mass., Apparatus for Heating Locomotive Tires.
42. Mason Locomotive Works, Taunton, Mass., Locomotive Engine.
43. Bruin Brothers, France, Rive de Gier, Wheels forged by Hydraulic Pressure.
44. Lucien Arbel, France, Rive de Gier, Forged Iron Wheels.
45. Carl Ekman, Sweden, Railway Wheels.
46. Surahammars Works, Sweden, Surahammars, Railway Wheels and Axles.
47. Fagersta Iron and Steel Works, Sweden, Axles and Springs.
48. A. de Mare, Ankarstum Works, Sweden, Railway Crossing, Chilled Cast Iron.
49. Harold Apslund, Sweden, Locomotive Engines.
50. Glockner Brothers, Germany, Tschirndorf, Block for Car Brakes.
51. Saxby & Farmer, Great Britain, London, Holburn, Railway Signals, Switches, Crossings, etc.
52. Brierly, Sons & Reynolds, Gt. Britain, London, Hyde Park, Railway Signals, Switches, etc.
53. Aveling & Porter, Great Britain, England, Traction Engine.
54. Toronto Car Wheel Company, Canada, Car Wheels of Chilled Iron.
55. McDougall & Co., Montreal, Canada, Car Wheels of Chilled Iron.
56. J. B. Fonder, Belgium, Lock for Railway Carriages.
57. Valere Mabille, Belgium, Wrought Iron Buffers with Volute Springs, Couplings, etc.
58. Frederick Krupp, Germany, Essen, Wheels, Axles, Rails, Springs, Frogs, etc.
59. Camozzi & Schlosser, Germany, Frankfort, Self acting Instrument for Verifying the Gauge and Measuring the Relative Level of the Rails.
60. Paul Kunzinger, Austria, Vienna, Self-acting Couplings, Brakes, and Buffers.
61. Emil Tilp, Austria, Vienna, Connection between Locomotive and Tender for Reducing Lateral Motion.
62. Abookoff Steel Foundry, Russia, St. Petersburg, Railway Wheels, Tires, and Axles.
63. Rosseau Railway Signal Company, New York, Electric Railway Signal.
64. Sankviken Iron Works, Sweden, Railway Wheels and Axles.
65. Societe Anonyme des Ateliers, Belgium, Louvain, Car Wheels.
66. Societe Anonyme des Laminoirs, Hainaut, Wrought Iron Railway Wheels.

The Central Railroad of New Jersey Five Million Loan.

The Central Railroad Company of New Jersey, for the purpose of raising money, have made 5,000 bonds, bearing date the 1st of September, 1876, for $1,000 each, payable to Samuel Knox or bearer, the principal of said bonds being payable at the office of the company, in the city of New York, on the 1st of September, 1886, and interest upon said bonds at the rate of 7 per cent. at the office of the company, semi-annually; and to enable them to negotiate the said bonds and to secure the repayment of moneys which shall be raised thereby, have mortgaged their road, lands, privileges, franchises and appurtenances, and other personal property, to Samuel Knox of Elizabeth, and John Kean of Union. The mortgage has been filed in all the counties through which the road runs in New Jersey, and conveys the main line of road from the Hudson river to the Delaware river, in the county of Warren, the Newark and New York Railroad to Newark, and the branch from Elizabeth to Perth Amboy; also, all the company's lands, right of way, bridges, wharves, piers, ferries, workshops, machinery, station offices, station grounds, engine houses, buildings, and improvements; also, 10,000 shares of the capital stock of the New York and Long Branch Railroad Company, at the par value of $1,500,000; 132,000 shares of the capital stock of the Lehigh and Wilkesbarre Coal Company, at a par value of $6,600,000; 8000 shares of the capital stock of the High Bridge Railroad Company of the State of New Jersey, at a par value of $800,000; 2000 shares of the capital stock of the Longwood Valley Railway Company, at a par value of $200,000; 30,000 shares of the capital stock of the American Dock and Improvement Company, at a par value of $3,000 000, which is subject to an equitable lien of $3,000,000; also ten ferry and other steamboats.

United States Currency.

The amount of United States currency outstanding on the 30th of September was as follows: old demand notes, $66 732; legal tender notes, new issue, $26,338,102; legal tender notes, series of 1869, $217,674,753; legal tender notes, series of 1874, $59,650,421; legal tender notes, series of 1875, $64,831,464; one year notes, 1863, $60 015; two year notes, 1863, $18,550; two-year coupon notes, 1863, $24,650; compound interest notes, $323,240; fractional currency, first issue, $4 294,740; fractional currency, second issue, $2,116,873; fractional currency, third issue, $3,065,301; fractional currency fourth issue, first series, $4,023,127; fractional currency, fourth issue, second series, $1,060,081; fractional currency, fourth issue, third series, $1,601,934; fractional currency, fifth issue, $12,696,356; total, $398,846,343.

Pullman Palace Car Company.

The revenue and disbursements of this company for the fiscal year ending July 31, 1876, were as follows:

REVENUE.

Earnings	$1,989,439	18
Our proportion of earnings of other sleeping car associations controlled and operated by this company	552,894	68
	$2,542,333	86
Patent royalties	12,677	50
Total revenue	$2,555,011	86

DISBURSEMENTS.

Operating expenses, taxes and insurance	$623,764	94
Maintenance of upholstery and bedding	175,878	17
Our proportion of operating expenses and maintenance of upholstery and bedding in cars of other sleeping car associations controlled and operated by this company	190,567	74
	$990,210	85
Rental of leased lines, (Central and Southern Transportation Cos.)	284,000	00
Profit and loss, including interest, discount and exchange	33,003	87
Coupon interest on bonds $197,265 34		
Dividends on capital stock 526,578 00		
	723,843	34
Total ordinary disbursements	$2,031,058	06
Surplus for the year—being excess of revenue over ordinary disbursements	$523,953	80
Amount expended in rebuilding and remodeling 14 old style cars into the latest standard Pullman car and re-equipping the same for service under new contracts	42,405	71
Balance of surplus for the year carried to credit of income account.	481,457	59
Total, as above	$2,555,011	86

FINANCIAL STATEMENT, JULY 31, 1876.

ASSETS.

451 Cars and equipments, including franchise, cost		$8,843,270 55
Construction material and operating supplies, including amount paid on cars in process of construction	420,297 92	
Car works at Detroit, cost	341,370 48	
Patents, cost	149,364 77	
Furniture and fixtures in the several offices of the company, 52 in number, cost	62,442 65	
Estate, No. 506 Michigan avenue, cost	21,901 66	
Amount invested in other car associations, controlled and operated by this company	2,303,657 69	
Cash on hand	25,484 57	
Total assets		$11,667,790 29

LIABILITIES.

		2,806,248 30
Total, as above		$11,667,790 29

Railroad in St. Domingo.

The establishment of railroad communication between the towns of Monte Cristo and Santiago, in the island of St. Domingo—the former being the well-known seaport—is attracting attention among several leading capitalists of this city. The length of the road, as projected, will be about eighty miles, passing over a level tract of country. The new road will open transit to the sea coast for valuable dyewoods, mahogany and other products heretofore unable to be transported to a port of shipment. In addition to this the main portion of the traffic of the island will have to pass over this route. A well known engineer has already surveyed the route, and pronounces the plan feasible, and believes that if the road were built it would be highly remunerative. Mr. Crosby, of this city, who has lately built a large wharf and tramways in Puerto Plata, and which have proved wonderfully successful enterprises, is largely interested in the new railroad undertaking.

Philadelphia and Reading Railroad.

The Philadelphia Ledger says that the aggregate sales of Philadelphia and Reading Railroad stock on Monday amounted to 16,000 shares, opening at 25 and selling steadily down to 19⅞, and then adds:

Without pretending to offer any opinion as to the worth of the stock as an investment, or as a venture to carry, we may safely caution against a blind following of what may prove mainly a "bear" crusade. As we said a few days ago, the Reading Railroad Company owns a most extensive and valuable property, costing over 90 millions of dollars. We can now state, in addition, that its business for the month of September, just ended, footed a coal tonnage of 633,573¼ tons and a merchandise tonnage of 226,000 tons. It carried in the same time 1,400,000 passengers, and during "Pennsylvania Day," to and from the Centennial Exhibition, 186,000 passengers, an achievement probably unequalled by any other railroad in the world. These surprising movements show the wonderful capacity of the company as well as the immense general business at its command. The payments of the company on Monday, the first business day of the third quarter of the year, were $382,140 of interest on Reading Railroad bonds, $178,724 for account of rents of leased lines, $224,000 on sinking fund drawn bonds improvement mortgage, $25,000 in interest on branch railroad bonds, $119,000 on Reading Coal and Iron Company bonds, and $156,000 principal of bonds on coal lands due—these several items, with certain miscellaneous disbursements incident to the day and to the business of the office, swells the aggregate payments to $1,269,000. This day's work indicates a vitality of much endurance, a property of great value to its owners and of unmeasured usefulness to the entire community interested in fuel and in general transportation. Let *bona fide* holders sell the stock, if so inclined—we never venture advice on such a subject—but don't do it blindly.

Steam Motors on Street Railways.

The little steam engine with car attached ran over the line of the Citizens' Passenger railway morning and evening yesterday, taking up and letting out passengers as on the other cars of the line. The novelty of steam on the street car lines attracted much attention. In the morning Mr. Hagerty, president, and several directors went over the route, and they expressed themselves satisfied. Some little difficulty was experienced in rounding short curves, on account of the flanges of the wheels being a little large, but that is a matter easily remedied. On the steep grades more noise was made than desirable, but this, it is said, will be regulated by enlarging the condenser and by using harder coal. Horses on the streets were not frightened to any great extent. It is claimed that after the steam engine is used for a little while horses on the street will become accustomed to it and will not be frightened. The company will take some time to test the advantages of the new motor in all its bearings, as to public safety, cheapness, practicability in crowded streets, &c., before finally determining to order others. If it should be decided to employ steam motors for all the cars on all the street lines, Baltimore would certainly be a very different looking city from what it is now.—*Balt. Sun, Sept. 29.*

North Wisconsin Railroad.

At a meeting of the North Wisconsin Railroad company, held on the 27th ult., the following gentlemen were elected directors: D. A. Baldwin, Jacob Humbird, J. A. Humbird, I. Graves, A. H. Baldwin, J. B. G. Roberts, H. A. Taylor, J. C. Spooner and A. L. Clarke. At a subsequent meeting of the directors the following officers were chosen: President, John A. Humbird; Vice President, D. A. Baldwin; Secretary and Treasurer, A. J. Goss; Land Commissioner, William Dwelly. Owing to injunctions preventing the company from selling lands, and other troublesome litigation no work has been done on the road this year, but the company is prepared just as soon as the suits are disposed of, which it is expected will be in a short time, to proceed at once and vigorously, with the work of construction.

Louisville, Cincinnati and Lexington R. R.

The holders of the First Mortgage bonds of this company have concluded an agreement for the purchase of the road and the reorganization of the company. It provides that George L. Douglass, of Louisville, and E. D. Sayre, of Lexington, Ky., shall be agents and trustees to carry out the agreement. They are authorized to buy the road at the foreclosure sale, which is to take place December 4, at a price not to exceed the amount of the first mortgage bonds and accrued interest and liens prior thereto. They are to issue stock of the new company, which shall be held by the bondholders in proportion to their present bondholdings. The corporation shall have power to use net earnings of the road to pay instalments of purchase money; also, to execute a new mortgage and borrow money thereon. No assessments shall be made on the stock after the purchase money is paid. The agreement shall not be binding unless signed by holders of $1,500,000 of bonds. The trustees are authorized to receive money subscriptions to the stock of the new company, provided $1,500,000 bonds are not deposited by November 25; such money subscribers to pay in 20 per cent of their subscription in cash. An advisory committee is appointed, consisting of John W. Barr and John Churchill, of Louisville, and M. C. Johnson, of Lexington, with power to assist the trustees in their work, to decide in case of a difference of opinion between the trustees and to fill vacancies, should any occur.

☞ The Lehigh and Wilkesbarre Coal Company has resumed work, with a full force on full time, at all its collieries. Large sales of coal have been made by the company to iron manufacturers on the Lehigh, who are putting their furnaces into blast, and the daily shipments on the New Jersey Central aggregate 15,000 tons. About 15,000 men are employed by the company, and the resumption of mining, together with a recent payment to the men, has brightened business in the Wyoming region.

☞ The recent sale of the Ithaca and Athens Railroad and purchase by the Lehigh Valley Railroad Company has been confirmed by the court, and preparation will now be made for the payment of the coupons deferred while the proceedings of foreclosure were pending. The sale of the Geneva and Ithaca Railroad to the same parties, has not yet been approved, objections having been interposed.

☞ The Chancellor of New Jersey filed in the Chancery Clerk's office on the 2d inst. an order refusing the injunction to restrain the New Jersey Central Railroad Company from selling, negotiating, or otherwise disposing of any of the 5,000 bonds mentioned in a bill filed by Obed H. Anderson.

South Carolina Railroad.

The earnings of this road for the years ending December 31, 1874 and 1875, were as follows:

	1874.	1875.
From passengers	$226,016 06	$229,221 30
" freight	1,121,779 95	981,905 44
" mails.....	18,176 10	18,176 10
	$1,365 972 11	$1,229,302 84
Expenses, viz:		
Conducting transp.....$294,528 01		$260,309 97
Motive power.....	220,224 57	199,730 59
Maintenance of way...	211 104 45	208,041 86
Maintenance of cars...	81,310 13	66,858 73
General expenses..	43,348 26	45,487 24
	$850 515 42	$780,727 89
Net earnings $515,456 69		$448,574 95

Compared with 1874, the gross earnings show a decrease of $136,669 27, equal to 10 per cent; the expenses a decrease of $69,787 53, equal to 8.2 per cent; and the net earnings a decrease of $66,881 74, equal to 12.975 per cent. The ratio of expenses to earnings in 1875 was 63.50 per cent; in 1874 it was 62.26 per cent.

The number of passengers carried during the year was 158,735, of whom 79,919 were 1st class, and 78,816 2d class.

The tonnage movement of the year has been as follows: moved east, 138,492 tons; moved west, 123,188 tons—total, 261,680 tons, against 270,278 tons in 1874, a decrease of 8,598 tons. The average receipt from freight per ton was $3 75; last year it was $4 15. The average cost of moving same per ton was $2 24; last year it was $2 36. The decrease in tonnage eastward was 13,181; while the tonnage westward increased 4,583. The receipts from freight moved east were $522,308 09; do. west, $459,597 35—a decrease in the former of $131,568 79; and in the latter of $8,305 72, or a total decrease of $139,874 51. The increase in passenger business was $3,205 24. The President in his report says:

The language of the board in this connection last year, might here be almost literally repeated. The comparatively unfavorable results of the year's business are clearly due to the deep and wide-spread depression of all industries which, put in motion by the panic of '73, has grown to dimensions entirely unanticipated, and at present continues apparently unyielding to the influence ordinarily exercised during financial disturbances.

But whilst we cannot point to any particular cause of satisfaction at the prospect of the year before us, we are obliged to believe that the full force of these adverse circumstances has been spent, and that though our progress may be slow for a while, perhaps stationary, the point of improvement cannot be far distant.

And the facts which the tables exhibit, amply sustain this view. We there see that the freight earnings of the present year are $139,874 51 less than those of the preceding year. Of that sum we find that $131,568 79 is apportionable to down or eastward, and $8,305 72 to up or westward freight. Now if we examine the table which shows the movement of the various articles transported during the year, it will appear that in comparison with last year, we have moved 47,541 bales cotton, 14,314 barrels flour, 46,651 bushels grain, and 6,003 packages mdz. and naval stores, etc., less.

If to these several quantities we apply a moderate average of our standard tariff rates, we will have obtained in round figures a sum little below $60,000, on account of the deficiency of east bound business, nearly one-half of that deficiency.

Again: as to west bound business:

The tables show an increase of tonnage 4,583 tons, and a decrease of earnings of $8,305 72.

This maintenance of tonnage in the comparison of the west bound business of the two years is due, first, to the fact of an increased movement of fertilizers, 4,874 tons; and, second, to a very heavy diversion of western produce from the Green Line route via Baltimore and Charleston, created by the contest between the Baltimore and Ohio and Pennsylvania Railroads during the year. But for these causes there was sufficient reason for expecting a decrease of the movement of this division of our freight business more nearly corresponding to the decrease of east bound business. And the point we have sought to make more strikingly exhibited is that the deficiency of the year's business was not wholly or chiefly due to the general depression which pervades the country, but in great part to a cause of great potency, but, happily, accidental, and temporary in its character—short production, aggravated unquestionably, by the reduced rates of an unwise competition.

It is gratifying again this year to observe conspicuously prominent a feature of our business which in our last report afforded us just ground of encouragement. We refer to the large proportion of the local to the general business of the company in comparison with the through. In the illustration which follows: the relation of that portion of our business will be found even more satisfactory than was shown in 1874:

Total freight moved west from all points in 1875....		$432,304 92
From Charleston (local)....		281,002 00
Through freight....	$151,302 92	
Total freight moved east..	$498,066 72	
To Charleston (local)....	414,508 39	
Through freight....	$83,558 33	
Total freight moved east and west...	$930,371 64	
Total Charleston, to and from (local).	695,510 39	
		$234,861 25
Total freight moved west, and from all points, in 1874....		$467,903 07
From Charleston....		285,898 22
Through freight....	$182,004 85	
Total freight moved east from all points in 1874....	$653,876 88	
To Charleston (local)....	408,536 75	
Through freight.	$145,340 13	

In a condensed shape the following results appear:

	1874.	1875.
All freight west. $467,903 07		$432,304 92
Do. do. east.....	653,876 88	498,066 72
Charleston local (west)	285,898 22	281,002 00
Do. do. (east)	408,536 75	414,508 39

Showing that whilst there has been a considerable decline in the business passing through Charleston, the business beginning and ending in the city has been fully maintained.

The zeal of the General Superintendent in the direction of bringing the expenses of operating the road to the lowest minimum consistent with the maintenance of a fair average condition of the property and a safe and satisfactory performance of service, has been quite as marked this as the previous year, and the board has no doubt that all which seemed practicable and proper has been accomplished. It will be remembered that up to a well advanced period of the year the prospect of a large cotton crop was most promising, and naturally the importance of being in good condition to move it was not without some influence upon the management of the department.

Since then, however, all speculative views have been thrust aside, and the expenditures of the operative departments subordinated to actual present positive necessities, already enough has been done in the matter of reduced force, reduced pay and reduced prices of material, to warrant the conclusion that a saving of fully $70,000 more may be made on the earnings basis of 1875.

It is only fair to this department to state that, whilst its ratio of expenses to earnings may not be quite as low as some neighboring roads, the fact may be thus accounted for.

1st. Our "expenses" comprehend every item of expenditure for and on account of track, machinery, cars and structures of every description, which is not the practice of all railroads.

2d. That some of the roads with which comparisons may be made, under a most lavish scale of expenditure, have been put in a condition to enable transportation to be carried on, almost to the disuse of their shops, whilst the South Carolina Railroad, maintaining only a fair average condition, cannot be operated for twelve months upon so scant a basis, nor will it be found in the end that any other road can, save under the exceptional circumstance referred to.

The balance of earnings as before stated is....	$448,574 95
Add incidental income....	1 431 14
	$450,005 09
Against this sum are charged Interest on First mortgage Sterling bonds and premium on remittance.....$103,034 31	
Do. on First Mortgage Currency bonds	67,180 00
Do. on Second Mortgage bonds..	60,270 00
Do. on Non mortgage bonds, bills payable	207,893 87
	$438,328 18
Balance transferred to profit and loss.	$11,677 90

As doubtless anticipated, the reduced earnings of the road during the year have not furnished the Treasurer any surplus for application to the reduction of the debt. Indeed, it is rather matter of congratulation, whilst railroad companies in high standing around us have been compelled, during the past year, to pass their dividends on bonds and stocks, that, in the face of the adverse circumstances of great general depression, most active competition, and short crops, we have been able to meet all of our obligations with promptness, and without unusual effort.

The Treasurer's tables show an increase of the bills payable, given in settlement and for purchases.....$128,159 06	
And an increase of the bond debt from sales First Mortgage bonds, and sale and exchange of Second mortgages	$81,000 00
But the general indebtedness has only been increased....	$63,286 12

It has borne with peculiar inconvenience upon the operations of the treasury, to have been called on early in the year to arrange for the large accumulations of several years' taxes, which under a compromise with the State Government were agreed to be paid at moderate intervals, but all within the year. Of course, the amount, which was quite large, had to be furnished through the "bills payable," and to that cause mainly may be attributed the increase, just now referred to, of that amount. But the arrangement itself, in view of the decree of the U. S. Court, has been regarded eminently judicious as well as a matter of policy as of its details.

In considering the report of the Treasurer at this date last year, the board felt warranted in entertaining expectations of increased ease in the money market, and consequent improvement in the value of our securities. Then and subsequently, but only for a brief period, all the indications supported that view; but, as the year advanced, every fresh instance of weakness abroad reacted upon the susceptibility of capitalists, and though money is abundant, and its price not unusually high, its circulation is restricted to narrow limits, and general values remain unimproved from the absence of any speculative tendencies.

Were it otherwise, our securities, in the face of the large excess of road earnings, over what is needed to pay the interest upon them, could not possibly remain at their present low figures.

We are again, this year, without direct profitable returns from our steam ship connections. But their value has been of essential consequence in maintaining our competitive ability at all import-

ant points, and though our pecuniary interest in the various lines which perfect our connection with Eastern cities is not equal to that of other parties in the same lines, we have never been without their cordial assent to, and co-operation with, any policy the railroads in connection with them have regarded as most conducive to the general benefit.

On the other hand, we repeat with great satisfaction the commendatory language we were, last year, justified in using with reference to the Greenville and Columbia Railroad. In spite of all the difficulties which, in common with the railroads of the Southern country, it has had to contend with, and in its own case, the superadded one of a greatly reduced production of the territory which is tributary to it, the net result of its operations for the year 1875 shows a falling off of only the comparatively trifling sum of $10,310.

Since the close of the year, a personal inspection by the President justifies the report of the Superintendent, in that the physical condition of the property has greatly improved since it passed into the control of the South Carolina Railroad Co.; and, if we can only rely upon the management of the Air Line Railroad Co., the only line now in competition, for an observance of the most ordinary rules which govern roads or persons in the management of competitive interests, we feel little apprehension of our ultimate success in accomplishing for the South Carolina Railroad not only a most valuable contribution to earnings, but a profitable return for investments in the Greenville and Columbia Railroad.

Whilst the board earnestly wish that the review of the operations of the year just passed had exhibited more profitable results than have been shown, yet they are as free from discouragement now, as on previous occasions, when, indulging in sanguine anticipations of future improvements. In the retrospect of the year, the stockholders will not fail to find in the peculiar circumstances which mark it, most potent causes of diminished business: prostrate trade—bitter competition—reduced production—forces, whose power in combination was obliged to exercise unfavorable influence upon Railroad interests. But these, with one exception, are essentially temporary in their character. Trade cannot remain down; a failure of crops is not an ordinary occurrence; and there remains then, only the unwise management of competing lines to annoy us in our policy, and affect us in our earnings. This, too, in the very nature of things, cannot continue. The real owners of the lines, whose mischievous conduct, at times, wholly demoralizes the business of transportation, and seems to make sport of the injury inflicted upon others, without regard to the reaction upon themselves, cannot submit much longer to the reckless waste of the millions they have invested in these properties. The sober, sensible management of men, who pecuniarily suffer from these unwise conflicts, must very soon succeed to the reign of recklessness and folly, too conspicuous of late, not to attract attention and excite alarm. Then we will have a right to expect a policy and a management, which, looking to the interests of each, will assure the interests of all; and make a new departure for railroads in the direction of some profitable returns for their owners.

The year just closed has been one of unmixed cares and oppressive anxieties to the board. They have labored with all of their ability and with unflagging zeal for the accomplishment of the best results for the company.

It has been a year of unusual hardship upon the railroad interest of the country, ever responding with quick sympathy to unfavorable conditions of other industries.

Everywhere extraordinary depression affords conspicuous evidence of the strength of the forces which have been working. We had to bear our share. However desirable that it should have been otherwise, it would not have been reasonable to expect immunity, when all around us were suffering. But that share the stockholders will find moderate, in a comparison with some even of the best and strongest companies of the South, far and near.

The year we have entered upon, whilst it does not give promise of additional business, does afford very satisfactory grounds for the expectation of considerable improvement in net results. The large reduction of the working expenses of the road—the altered policy of the board, which, for the present, will regard more the minimum cost of operating, and less the providing facilities for a more extended business—and the utilization (with a view to the reduction of the floating debt and interest) of every dollar of property not absolutely needed for the present accommodation of business—these are agencies, we feel confident, to be relied upon for decidedly beneficial results.

The company have 44 locomotives, 23 first-class and 26 second-class passenger, mail and baggage cars, 409 box, 14 stock and 124 platform, wood and coal cars. Miles run by locomotives with passenger trains, 202,582; with freight trains, 536,254; distributing, 70,087; switching, 79,869—total, 888,792, against 857,270 in 1874, an increase of 31,522.

CONDENSED BALANCE SHEET, December 31,

Gen'l Superintendent.—S. S. SOLOMONS.

Treasurer.—J. H. WILSON.

Auditor.—J. R. EMERY.

Buffalo and Jamestown Railroad.

A dispatch dated Buffalo, September 30, says that "a suit for the foreclosure of a mortgage for $2,500,000 has been instituted against the Buffalo and Jamestown Railroad Company and everything pertaining to it by the Farmers' Loan and Trust Company of New York, representing the holders of the bonds issued by the company in the year 1863. One million dollars of the capital stock, paid up, is owned by the City of Buffalo, and about half a million by the towns through which the road passes, and the remainder by individual stockholders in this city. It is represented that on the payment of the interest the bondholders would willingly withdraw the suit. The difficulty in the way is that the city cannot contribute the necessary twenty per cent. without an enabling act which cannot be obtained until the meeting of the Legislature. A Receiver of the road will probably be appointed next week."

According to the Report of the State Engineer and Surveyor for the year ending September 30, 1875, the entire bonded indebtedness of the company was only $1,100,000, and the total amount of capital stock paid in $1,156,907 50.

☞ Work on the Wheeling and Lake Erie Narrow Gauge Railroad has been commenced between Milan, Erie county, and Norwalk, Huron county, Ohio. A large force of men is engaged, and the work is being pushed forward rapidly. The intention of the contractors is to complete the section between Norwalk and Sandusky by January 1, 1877.

☞ The stock for a new railroad from Nason's Crossing in Franklin, Mass., through Wrentham, Cumberland and West Attleboro' to Central Falls, there connecting with the Providence and Worcester Railroad, has all been subscribed, and ten per cent. paid in. Temporary officers have been elected, consisting of James P. Ray, President; George W. Wiggin, Clerk; and Joseph G. Ray, Treasurer.

☞ The Dutch Government is about to construct a great port, canal and railway at Tandjoug Prisk, near Batavia, in the Dutch Indies. Messrs. Lefevre & Co., of London, have submitted the lowest tender for the execution of the works, viz., £1,896,500.
